(57) **CLAIM**

The ornamental design for an adjustable headpiece with ana-
tomical markers, as shown and described.

DESCRIPTION

This invention was made with government support under
5R44NS080632 awarded by the National Institute of Neuro-
logical Disorders and Stroke (NINDS) of the National Insti-
tute of Health (NIH). The government has certain rights in the
invention.

FIG. 1 illustrates a front side perspective view of an adjust-
able headpiece with anatomical markers in accordance with
the present invention;

FIG. 2 illustrates a back side perspective view of the adjust-
able headpiece with anatomical markers of FIG. 1;

FIG. 3 illustrates a front side view of the adjustable headpiece
with anatomical markers of FIG. 1;

FIG. 4 illustrates a back side view of the adjustable headpiece
with anatomical markers of FIG. 1;

FIG. 5 illustrates a left side view of the adjustable headpiece
with anatomical markers of FIG. 1;

FIG. 6 illustrates a right side view of the adjustable headpiece
with anatomical markers of FIG. 1;

FIG. 7 illustrates a top side view of the adjustable headpiece
with anatomical markers of FIG. 1; and,

FIG. 8 illustrates a bottom side view of the adjustable head-
piece with anatomical markers of FIG. 1.

The broken lines in the drawings illustrate portions of the
adjustable headpiece with anatomical markers that form no
part of the claimed design.

1 Claim, 8 Drawing Sheets
