FIG. 9 is a top view of a third embodiment thereof, the bottom perspective, front, rear, left and right side and bottom views being identical to those of the first embodiment;
FIG. 10 is another top view thereof, showing the word "TEXT" in broken lines;
FIG. 11 is a top view of a fourth embodiment thereof, the bottom perspective, front, rear, left and right side and bottom views being identical to those of the first embodiment;
FIG. 12 is another top view thereof, showing the word "TEXT" in broken lines;
FIG. 13 is a top view of a fifth embodiment thereof, the bottom perspective, front, rear, left and right side and bottom views being identical to those of the first embodiment; and,
FIG. 14 is another top view thereof, showing the word "TEXT" in broken lines.

It is understood that the drawings include relatively thin surface shading lines that represent contour, not surface ornamentation. The diagonal parallel lines in the top perspective and top views represent a transparent surface. The horizontal parallel lines in the top perspective and top views represent an opaque surface.

The light weight broken lines in the drawings show unclaimed environment and the heavy-weight broken lines in the drawings show unclaimed features of the capsule, neither of which are included in the claim.
