(57) **CLAIM**

The ornamental design for a visual display device for a force and/or motion measurement system, as shown and described.

DESCRIPTION

FIG. 1 is a front-right perspective view of a first embodiment of a visual display device for a force and/or motion measurement system showing our new design;

FIG. 2 is a front elevational view of the embodiment shown in FIG. 1;

FIG. 3 is a top plan view of the embodiment shown in FIG. 1; FIG. 4 is a bottom plan view of the embodiment shown in FIG. 1;

FIG. 5 is a right side elevational view of the embodiment shown in FIG. 1;

FIG. 6 is a left side elevational view of the embodiment shown in FIG. 1;

FIG. 7 is a rear elevational view of the embodiment shown in FIG. 1;

FIG. 8 is a rear-right perspective view of the embodiment shown in FIG. 1;

FIG. 9 is a rear-left perspective view of the embodiment shown in FIG. 1;

FIG. 10 is a front-right perspective view of a second embodiment of a visual display device for a force and/or motion measurement system showing our new design;

FIG. 11 is a front elevational view of the embodiment shown in FIG. 10;

FIG. 12 is a top plan view of the embodiment shown in FIG. 10;

FIG. 13 is a bottom plan view of the embodiment shown in FIG. 10;

FIG. 14 is a right side elevational view of the embodiment shown in FIG. 10;

FIG. 15 is a left side elevational view of the embodiment shown in FIG. 10;

