(57) **CLAIM**

The ornamental design for an a display with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of an electronic display, namely a cell phone, in which a first embodiment of my animated graphical user interface is shown;

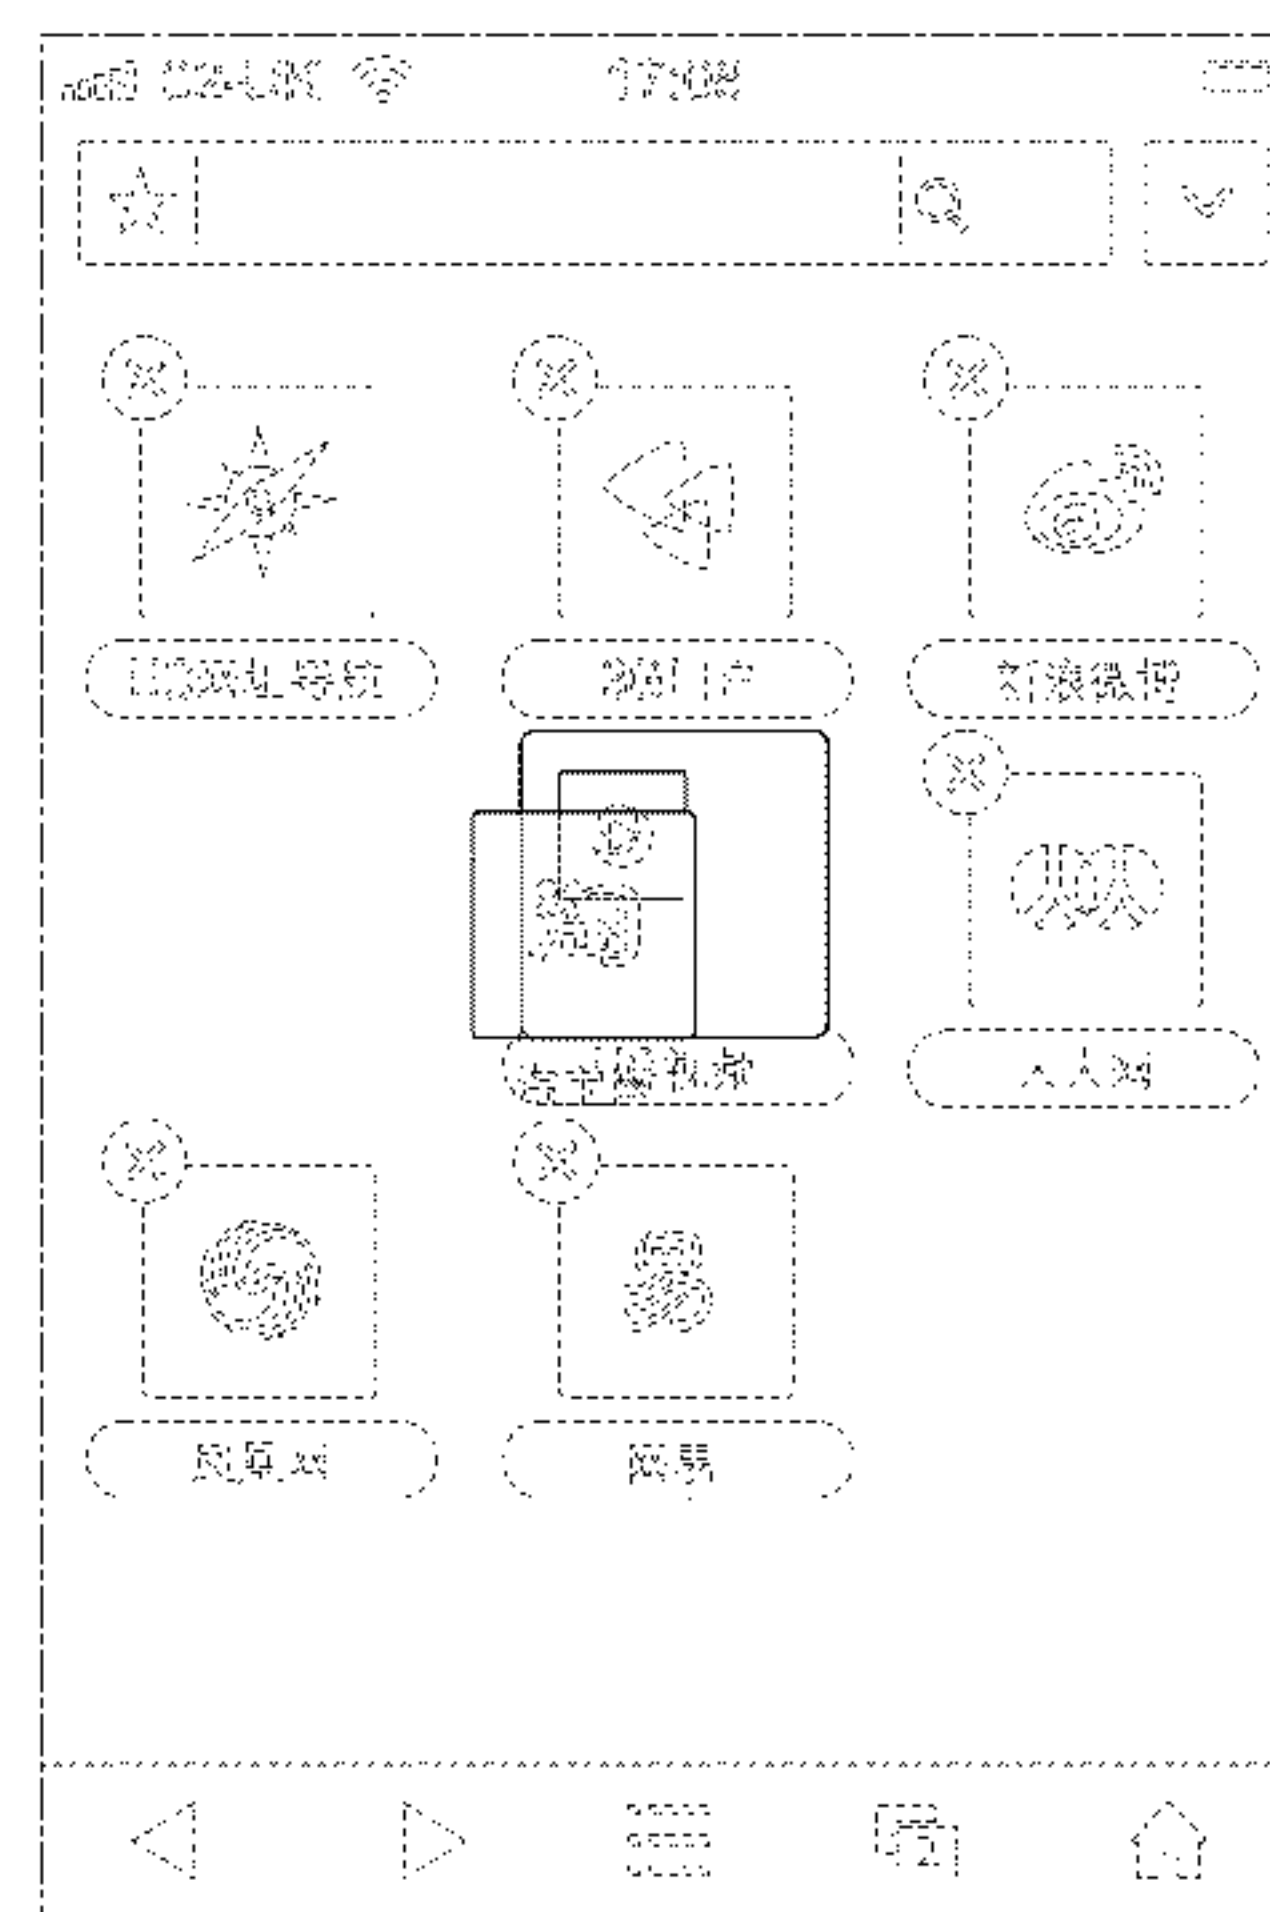

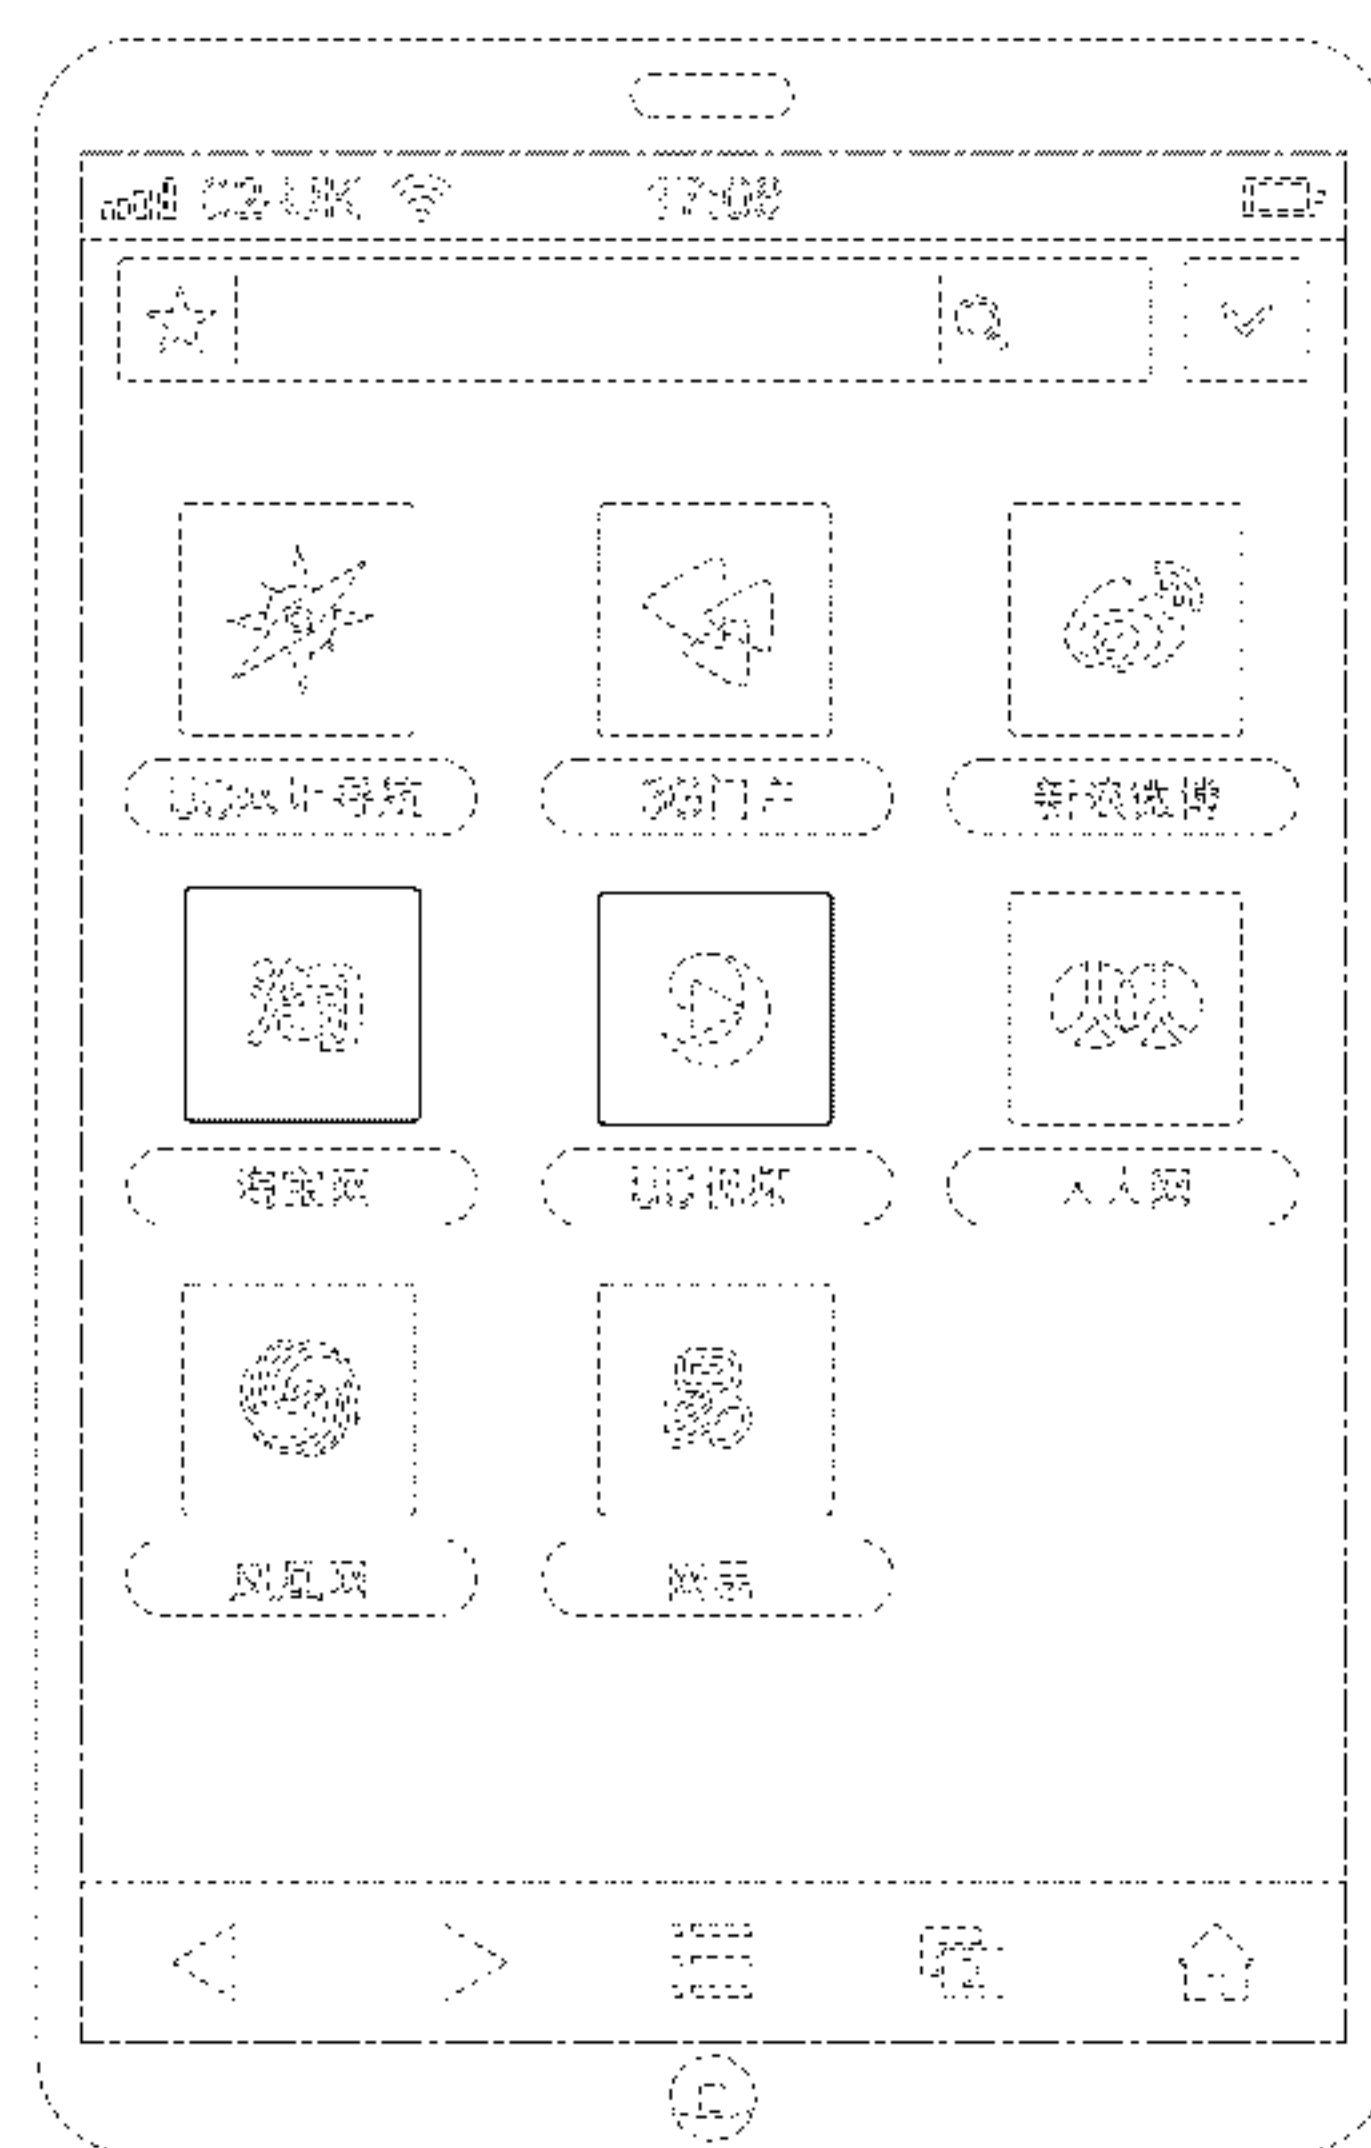

FIGS. 2 through 16 are front views of subsequent stages in the sequence of the first embodiment of my animated graphical user interface;

FIG. 17 is a front view of an electronic display, namely a cell phone, in which a second embodiment of my animated graphical user interface is shown; and,

FIGS. 18-32 are front views of subsequent stages in the sequence of the second embodiment of my animated graphical user interface.

The subject matter in this patent includes a process or period in which an image changes into another image. This process or period forms no part of the claimed design. The broken lines shown in the drawings represent portions of the display with animated graphical user interface that form no part of the claimed design. The dot-dashed lines in the figures represent the bounds of the claimed design and form no part thereof. It is also to be understood that, while FIGS. 1 and 17 depict an outline of a cell phone and the other figures do not, each stage of my animated graphical user interface may be incorporated into the display of a cell phone as shown in FIGS. 1 and/or 17. The design may be used in other displays as well. The illustrations in the figures are not to scale.
