(57) **CLAIM**

The ornamental design for a display screen portion with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image of a first embodiment of a display screen portion with animated graphical user interface showing my new design;
 FIG. 2 is a front view of a second image thereof;
 FIG. 3 is a front view of a third image thereof;
 FIG. 4 is a front view of a first image of a second embodiment of a display screen portion with animated graphical user interface showing my new design;
 FIG. 5 is a front view of a second image thereof;
 FIG. 6 is a front view of a third image thereof;
 FIG. 7 is a front view of a first image of a third embodiment of a display screen portion with animated graphical user interface showing my new design;
 FIG. 8 is a front view of a second image thereof; and,
 FIG. 9 is a front view of a third image thereof.

In the first embodiment, the appearance of the transitional image sequentially transitions between the images shown in FIGS. 1 through 3. In the second embodiment, the appearance of the transitional image sequentially transitions between the images shown in FIGS. 4 through 6. In the third embodiment, the appearance of the transitional image sequentially transitions between the images shown in FIGS. 7 through 9. The process or period in which one image transitions to another image forms no part of the claimed design. The broken line showing of a display screen and remainder of the graphical user interface forms no part of the claimed design. The grey-scale indicates a contrast of appearance.
