(57) **CLAIM**

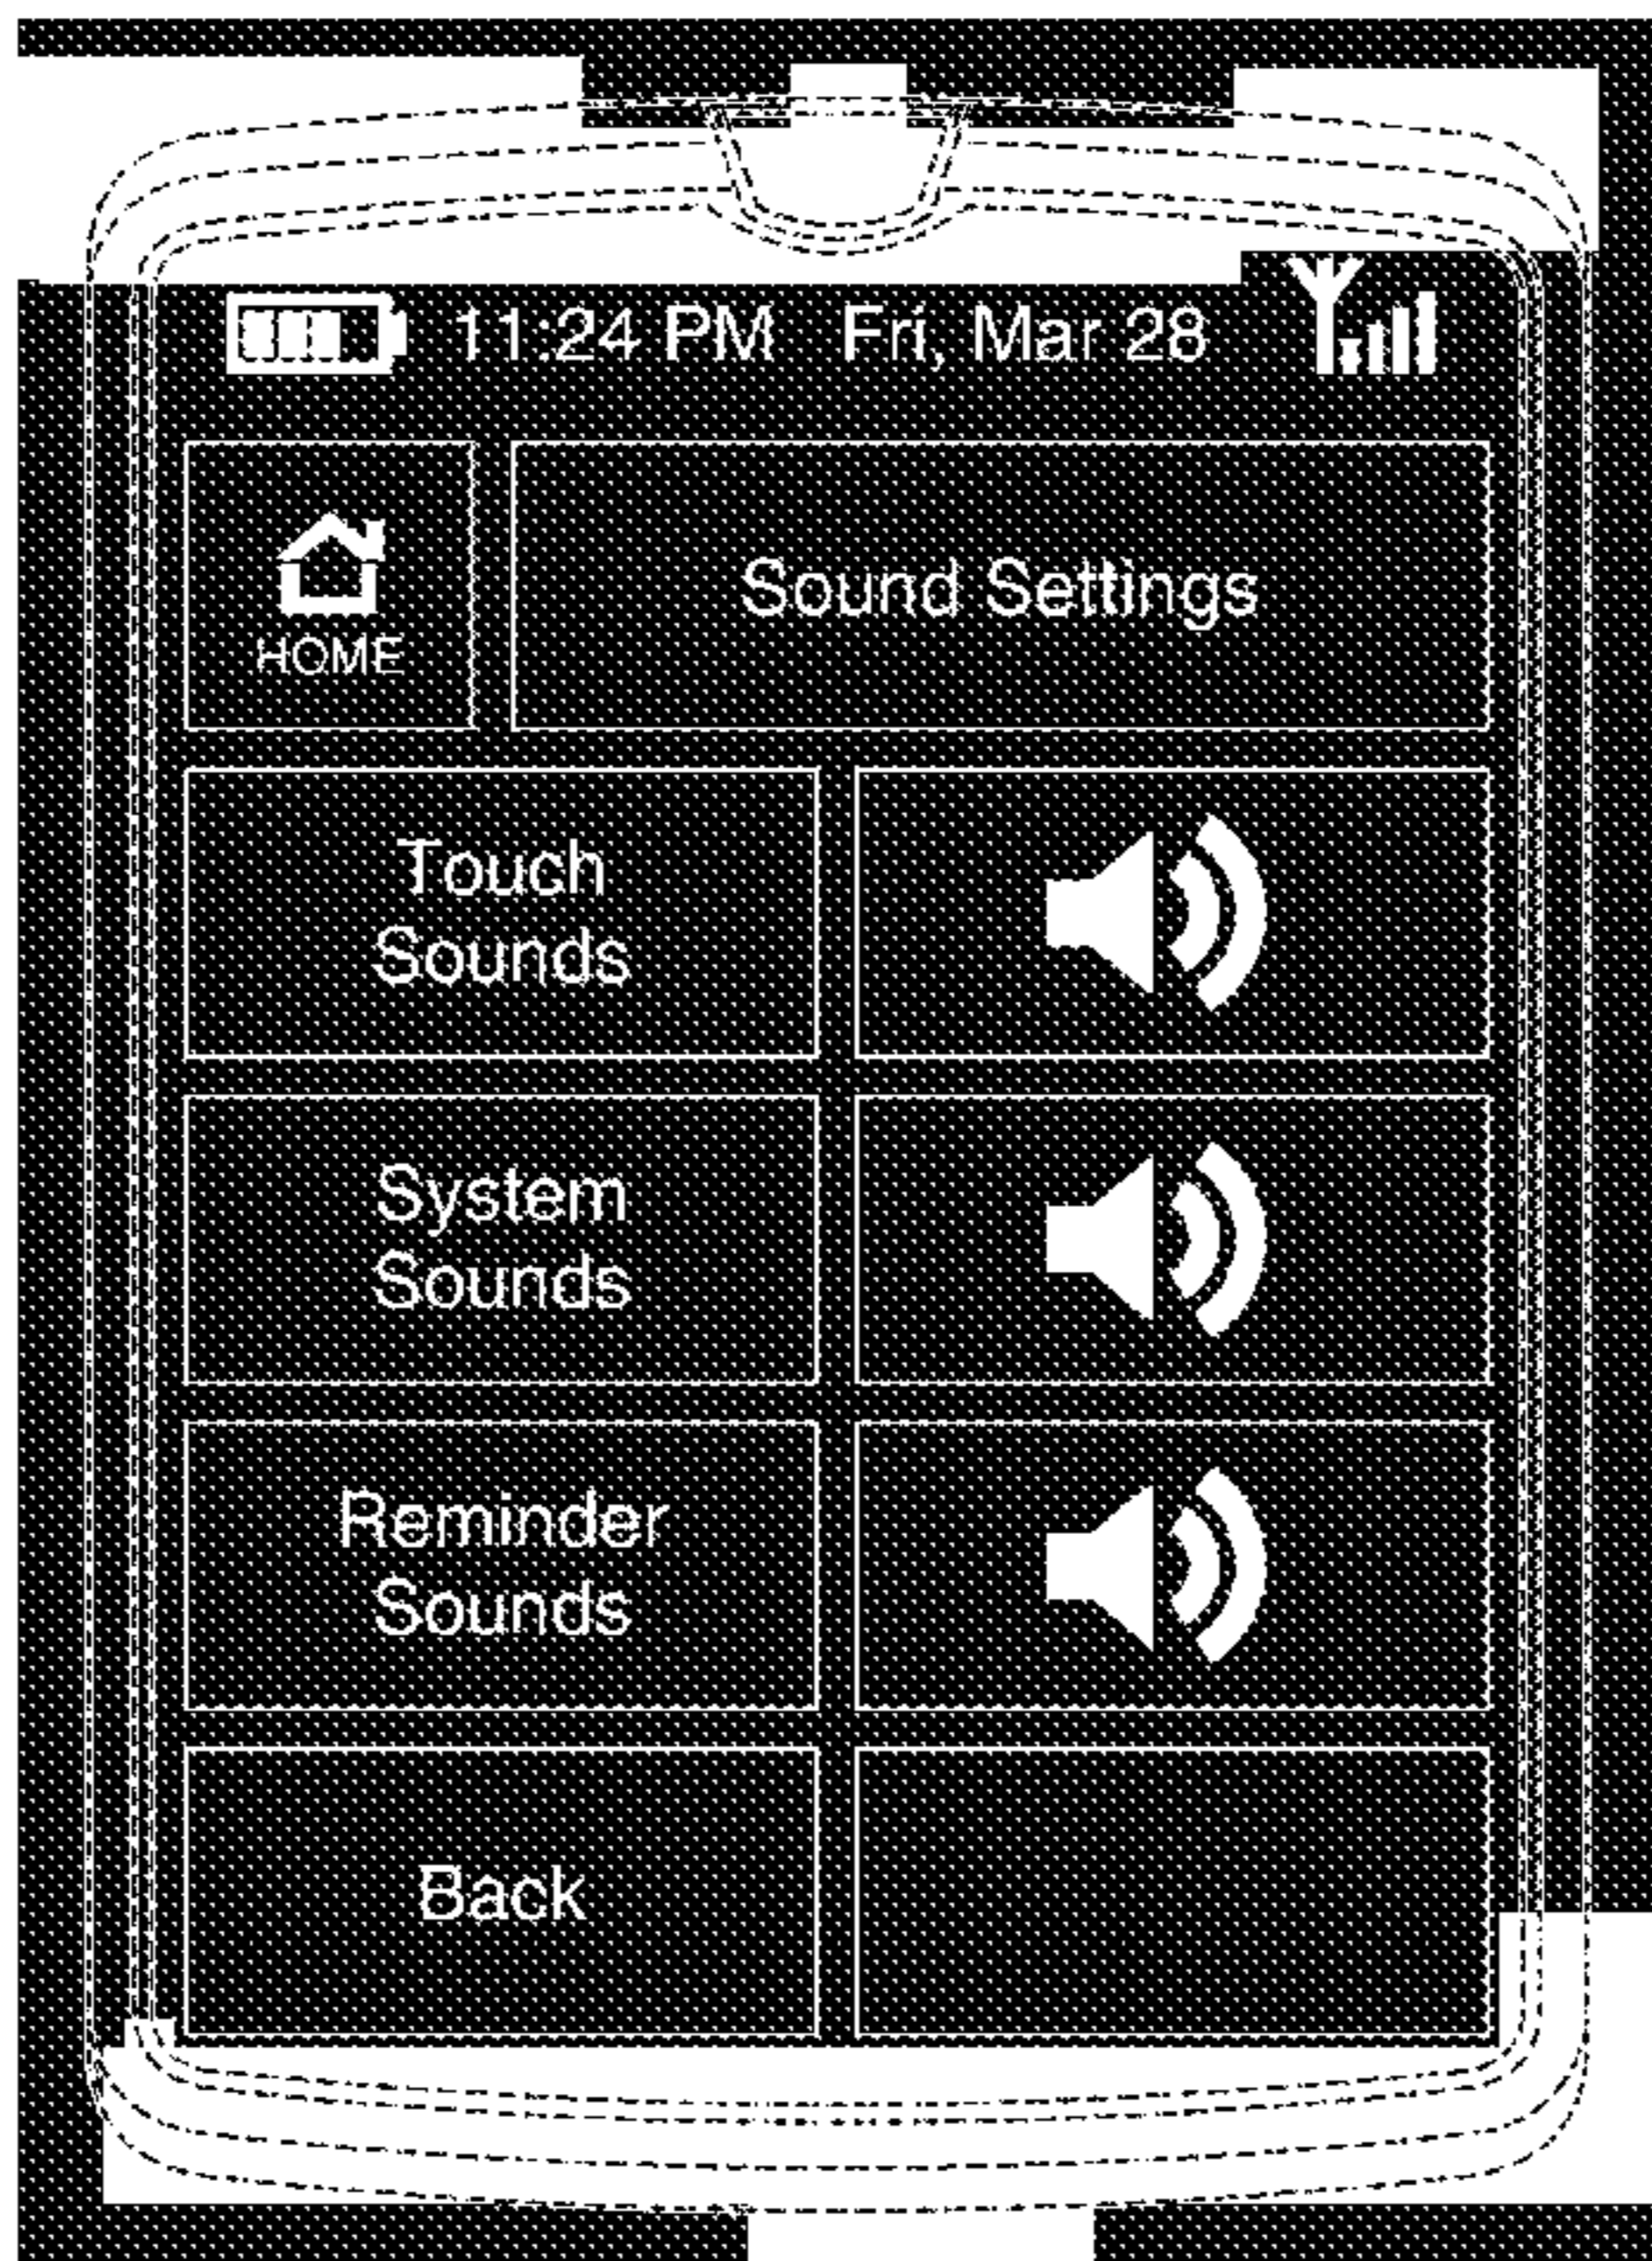

The ornamental design for the glucometer display screen with a sound control graphical user interface, as shown and described.

DESCRIPTION

The sole FIGURE is a front plan view of a glucometer display screen with a sound control graphical user interface.

The broken lines shown illustrate a display screen and illustrate an electronic device which is the environment of the glucometer display screen with a sound control graphical user interface. None of the broken lines form part of the claimed design.

1 Claim, 1 Drawing Sheet
