(57) **CLAIM**

I claim an ornamental design for the light for cycling, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the light for cycling of the present invention;
FIG. 2 is a front elevational view of the light for cycling of the present invention;
FIG. 3 represents a plan view of the light for cycling of the present invention;
FIG. 4 represents a bottom view of the light for cycling of the present invention; and,
FIG. 5 represents a right side view of the light for cycling wherein the left side view is a mirror image of the right side view.

The broken-line disclosure in the views are understood to represent portions of the article in which the claimed design may be embodied, but which forms no part of the claimed design.
