(57) **CLAIM**

We claim the ornamental design for an end for extension
member, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the first embodiment showing
the front, left and top sides of an end for extension member.
FIG. 2 is a front side elevation view of the end for extension
member of FIG. 1.

FIG. 3 is a rear side elevation view of the end for extension
member of FIG. 1.

FIG. 4 is a top side plan view of the end for extension member
of FIG. 1.

FIG. 5 is a bottom side plan view of the end for extension
member of FIG. 1.

FIG. 6 is a left side elevation view of the end for extension
member of FIG. 1, the right side being a mirror image of the
left side.

FIG. 7 is a perspective view of the second embodiment show-
ing front, left and top sides of an end for extension member,
shown with an alternate loop end.

FIG. 8 is a front side elevation view of the end for extension
member of FIG. 7.

FIG. 9 is a rear side elevation view of the end for extension
member of FIG. 7.

FIG. 10 is a top side plan view of the end for extension
member of FIG. 7, the bottom side being a mirror image of the
top side; and,

FIG. 11 is a left side elevation view of the end for extension
member of FIG. 7, the right side being a mirror image of the
left side.

The broken lines in the drawings illustrate portions of the end
for extension member and form no part of the claimed design.
All portions of the end for extension member located in
between the break lines shown in FIGS. 1, 4-7 and 10-11 form
no part of the claimed design.
