(57) **CLAIM**

The ornamental design for a medical pump display screen with transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. **1** is a front view of the medical pump display screen with transitional graphical user interface, showing a first embodiment of the new design;
FIG. **2** is a second image thereof;
FIG. **3** is a third image thereof;
FIG. **4** is a fourth image thereof;
FIG. **5** is a front view of the medical pump display screen with transitional graphical user interface, showing second embodiment of the new design;
FIG. **6** is a second image thereof;
FIG. **7** is a third image thereof; and,
FIG. **8** is a fourth image thereof.

The broken lines of a medical pump and portions of the graphical user interface form portions of the article and form no part of the claimed design.

The images transition sequentially among the images shown in FIGS. **1-4** in embodiment 1 and FIGS. **5-8** in embodiment 2. The process or period in which one image transitions to another image forms no part of the claimed design.

1 Claim, 8 Drawing Sheets
