(57) **CLAIM**

The ornamental design for a swaddle blanket, as shown and described.

DESCRIPTION

FIG. 1 is a front elevation view of a swaddle blanket showing my new design in an open position;

FIG. 2 is a rear elevation view thereof shown in the open position;

FIG. 3 is a front elevation view thereof shown in an environment in the open position;

FIG. 4 is a front elevation view thereof shown in an environment wherein the right wing portion is in the closed position;

FIG. 5 is a front elevation view thereof shown in an environment wherein the left wing portion is in a closed position and overlapping the right wing portion;

FIG. 6 is a front elevation view thereof shown in an environment in the closed position wherein the bottom portion is in an open position;

FIG. 7 is a right side view thereof shown in an environment in the closed position wherein wherein the bottom portion is in the open position;

FIG. 8 is a left side view thereof shown in an environment in the closed position wherein the bottom portion is in the open position;

FIG. 9 is a top plan view thereof shown in an expanded condition as if an infant was contained therein; and,

FIG. 10 is a bottom plan view thereof shown in an expanded condition as if an infant was contained therein and showing the bottom portion being in the closed position.

The long dash broken lines immediately adjacent the claimed areas represent the bounds of the claimed design while the dot-dash broken lines are directed to environment; the broken lines form no part of the claimed design. The evenly spaced short dash broken lines in FIGS. 1-10 represent stitching and form part of the claimed design.

The pattern sporadically depicted throughout the views is intended to indicate that the pattern is continuous throughout the surface on which the pattern is shown.

1 Claim, 4 Drawing Sheets
