(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen or portion thereof with graphical user interface, showing our new design; FIG. 2 is a front view thereof, in which a display device in broken lines is provided to illustrate an example environment; and, FIG. 3 is an embodiment thereof, in which a display device in broken lines is provided to illustrate an example environment. The broken line perimeter in FIG. 1 represents both the boundaries of the display screen and the graphical user interface. In FIG. 1, this outer edge of the portion of the display screen is understood to be congruent with the outer edge of the graphical user interface. The broken lines shown in the drawings illustrate portions of the display screen or portion thereof with graphical user interface and environmental structure that forms no part of the claimed design.
