(57) **CLAIM**

The ornamental design for a display screen portion with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first embodiment of a display screen portion with graphical user interface showing our new design; FIG. 2 is a front view of a second embodiment of a display screen portion with graphical user interface showing our new design;

FIG. 3 is a front view of a third embodiment of a display screen portion with graphical user interface showing our new design; and,

FIG. 4 is a front view of a fourth embodiment of a display screen portion with graphical user interface showing our new design.

The broken lines shown in the figures of a display screen and portions of the graphical user interface, including the text, numbers and symbols are for the purpose of illustrating portions of the article, and form no part of the claimed design. The greyscale fill shown in a portion of the progress bar in FIGS. 1 through 5 indicates that the region in which the greyscale fill appears is a different color and/or brightness than the area of the progress bar that does not contain greyscale fill. The greyscale fill appearing in the circular icon in FIG. 3 indicates that the filled area is a different color and/or brightness than the area that immediately surrounds the circular icon.
