#### (57) CLAIM

The ornamental design for a portion of a display panel with an animated computer icon, substantially as shown and described.

#### **DESCRIPTION**

FIG. 1 is a front view of a portion of a display panel with an animated computer icon, showing a first image of an embodiment of a portion of a display panel with an animated computer icon.

FIG. 2 is a front view of the portion of a display panel with an animated computer icon, showing a second image of the embodiment of the portion of a display panel with an animated computer icon.

FIG. 3 is a front view of the portion of a display panel with an animated computer icon, showing a third image of the embodiment of the portion of a display panel with an animated computer icon.

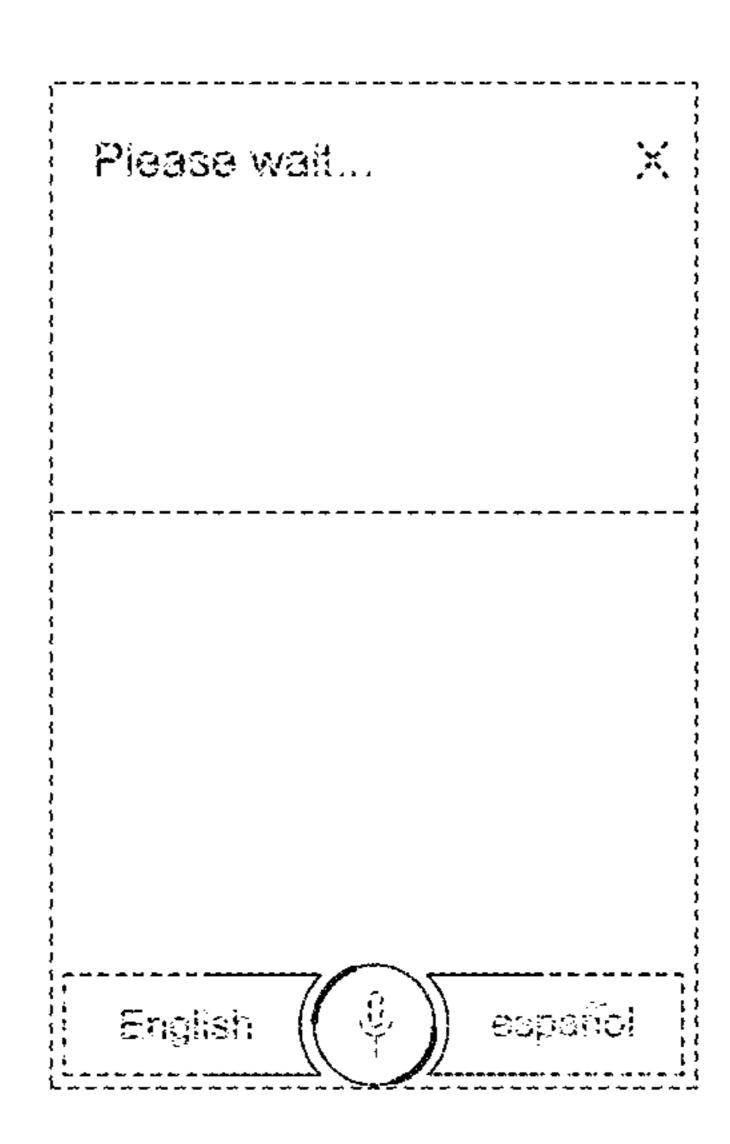

FIG. 4 is a front view of the portion of a display panel with an animated computer icon, showing a fourth image of the embodiment of a portion of a display panel with an animated computer icon; and,

FIG. 5 is a front view of the portion of a display panel with an animated computer icon, showing a fifth image of the embodiment of the portion of a display panel with an animated computer icon.

The appearance of the image sequentially transitions between the images shown in FIGS. 1-5. The process or period in which an image transitions to another forms no part of the claimed design.

In the drawings, the broken lines show a portion of a display panel with an animated computer icon and form no part of the claimed design.
