(57) **CLAIM**

The ornamental design for a display screen portion with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image of a first embodiment of a display screen portion with animated graphical user interface showing my new design;
FIG. 2 is a front view of a second image thereof;
FIG. 3 is a front view of a first image of a second embodiment of a display screen portion with animated graphical user interface showing my new design;
FIG. 4 is a front view of a second image thereof;
FIG. 5 is a front view of a first image of a third embodiment of a display screen portion with animated graphical user interface showing my new design;
FIG. 6 is a front view of a second image thereof;
FIG. 7 is a front view of a first image of a fourth embodiment of a display screen portion with animated graphical user interface showing my new design; and
FIG. 8 is a front view of a second image thereof.
In the first embodiment, the appearance of the transitional image sequentially transitions between the images shown in FIGS. 1 and 2. In the second embodiment, the appearance of the transitional image sequentially transitions between the images shown in FIGS. 3 and 4. In the third embodiment, the appearance of the transitional image sequentially transitions between the images shown in FIGS. 5 and 6. In the fourth embodiment, the appearance of the transitional image sequentially transitions between the images shown in FIGS. 7 and 8. The process or period in which one image transitions to another image forms no part of the claimed design.
The broken lines shown in the figures of a display screen and portions of the graphical user interface, including the text, numbers and symbols are for the purpose of illustrating portions of the article, and form no part of the claimed design.

1 Claim, 8 Drawing Sheets
