FIG. 1 is a front view of the first embodiment of the display screen with graphical user interface for machine tool;

FIG. 2 is a front view of a second embodiment of the display screen with graphical user interface for machine tool with the variable dash length line representing a display environment; and,

FIG. 3 is a front view of a third embodiment of the display screen with graphical user interface for machine tool with the variable dash length line representing a display environment, and showing symbols depicted in the article of the present design but which are excluded from the subject of the design.

The text and images shown in broken lines are for illustrative purposes only and form no part of the claimed design. The broken line drawing of a display screen of a communications terminal display is for illustrative purposes only and forms no part of the claimed design. The broken lines shown in the drawings are included for purpose of illustrating portions of the display screen with graphical user interface for machine tool and form no part of the claimed design.
