(57) **CLAIM**

The ornamental design for a walking stick which converts into a seat, as shown and described.

DESCRIPTION

FIG. 1 is a side view of a walking stick which converts into a seat shown in a closed position.

FIG. 2 is a rear view of a walking stick which converts into a seat shown in a closed position.

FIG. 3 is a top view of a walking stick which converts into a seat shown in a closed position.

FIG. 4 is a side view of a walking stick which converts into a seat shown partially extended.

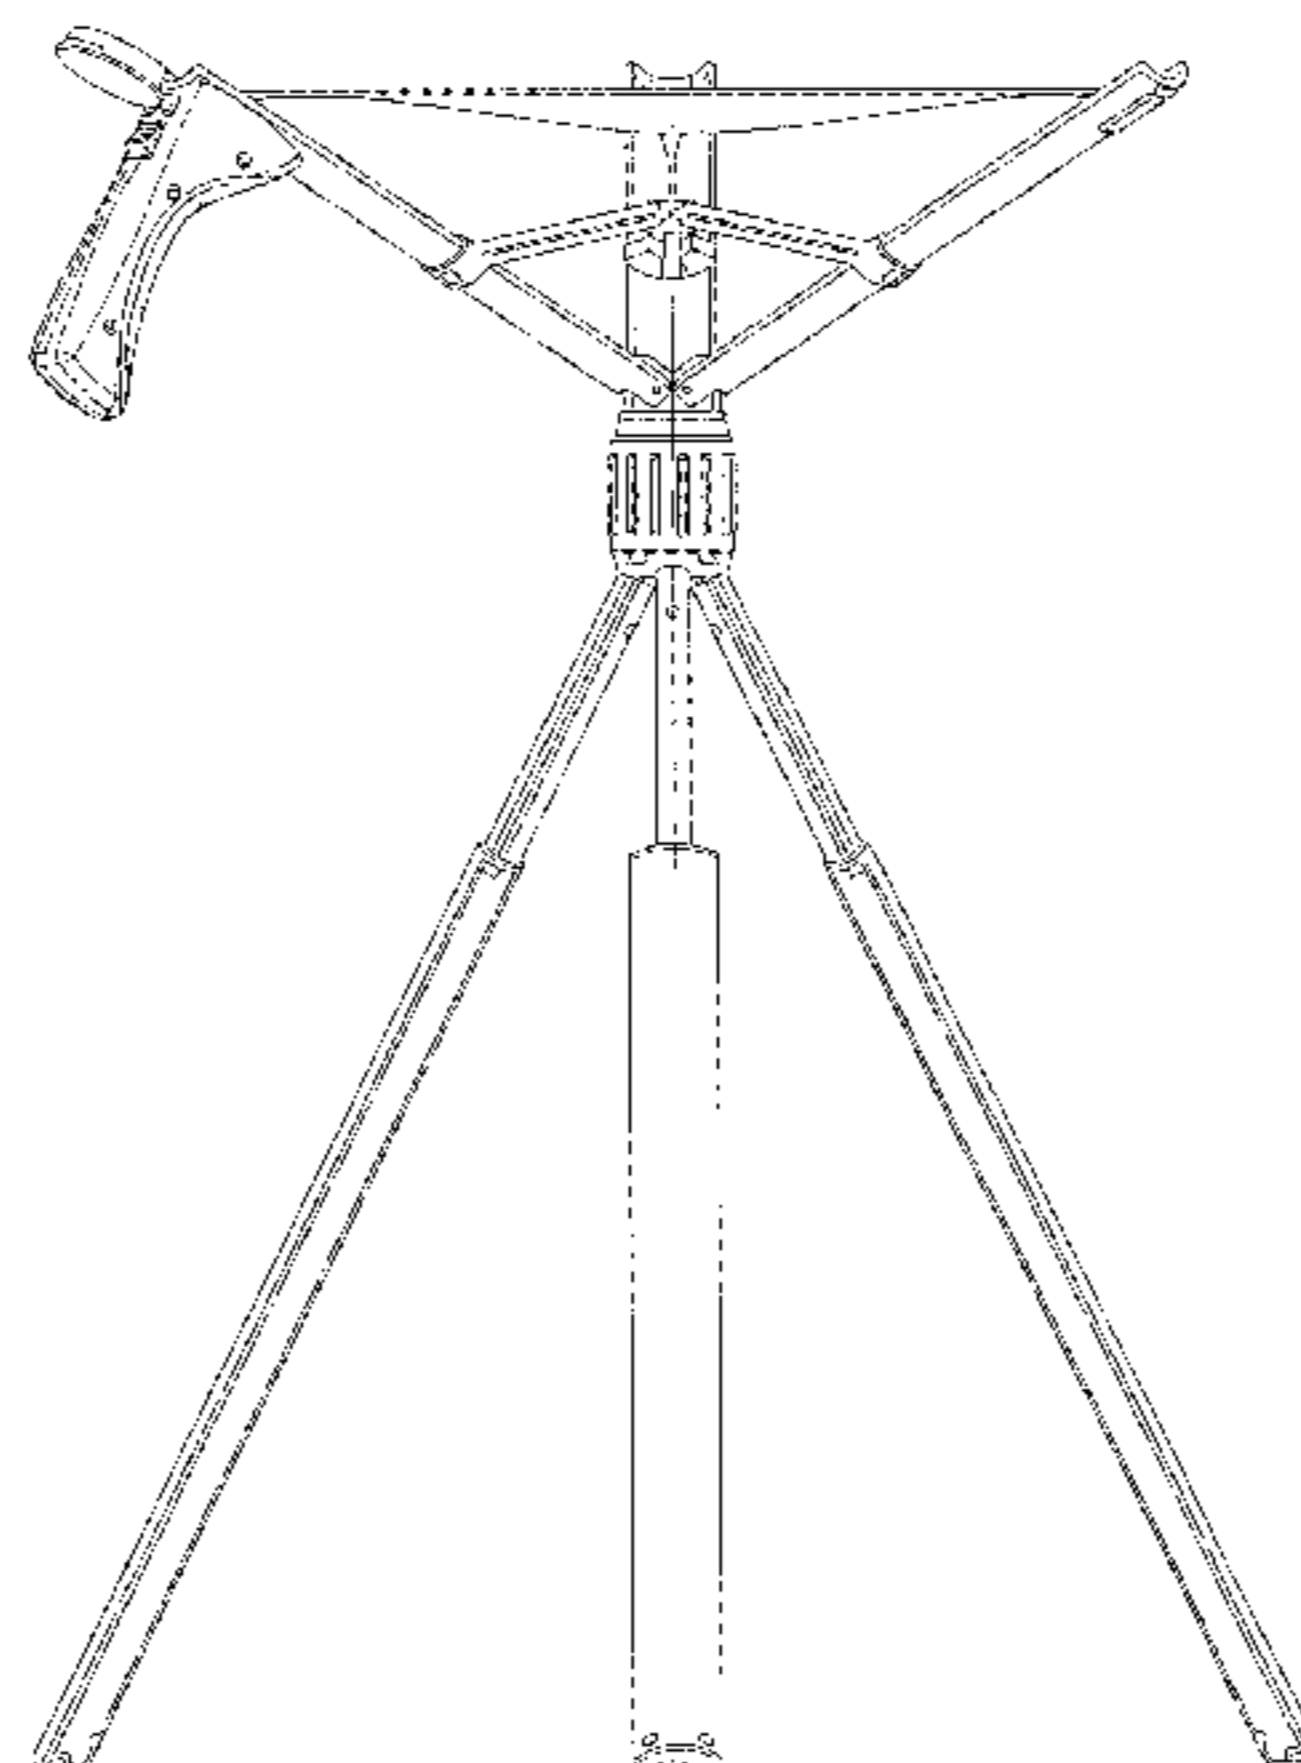

FIG. 5 is a side view of a walking stick which converts into a seat shown fully extended.

FIG. 6 is a side view of a walking stick which converts into a seat shown in a seating position; and,

FIG. 7 is a top view of a walking stick which converts into a seat shown in a seating position.

The left and right sides of the walking stick are mirror images. The bottom view of the legs of the walking stick is not visible during normal use and therefore this view is not shown.
