(57) **CLAIM**

The ornamental design for a tire, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a tire showing our new design, it being understood that the pattern repeats uniformly throughout the circumference of the tread; FIG. 2 is a front elevational view thereof; FIG. 3 is a right side elevational view thereof; the other side being a mirror image thereof; and, FIG. 4 is an enlarged fragmentary front elevational view thereof.

In the drawings, the broken lines showing of the sidewall, inner bead, tread lug sidewalls, the peripheral boundary between the tread lugs and the tread grooves, and the peripheral boundary between the tire tread and the sidewall depict portions of a tire which form no part of the claim.
