(57) **CLAIM**  
The ornamental design for a display screen portion with animated graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of a first image of a first embodiment of a display screen portion with animated graphical user interface showing my new design;  
FIG. 2 is a front view of a second image thereof;  
FIG. 3 is a front view of a third image thereof;  
FIG. 4 is a front view of a first image of a second embodiment of a display screen portion with animated graphical user interface showing my new design;  
FIG. 5 is a front view of a second image thereof;  
FIG. 6 is a front view of a third image thereof;  
FIG. 7 is a front view of a first image of a third embodiment of a display screen portion with animated graphical user interface showing my new design;  
FIG. 8 is a front view of a second image thereof;  
FIG. 9 is a front view of a third image thereof;  
FIG. 10 is a front view of a first image of a fourth embodiment of a display screen portion with animated graphical user interface showing my new design;  
FIG. 11 is a front view of a second image thereof; and,  
FIG. 12 is a front view of a third image thereof.  
In the first embodiment, the appearance of the transitional image sequentially transitions between the images shown in FIGS. 1 through 3. In the second embodiment, the appearance of the transitional image sequentially transitions between the images shown in FIGS. 4 through 6. In the third embodiment, the appearance of the transitional image sequentially transitions between the images shown in FIGS. 7 through 9. In the fourth embodiment, the appearance of the transitional image sequentially transitions between the images shown in FIGS. 10 through 12. The process or period in which one image transitions to another image forms no part of the claimed design. The broken line showing of a display screen and remainder of the graphical user interface forms no part of the claimed design. The grayscale indicates a contrast of appearance.
