(57) **CLAIM**

The ornamental design for a "temple sleeve," as shown and
described.

DESCRIPTION

FIG. 1 is a top right rear perspective view of a temple sleeve
installed on a temple of a pair of glasses;
FIG. 2 is a right side orthogonal view thereof;
FIG. 3 is a left side orthogonal view thereof;
FIG. 4 is a top orthogonal view thereof;
FIG. 5 is a bottom orthogonal view thereof;
FIG. 6 is a front orthogonal view thereof showing an opening
through which a temple of glasses is inserted; and,
FIG. 7 is a rear orthogonal view thereof.

The broken-lines of FIG. 5 and FIG. 7 depict a seam. The
broken-lines of FIG. 1 depict an environmental structure of
the pair of glasses. These broken line features are depicted for
illustrative purposes only, and form no part of the claimed
design. The hash pattern of FIG. 1 to FIG. 7 illustrates texture.
The characteristic feature of the design resides in the temple
sleeve being flexible such that the temple sleeve contours to
conform to a variety of temples as shown in FIG. 1.
