(57) **CLAIM**

The ornamental design for a medical device display with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a first image in the sequence for an animated graphical user interface for a medical device display with animated graphical user interface showing my new design;

FIG. 2 is a second image thereof;

FIG. 3 is a third image thereof;

FIG. 4 is a fourth image thereof;

FIG. 5 is a first image in an alternate sequence for an animated graphical user interface for a medical device display with animated graphical user interface showing my new design;

FIG. 6 is second image thereof;

FIG. 7 is a third image thereof;

FIG. 8 is a fourth image thereof;

FIG. 9 is a first image in an alternate sequence for an animated graphical user interface for a medical device display with animated graphical user interface showing my new design;

FIG. 10 is second image thereof;

FIG. 11 is a third image thereof;

FIG. 12 is a fourth image thereof;

FIG. 13 is a first image in an alternate sequence for an animated graphical user interface for a medical device display with animated graphical user interface showing my new design;

FIG. 14 is a second image thereof; and,

FIG. 15 is a third image thereof.

The broken line shown in the drawings represents portions of the article that form no part of the claimed design. The broken line perimeter shown in FIGS. 1-15 is included for the purpose of showing a portion of the display screen and forms no part of the claimed design.

The appearance of the user interface sequentially transitions between images as shown and described. The process or period in which one image transitions to another forms no part of the claimed design.
