(57) **CLAIM**

The ornamental design of a animated graphical user interface for a display screen or portion thereof, as shown and described.

**DESCRIPTION**

The present application is related to U.S. application Ser. No. 14/147,010, filed on Jan. 3, 2014.

FIG. 1 is a detailed view according to an embodiment of a graphical user interface of a display screen or portion thereof. FIG. 2 is a detailed view according to an embodiment of a graphical user interface of a display screen or portion thereof. FIG. 3 is a detailed view according to an embodiment of a graphical user interface of a display screen or portion thereof. FIG. 4 is a detailed view according to an embodiment of a graphical user interface of a display screen or portion thereof. FIG. 5 is a detailed view according to an embodiment of a graphical user interface of a display screen or portion thereof; and,

FIG. 6 is a detailed view according to an embodiment of a graphical user interface of a display screen or portion thereof. The broken line(s) on the display screen, text, and images form no part of the claimed design. The appearance of animated images sequentially transitions between the images shown in FIGS. 1-6. The process or period in which one image transitions to another forms no part of the claimed design.