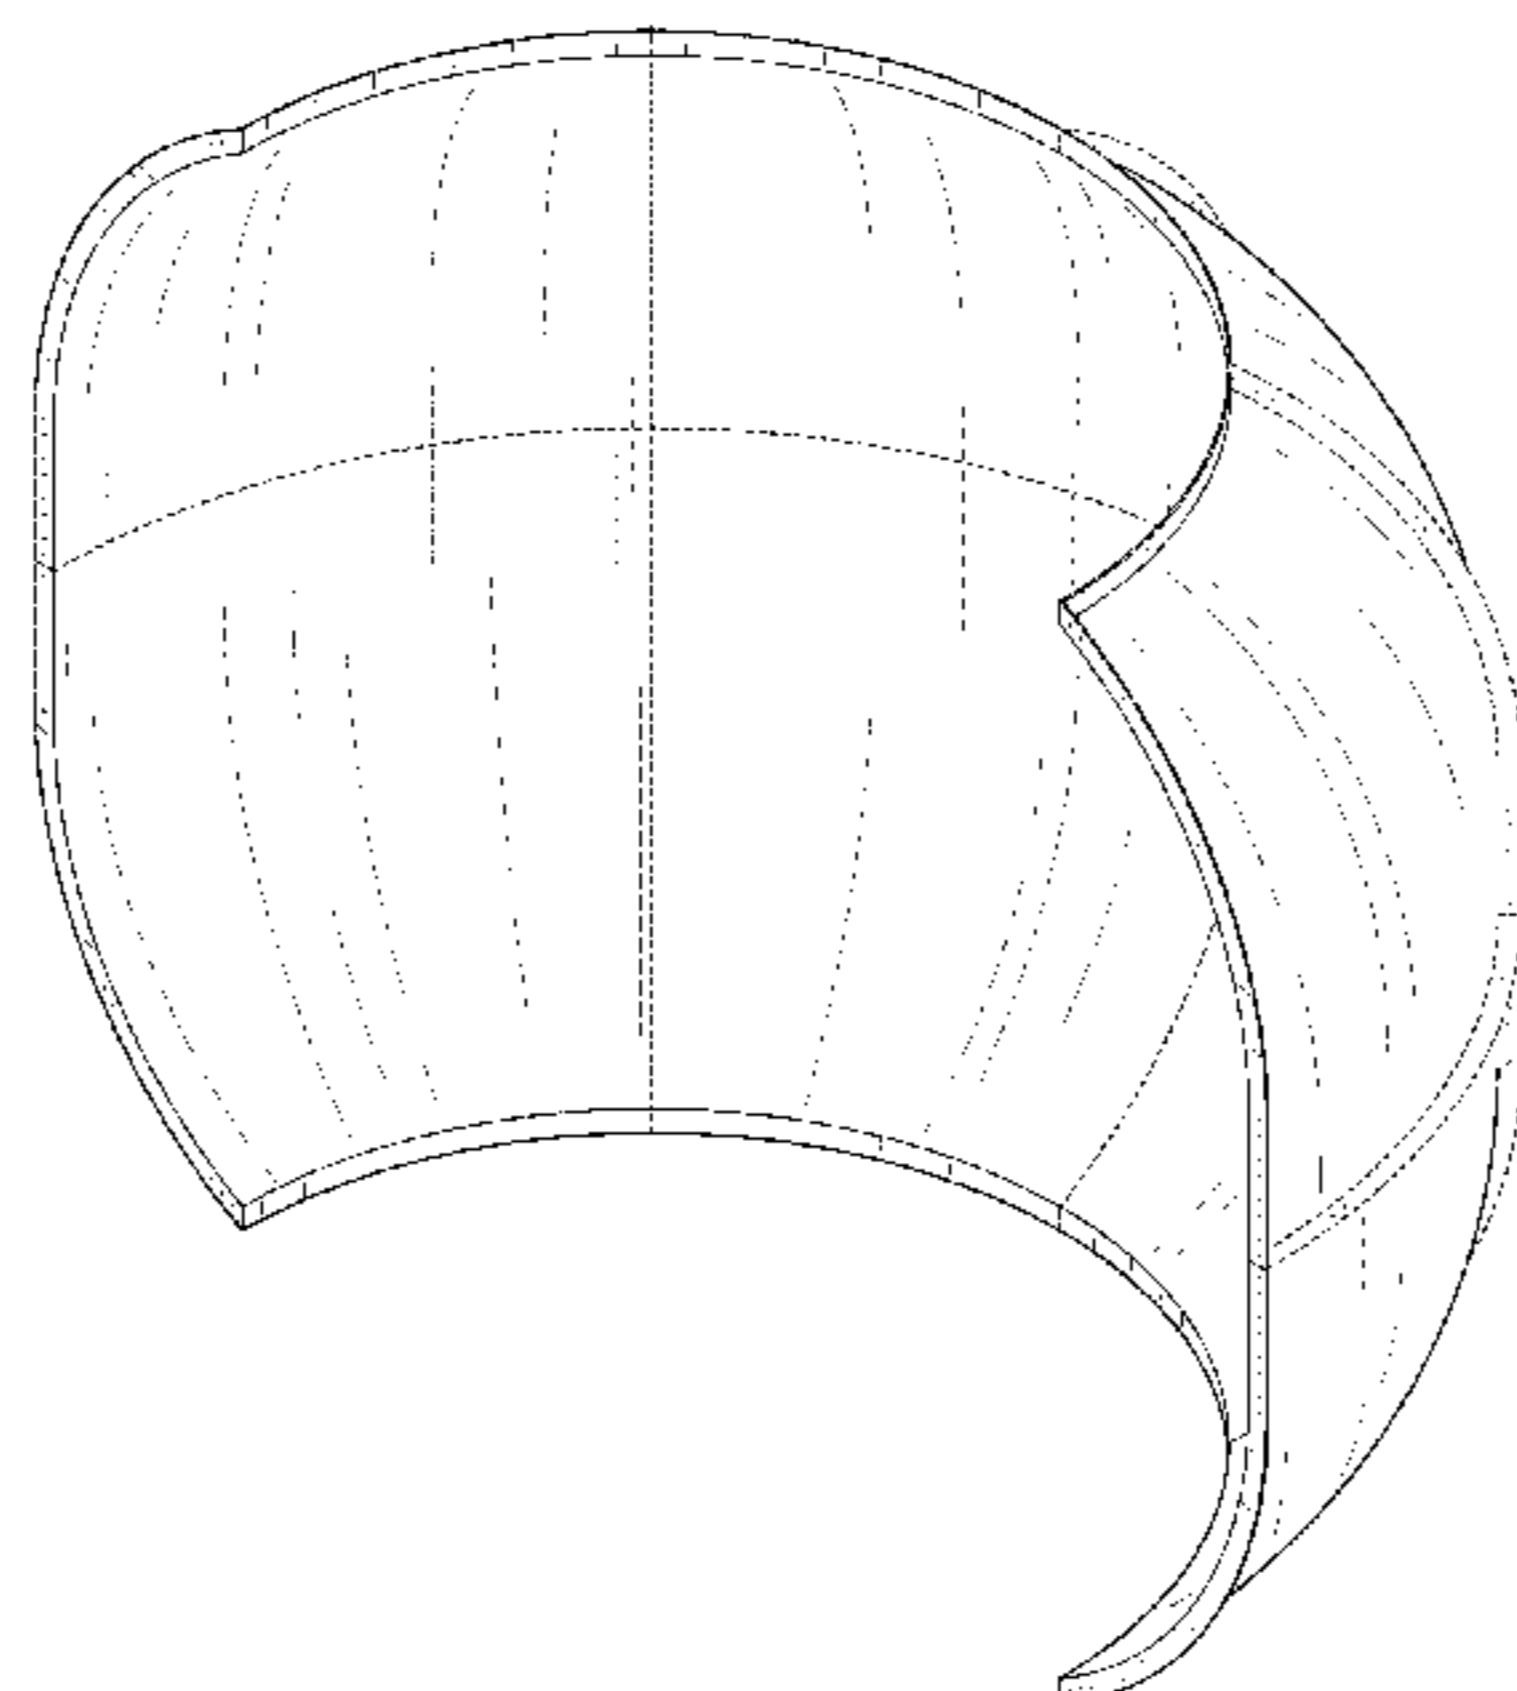

FIG. 16 is a rear elevational view of the embodiment shown in FIG. 10;

FIG. 17 is a rear-right perspective view of the embodiment shown in FIG. 10; and,

FIG. 18 is a rear-left perspective view of the embodiment shown in FIG. 10.

The broken line portions of the drawing figures are included to show unclaimed subject matter only and form no part of the claimed design. As shown in the drawing figures, the seams between the sections of the visual display device, the flanges on the rear side of the visual display device, and all of the circular fastener apertures in the flanges of the visual display device, which are illustrated using broken lines, are unclaimed subject matter only and form no part of the claimed design.

1 Claim, 18 Drawing Sheets
