(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing executed in color. Copies of this patent with color drawings will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front elevational view of a display screen with graphical user interface showing my new design;

FIG. 2 is a rear elevational view showing the design for the display screen with graphical user interface of FIG. 1;

FIG. 3 is a left side elevational view showing the design for the display screen with graphical user interface of FIG. 1;

FIG. 4 is a right side elevational view showing the design for the display screen with graphical user interface of FIG. 1;

FIG. 5 is a top plan view showing the design for the display screen with graphical user interface of FIG. 1; and,

FIG. 6 is a bottom plan view showing the design for the display screen with graphical user interface of FIG. 1.

The broken lines shown in the drawings illustrate portions of the display screen with graphical user interface that form no part of the claimed design.

1 Claim, 4 Drawing Sheets
