FIG. 1 is a bottom perspective view of an instrument for treating an ocular disorder according to the present invention. FIG. 2 is a front view of the instrument for treating an ocular disorder of FIG. 1, the rear view being identical thereof.

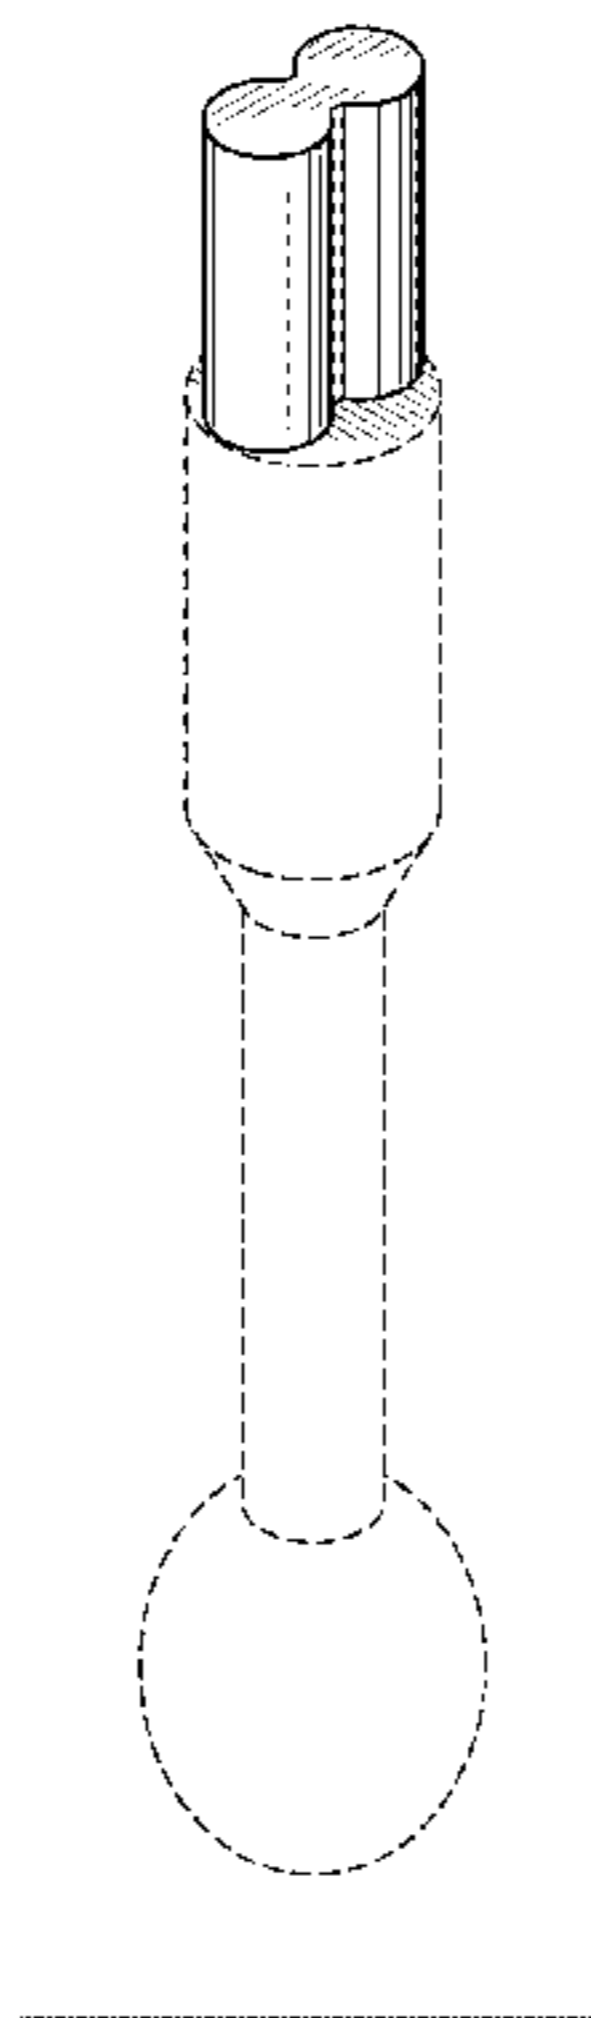

FIG. 3 is a right side view of the instrument for treating an ocular disorder of FIG. 1, the left side view being identical thereof.

FIG. 4 is a bottom view of the instrument for treating an ocular disorder of FIG. 1; and,

FIG. 5 is a top view of the instrument for treating an ocular disorder of FIG. 1.

The broken lines illustrate portions of the instrument for treating an ocular disorder that form no part of the claimed design.
