(57) **CLAIM**

The ornamental design for the display screen with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a new design for a display screen with graphical user interface;

FIG. 2 is a display screen with graphical user interface to which the graphical user interface in FIG. 1 transitions upon a user command; and,

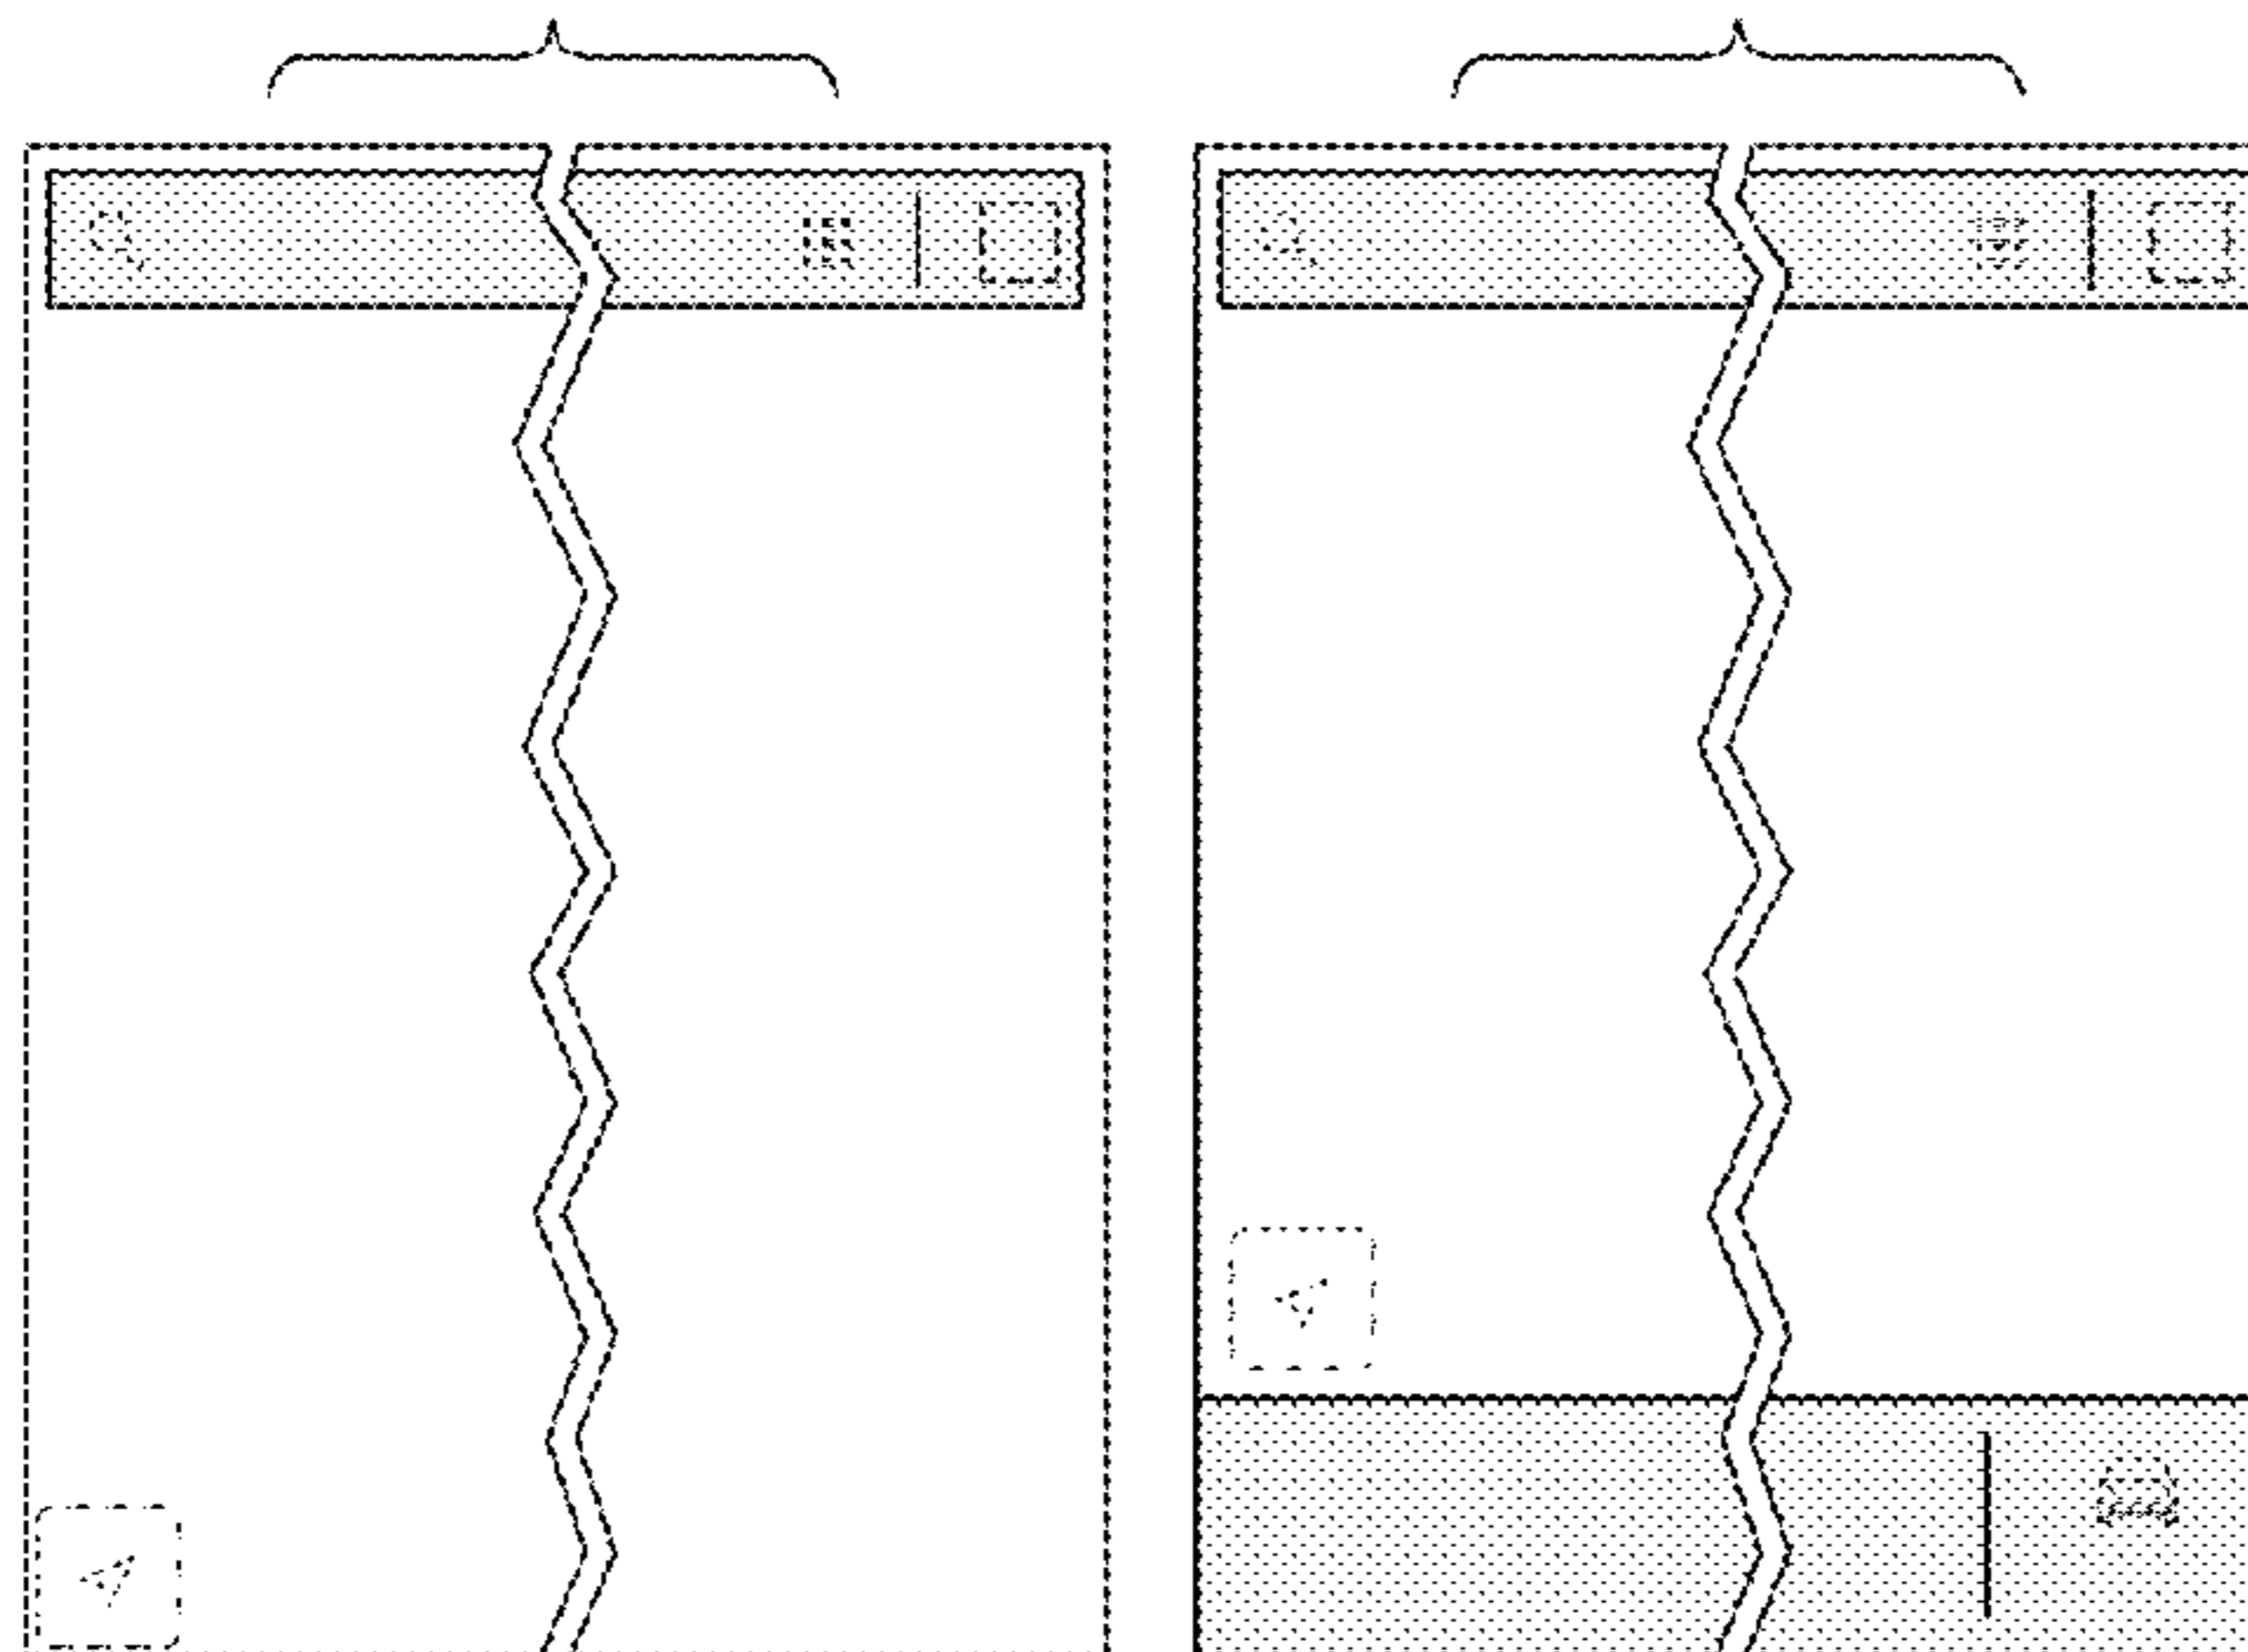

FIG. 3 is a display screen with graphical user interface to which the graphical user interface in FIG. 2 transitions upon a user command.

The broken lines in the drawings illustrate portions of the graphical user interface and form no part of the claimed design.

The subject matter in this patent includes a process or period in which an image changes into another image. The process or period forms no part of the claimed design.

The claimed design is shown in solid lines in the drawings. The light shading present in the drawings is included to identify claimed features. The light shading forms no part of the claimed design. All features and areas absent of light shading are not claimed.
