(57) **CLAIM**

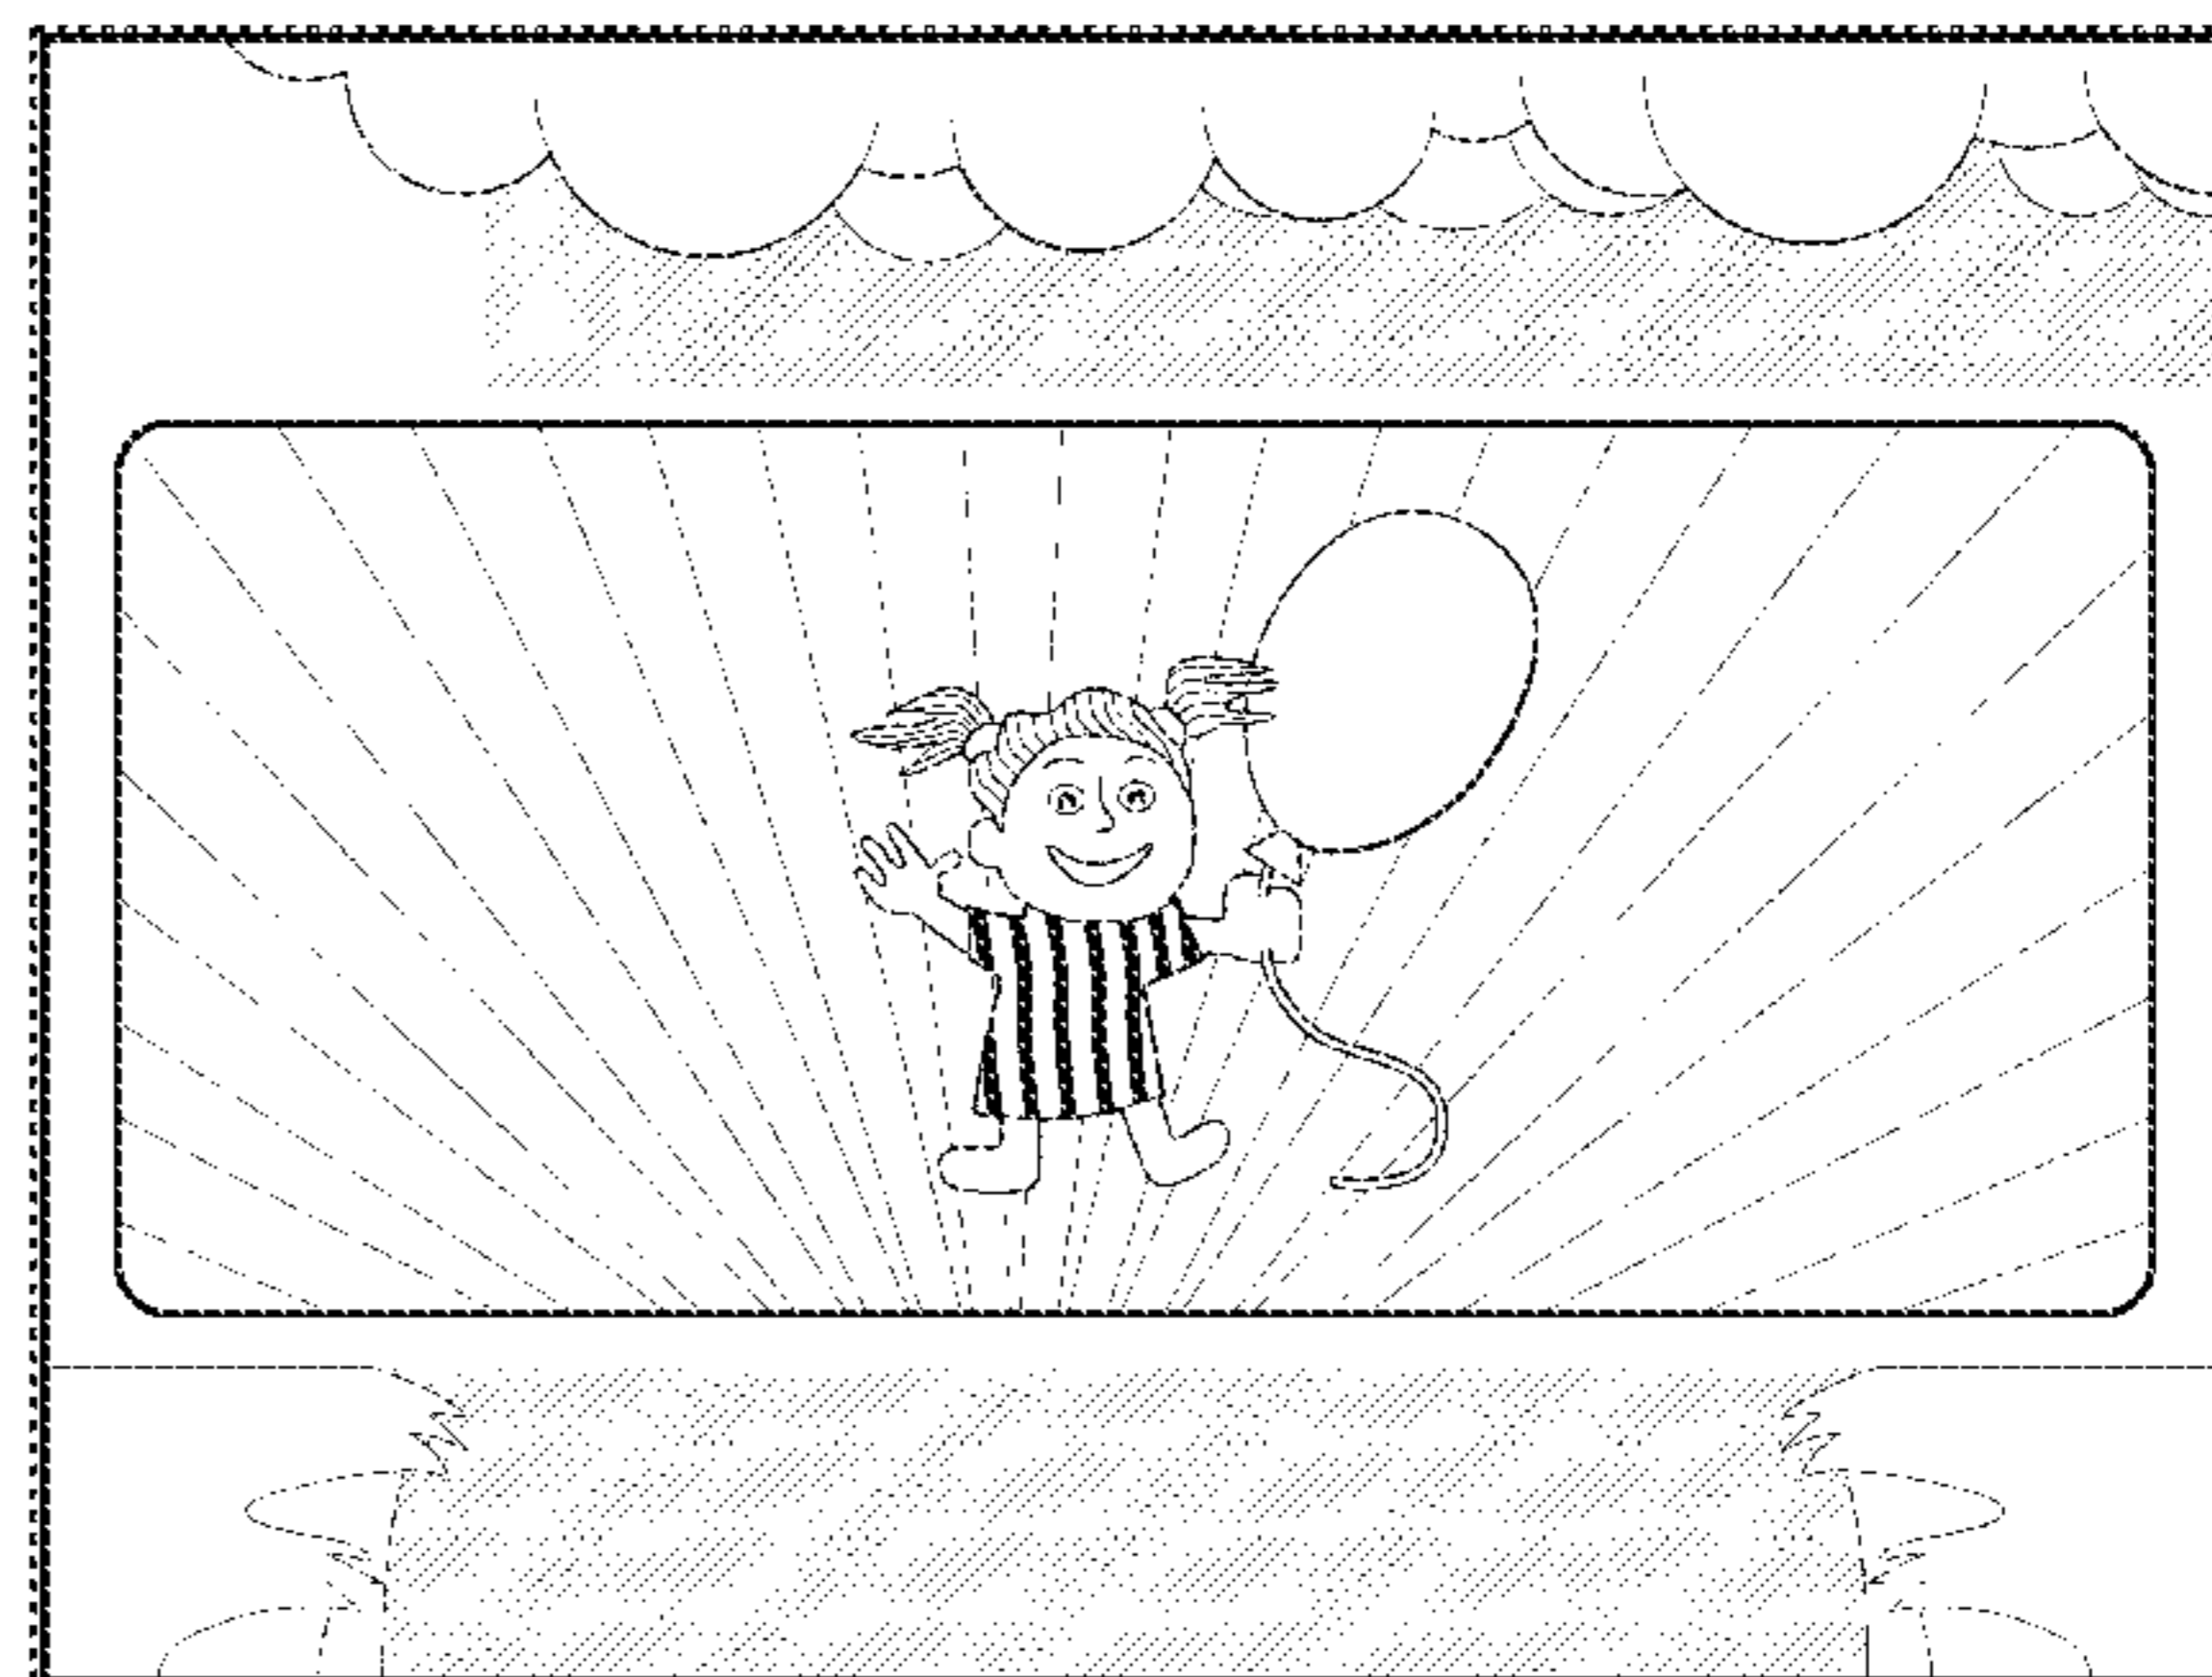

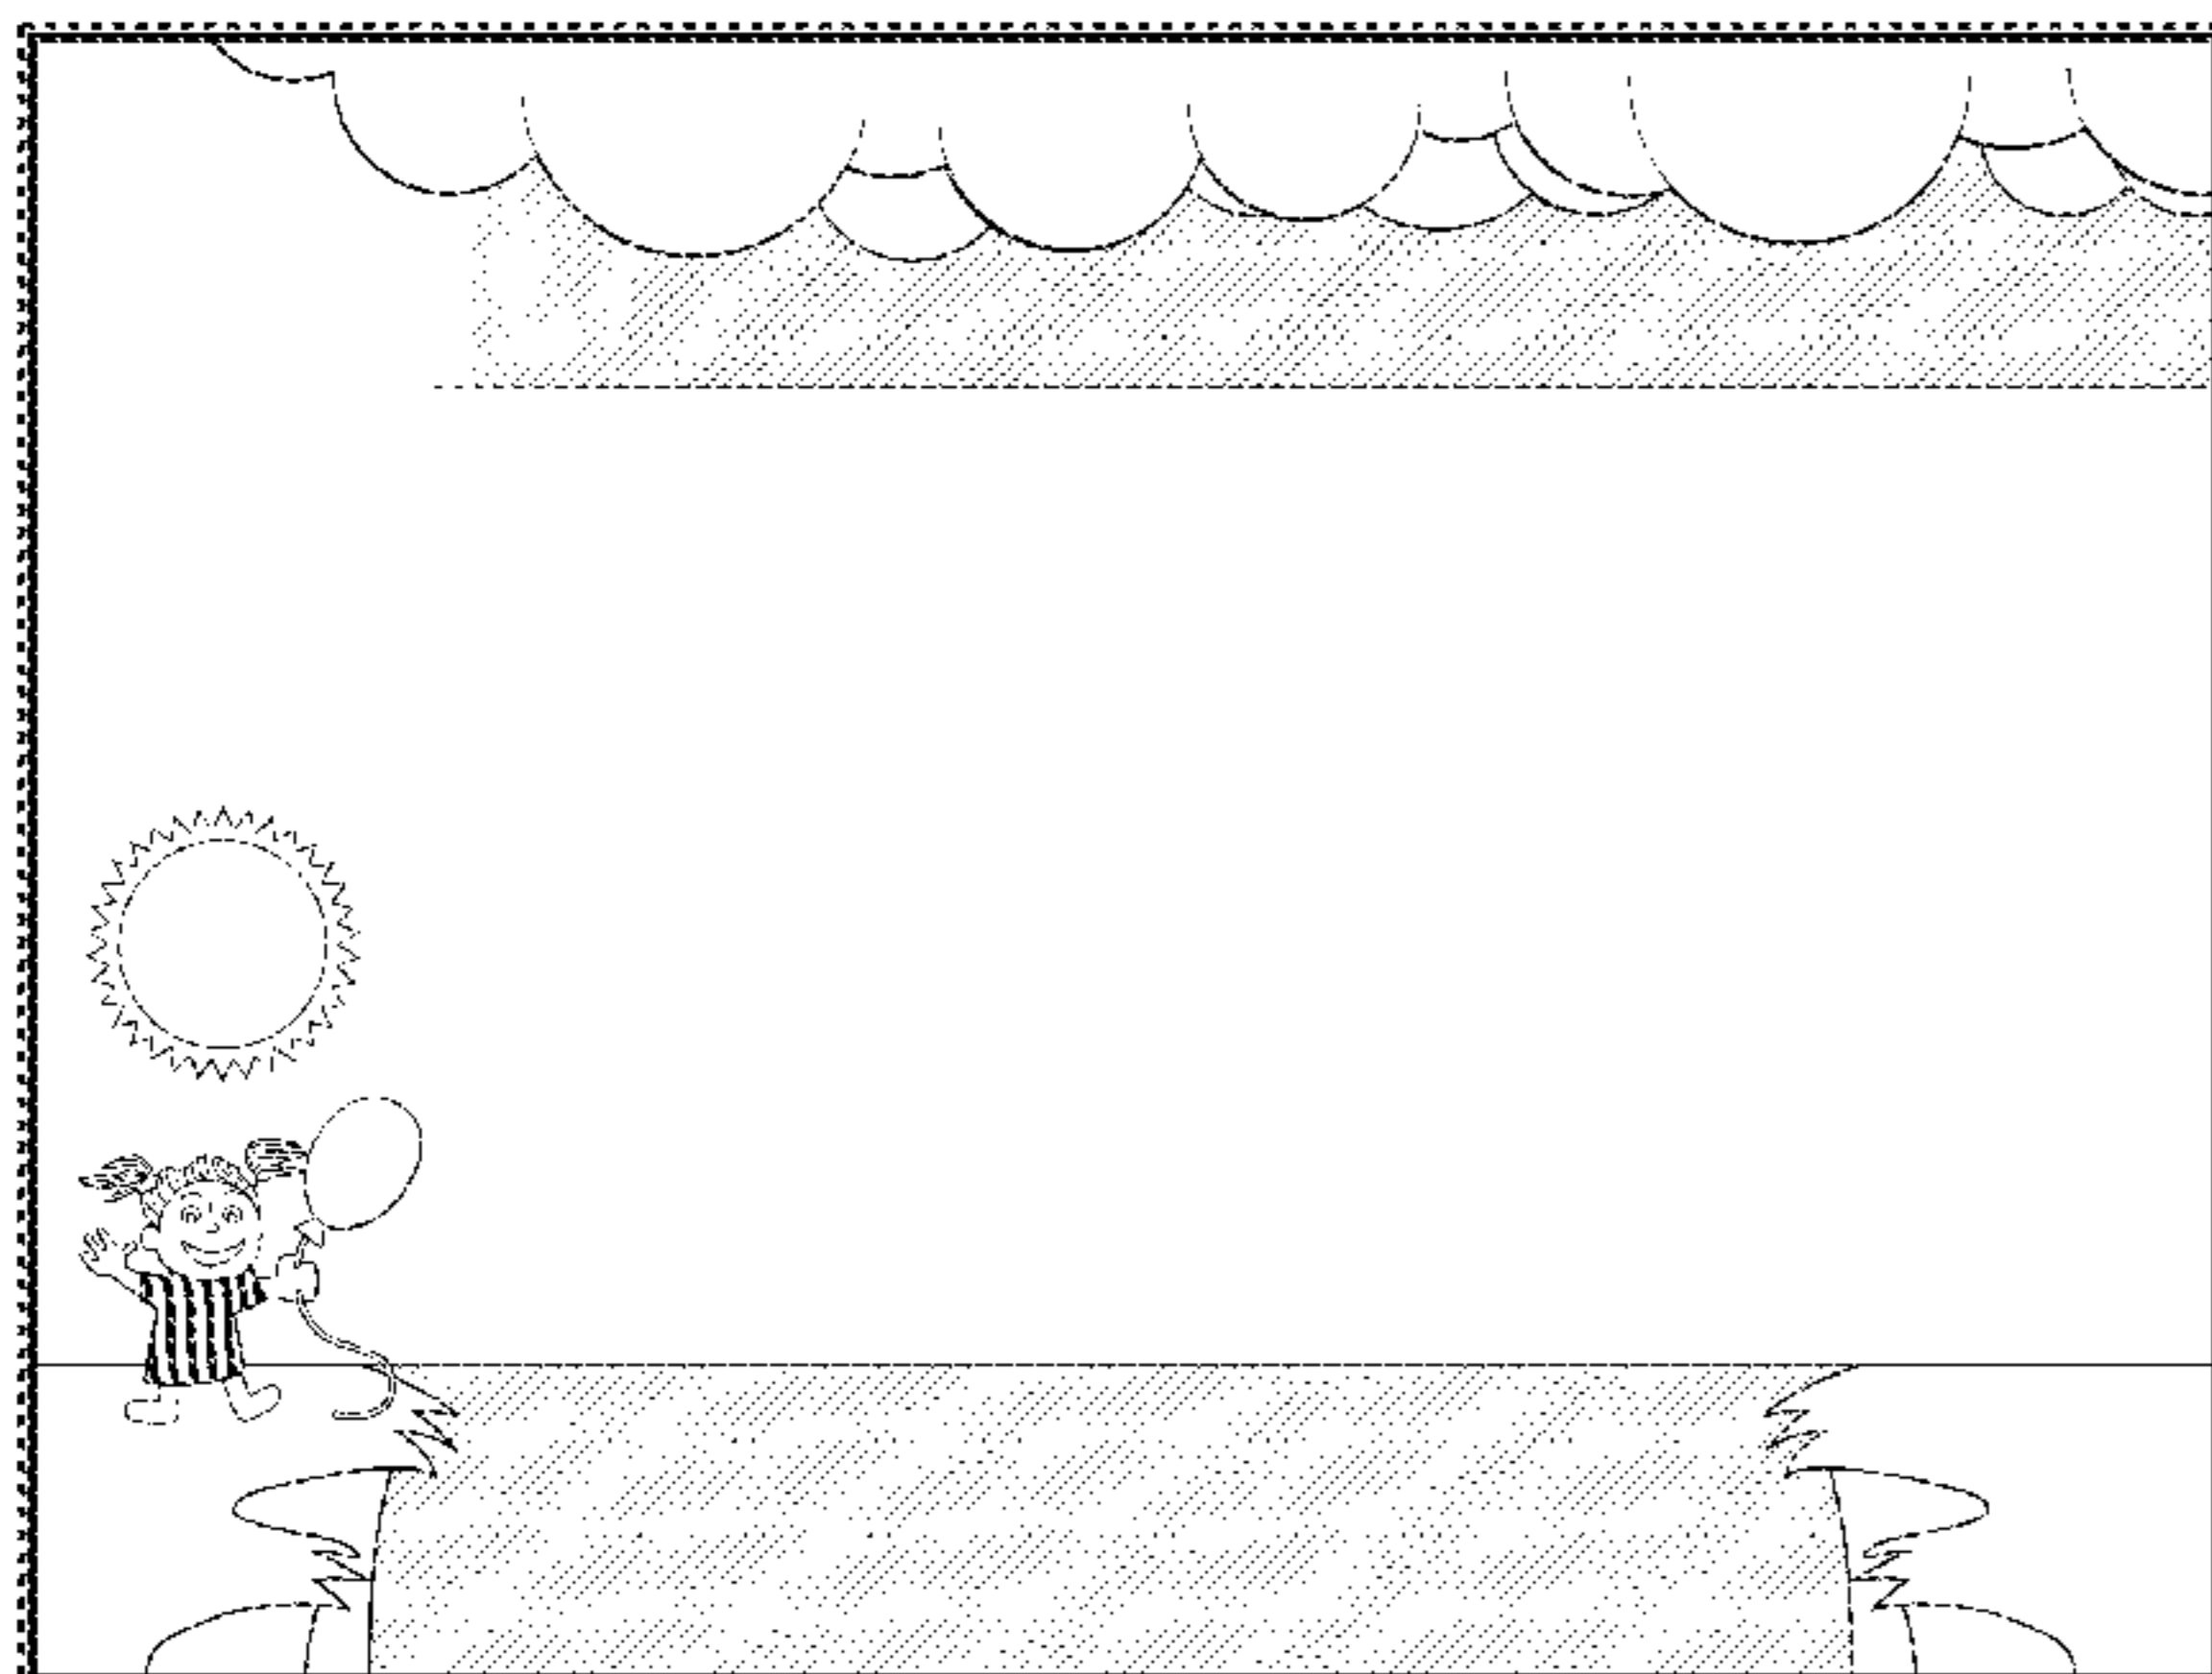

The ornamental design for a medical device display with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a first image in the sequence for an animated graphical user interface for a medical device display with animated graphical user interface showing my new design;
FIG. 2 is the second image thereof;
FIG. 3 is the third image thereof;
FIG. 4 is the fourth image thereof;
FIG. 5 is the fifth image thereof;
FIG. 6 is a first image in an alternate sequence for an animated graphical user interface for a medical device display with animated graphical user interface showing my new design;
FIG. 7 is the second image thereof;
FIG. 8 is the third image thereof;
FIG. 9 is the fourth image thereof;
FIG. 10 is the fifth image thereof;
FIG. 11 is a first image in an alternate sequence for an animated graphical user interface for a medical device display with animated graphical user interface showing my new design;
FIG. 12 is the second image thereof;
FIG. 13 is the third image thereof; and
FIG. 14 is the fourth image thereof.

The appearance of the user interface sequentially transitions between images as shown and described. The process or period in which one image transitions to another forms no part of the claimed design. The broken line perimeter shown in FIGS. 1-14 is included for the purpose of showing a portion of a display screen and forms no part of the claimed design.
