(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of a first image of a graphical user interface for a display screen or a portion thereof; FIG. 2 is a front view of a second image of the graphical user interface for a display screen or a portion thereof according to a first embodiment; and, FIG. 3 is a front view of a second image of the graphical user interface for a display screen or a portion thereof according to a second embodiment.

In the above-described embodiments, the appearance of the images transitions sequentially in any order between the first and second images shown in such embodiments. The process or period in which an image transitions to another forms no part of the claimed design.

The broken line showings of portions of a display screen, text, and other features in the figures are environmental only and form no part of the claimed design.

Stipple-fill areas represent portions of the design that have a color that contrasts with a color of the non-filled areas.
