(57) **CLAIM**

The ornamental design for a portion of a display panel with an animated computer icon, substantially as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of a first image of a display screen with an animated graphical user interface showing a first embodiment of our new design.

FIG. 2 is a front view of a second image of the first embodiment.

FIG. 3 is a front view of a third image of the first embodiment.

FIG. 4 is a front view of a first image of a display screen with an animated graphical user interface showing a second embodiment of our new design.

FIG. 5 is a front view of a second image of the second embodiment.

FIG. 6 is a front view of a third image of the second embodiment.

FIG. 7 is a front view of a first image of a display screen with an animated graphical user interface showing a third embodiment of our new design.

FIG. 8 is a front view of a second image of the third embodiment.

FIG. 9 is a front view of a third image of the third embodiment.

FIG. 10 is a front view of a first image of a display screen with an animated graphical user interface showing a fourth embodiment of our new design.

FIG. 11 is a front view of a second image of the fourth embodiment; and,

FIG. 12 is a front view of a third image of the fourth embodiment.

The appearance of transitional images sequentially transitions between the images shown in FIGS. 1-3, between the images shown in FIGS. 4-6, between the images shown in FIGS. 7-9, and between the images shown in FIGS. 10-12. The process or period in which one image transitions to another image forms no part of the claimed design.
