(57) **CLAIM**

The ornamental design for an extruded track with caster wheels for suspending movable gates, as shown and described.

(21) Appl. No.: **29/516,744**

DESCRIPTION

(22) Filed: **Feb. 5, 2015**

FIG. 1 is a perspective view of the bottom portion of the extruded track with caster wheels for suspending movable gates as assembled in use.

(51) **LOC (10) Cl.** **08-05**

FIG. 2 is a perspective view of the top portion of the extruded track with caster wheels for suspending movable gates.

(52) **U.S. Cl.**

USPC **D8/377**

FIG. 3 is a bottom view of the extruded track with caster wheels for suspending movable gates as assembled in use.

FIG. 5 is a left view of the extruded track with caster wheels for suspending movable gates as assembled in use.

FIG. 6 is an end view of the extruded track with caster wheels for suspending movable gates as assembled in use, the front and rear end views being mirror images of each other.

See application file for complete search history.

FIG. 7 is a perspective view of a top portion of the extruded track with caster wheels for suspending movable gates, showing a view of the wheels with the rest of the extruded track with caster wheels for suspending movable gates removed for clarity of disclosure.

FIG. 8 is a perspective view of a bottom portion of the extruded track with caster wheels for suspending movable gates, showing another view of the wheels with the rest of the extruded track with caster wheels for suspending movable gates removed for clarity of disclosure.

FIG. 10 is a bottom view of the trolley portion of the trolley and track, showing a bottom view of the wheels with the rest of the extruded track with caster wheels for suspending movable gates removed for clarity of disclosure.

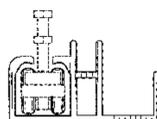

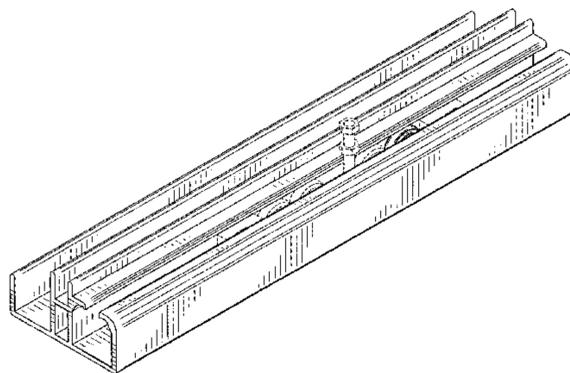

FIG. **11** is a side view of one of the two identical wheels with the rest of the extruded track with caster wheels for suspending movable gates removed for clarity of disclosure; and, FIG. **12** is a front view of the two identical wheels with the rest of the extruded track with caster wheels for suspending movable gates removed for clarity of disclosure. The broken line illustration of the structure of the extruded track with caster wheels for suspending movable gates in the

drawings is unclaimed subject matter. No claim is made to the design of the hidden inner surfaces of the two identical wheels that are not shown. The track is an extruded profile, and no claim is made as to the particular length of the extruded profile illustrated in the drawings.
