(57) **CLAIM**

The ornamental design for a portions of two display screens with animated graphical user interface, as shown and described.

DESCRIPTION

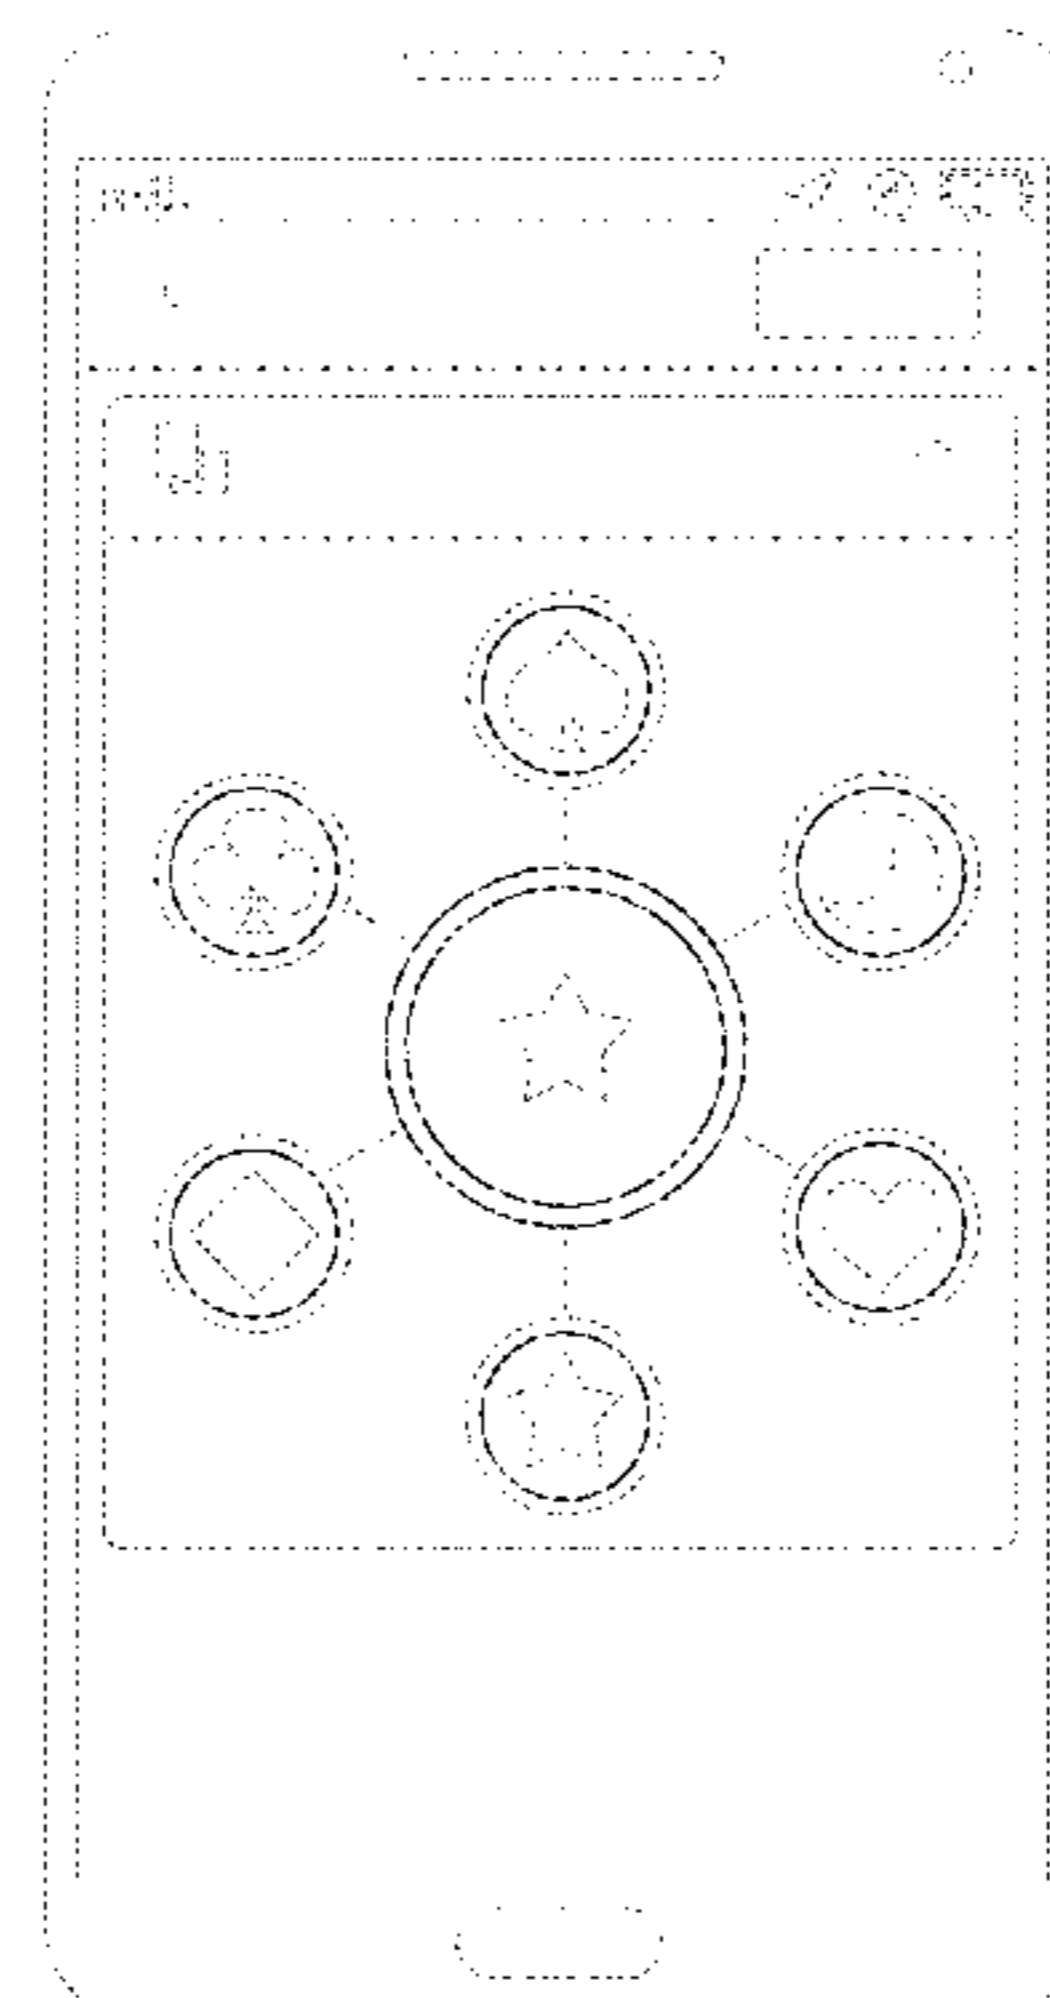

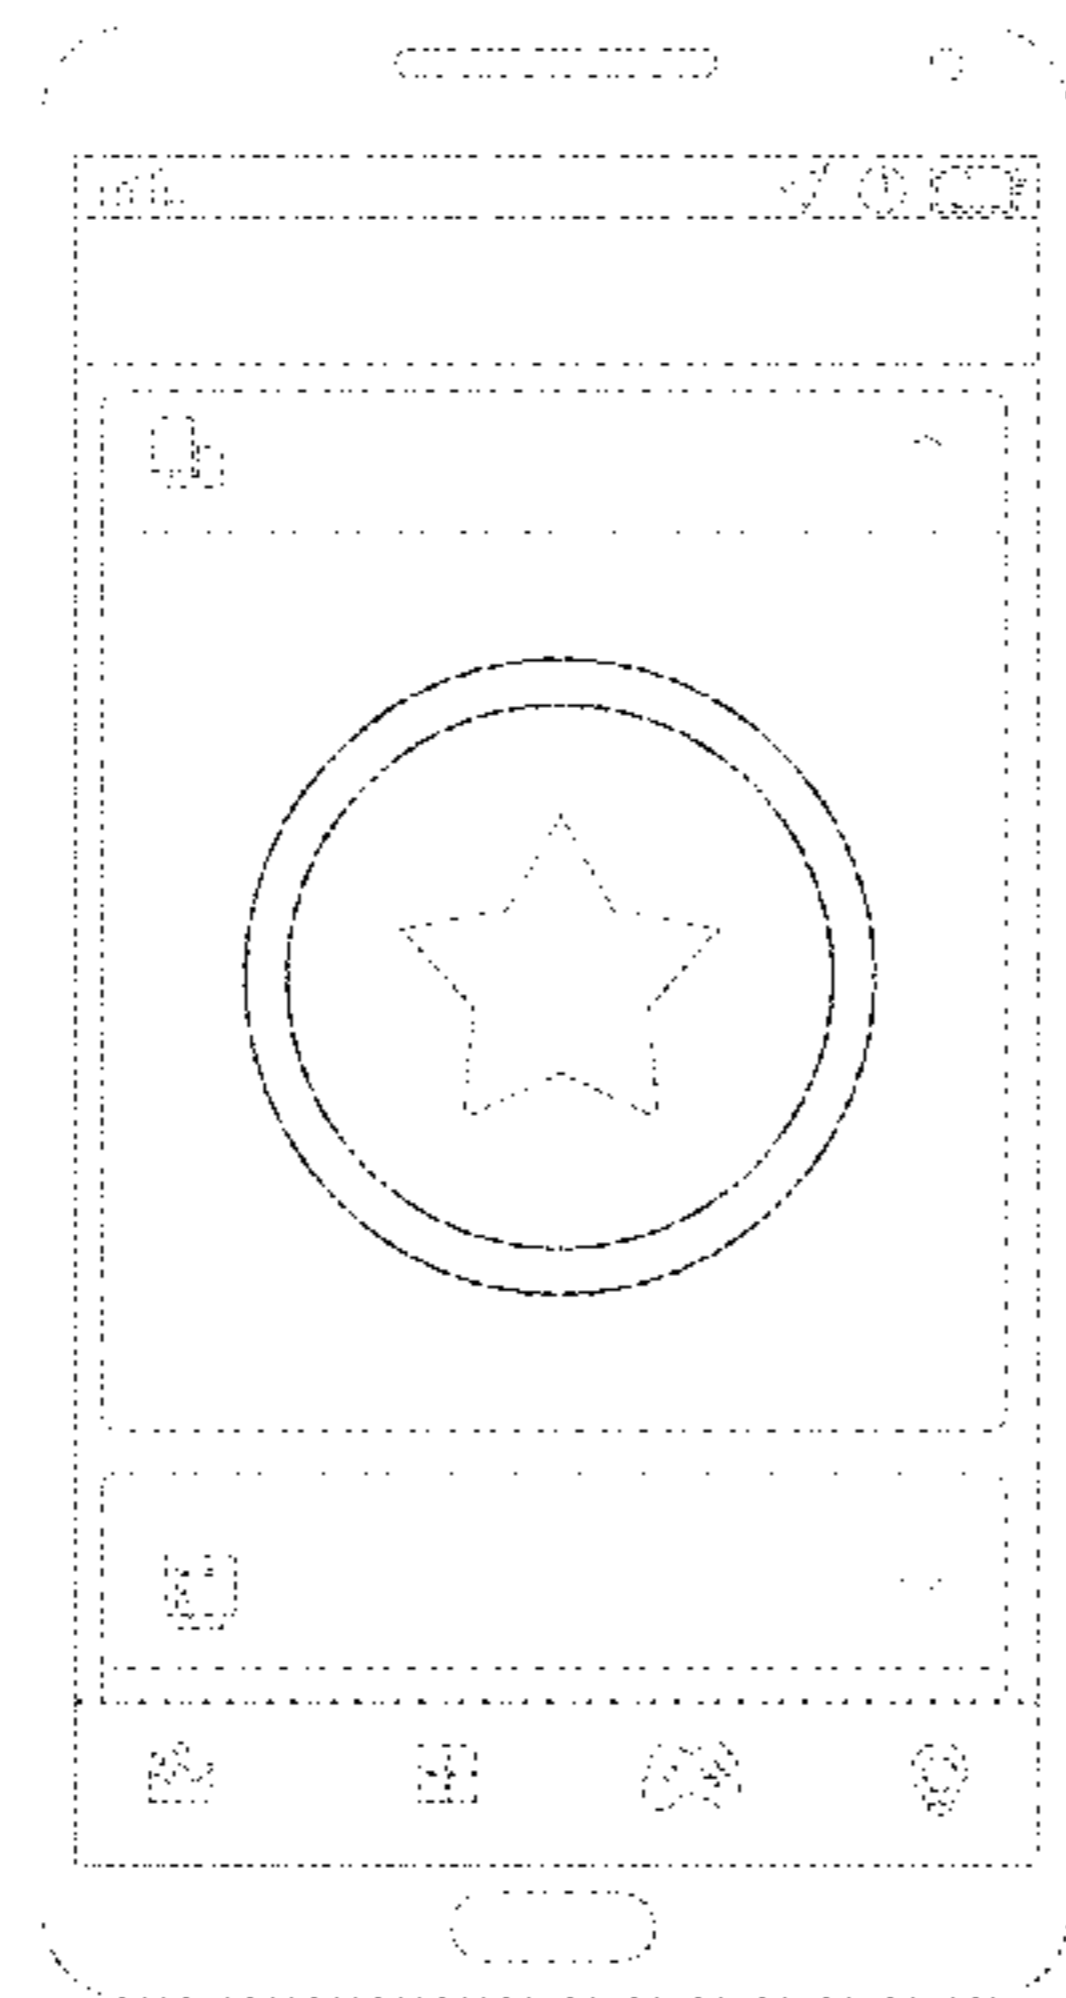

FIG. 1 is a front view of a first image of the animated graphical user interface on a portion of the first display screen of my new design; and,

FIG. 2 is a front view of a second image thereof, the second image appearing on a portion of a second display screen.

In the first embodiment, the image of FIG. 1 appears on the first display before the image of FIG. 2 appears on the second display. The process or period in which one image transitions to another image forms no part of the claimed design. The duration for which the first image continues to appear on the first display after the second image appears on the second display forms no part of the claimed design.

The image of FIG. 1 appears on the first display before the image of FIG. 2 appears on the second display. The broken line showing of text and portions of the graphical user interface in FIGS. 1 through 2 represents environmental subject matter and forms no part of the claimed design.
