(57) **CLAIM**

The ornamental design for a spherical nightlight with base, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a spherical nightlight with base showing our new design;
 FIG. 2 is a front elevational view of the embodiment of FIG. 1;
 FIG. 3 is a rear elevational view of the embodiment of FIG. 1;
 FIG. 4 is a right side elevational view of the embodiment of FIG. 1;
 FIG. 5 is a left side elevational view of the embodiment of FIG. 1;
 FIG. 6 is top plan view of the embodiment of FIG. 1;
 FIG. 7 is a bottom plan view of the embodiment of FIG. 1;
 FIG. 8 is a perspective view of an alternate embodiment of the spherical nightlight with base having an alternate surface pattern;
 FIG. 9 is a front elevational view of the embodiment of FIG. 8;
 FIG. 10 is a rear elevational view of the embodiment of FIG. 8;
 FIG. 11 is a right side elevational view of the embodiment of FIG. 8;
 FIG. 12 is a left side elevational view of the embodiment of FIG. 8; and,
 FIG. 13 is top plan view of the embodiment of FIG. 8.
 Surface shading is used to shade FIGS. 1-13 to show clearly the character and contour of all surfaces of the 3-dimensional aspects of the design and form a part of the design sought to be protected. FIGS. 8-13 are a second embodiment of the spherical nightlight with base illustrated in FIGS. 1-7, the only difference being the surface pattern, it being understood that the view of the bottom surface of the alternate embodiment of FIGS. 8-13 is the same as the bottom surface of the embodiment of FIGS. 1-7.
