(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

**DESCRIPTION**

The FIGURE is a front view of a display screen with graphical user interface showing my new design. The uneven-length broken line forms a disclaimed boundary of the design. The uneven-length broken line illustrates both a boundary of the display screen with graphical user interface, and a display screen. The even-length broken line showing of the three bars, the numbers, and the letters illustrate portions of the graphical user interface. None of the broken lines form part of the claimed design.
