(57) **CLAIM**

The ornamental design for an electronic device headset with adaptable headband, as shown and described.

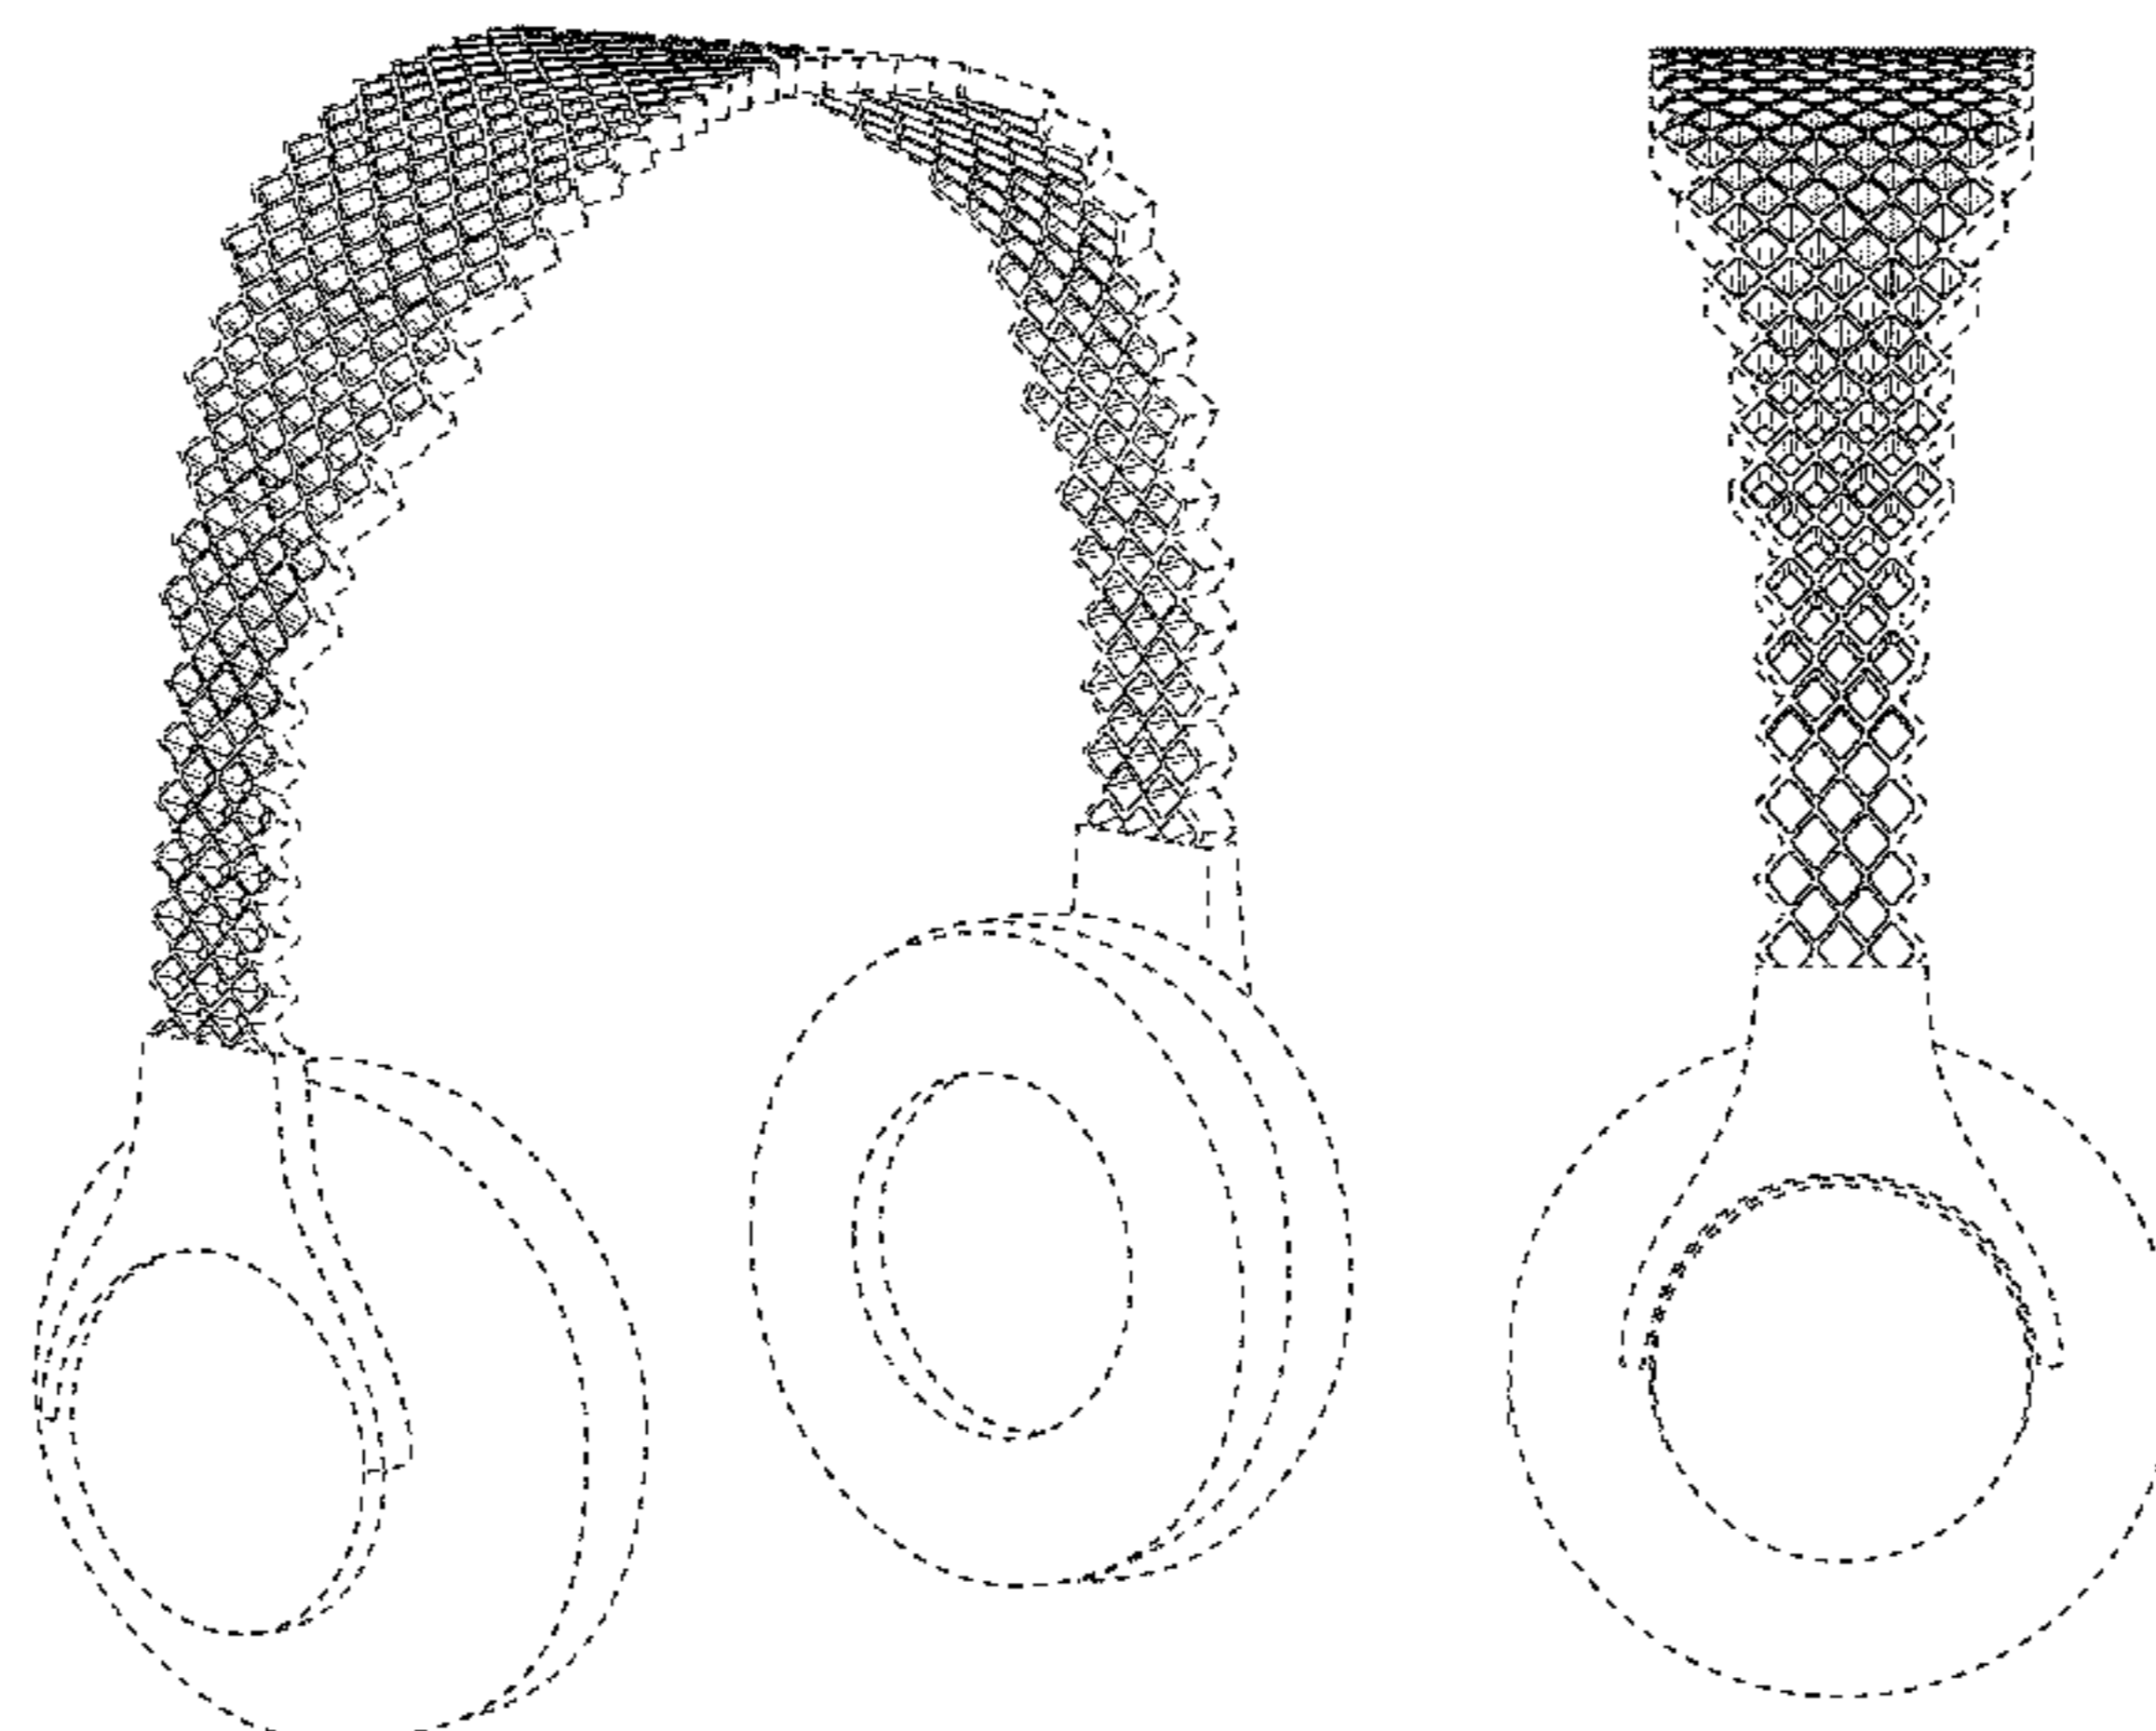

DESCRIPTION

FIG. 1 is a front perspective view of an exemplary embodiment of an electronic device headset with adaptable headband showing the new design in an open position; FIG. 2 is a front view of the embodiment shown in FIG. 1, with the rear view being a mirror image thereof; FIG. 3 is a side view of the embodiment shown in FIG. 1, with the opposite side view being a mirror image thereof; FIG. 4 is a top view of the embodiment shown in FIG. 1; FIG. 5 is a bottom view of the embodiment shown in FIG. 1; FIG. 6 is a front perspective view of the embodiment shown in FIG. 1, in a semi-closed position; and, FIG. 7 is a front perspective view of an alternate embodiment thereof in an open position.

Any showing of the environment and/or drawing disclosure by broken lines is for illustrative purposes only and forms no part of the claimed design.

The said electronic device headset with adaptable headband could be used as an element of an apparatus and/or system, including, but not limited to, an education system, an entertainment system, a personal health device, a surveillance system, a remote control, a smartphone, a toy, a video game, and/or another apparatus and/or system.

1 Claim, 6 Drawing Sheets
