DESCRIPTION

FIG. 1 is a top plan view of the middle piece of a beverage container assembly, including the center strainer shown in broken lines;

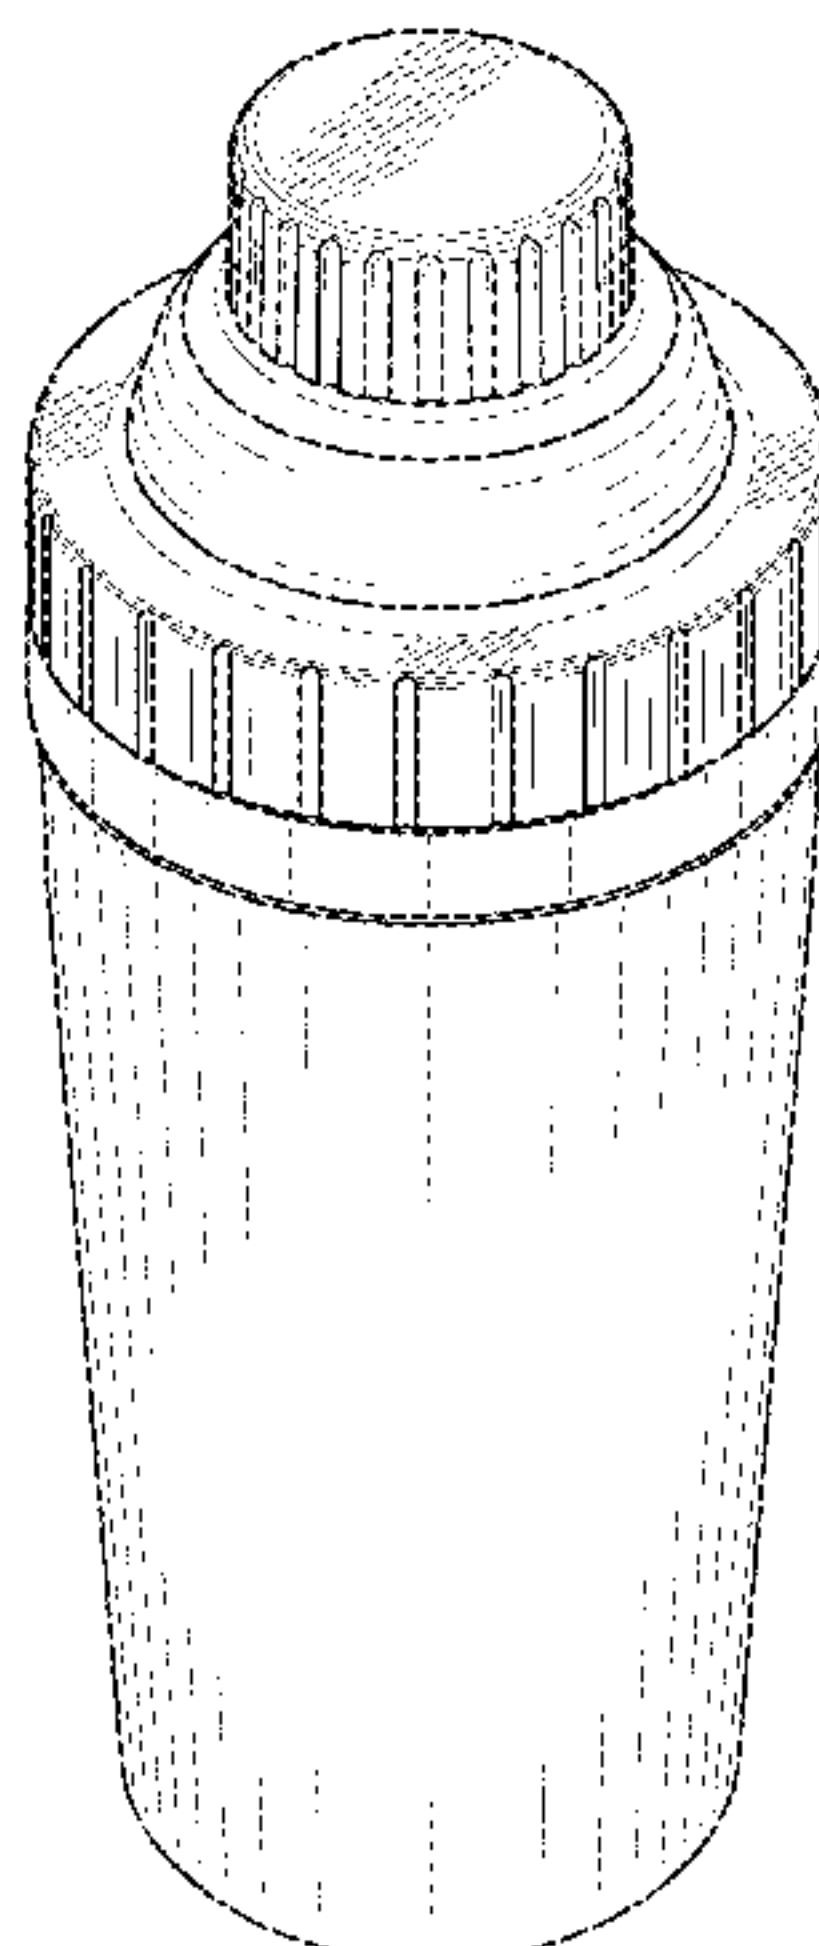

FIG. 2 is a bottom plan view of the middle piece of the beverage container assembly;

FIG. 3 is a cross-section side view of the middle piece of the beverage container assembly, taken along line 3-3 in FIG. 1; and,

FIG. 4 is a perspective view of our design of the assembled beverage container assembly in accordance with our design with a solid bottom piece.

The beverage container for retail sale has generally cylindrical symmetry. The separate components are shown to illustrate aspects, which are not apparent from the assembled views. The broken lines depict portions of the beverage container assembly that form no part of the claimed design.
