(57) **CLAIM**

The ornamental design for a display screen or portion thereof with animated graphical user interface, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a display screen or portion thereof with animated graphical user interface showing a first image of our new design according to a first embodiment;

FIG. 2 is a second image thereof;

FIG. 3 is a third image thereof;

FIG. 4 is a fourth image thereof;

FIG. 5 is a front view of a display screen or portion thereof with animated graphical user interface showing a first image of our new design according to a second embodiment;

FIG. 6 is a second image thereof;

FIG. 7 is a third image thereof;

FIG. 8 is a fourth image thereof;

FIG. 9 is a front view of a display screen or portion thereof with animated graphical user interface showing a first image of our new design according to a third embodiment;

FIG. 10 is a second image thereof;

FIG. 11 is a third image thereof;

FIG. 12 is a fourth image thereof;

FIG. 13 is a front view of a display screen or portion thereof with animated graphical user interface showing a first image of our new design according to a fourth embodiment;

FIG. 14 is a second image thereof;

FIG. 15 is a third image thereof; and,

FIG. 16 is a fourth image thereof.

The outermost broken lines in the figures show a display screen or portion thereof, and form no part of the claimed design. The other broken lines in the figures show portions of the animated graphical user interface that form no part of the claimed design.

The appearance of the animated images transitions between the images shown in FIGS. 1-4, FIGS. 5-8, FIGS. 9-12, and FIGS. 13-16. The process or period in which one image transitions to another forms no part of the claimed design.

1 Claim, 8 Drawing Sheets
