CLAIM

The ornamental design for a computer display screen with graphical user interface, as shown and described.

DESCRIPTION

A portion of the disclosure of this patent document contains material to which a claim for copyright is made. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the Patent and Trademark Office patent file or records, but reserves all other copyright rights whatsoever. The single FIGURE is a front view of a computer display screen with a graphical user interface showing our new design. The outermost broken lines in the figure show a computer display screen, and form no part of the claimed design. The other broken lines in the figure show portions of graphical user interface that forms no part of the claimed design. The claimed design is a computer-generated image for a computer display which conveys the impression of a translucent/transparent surface.
