(57) **CLAIM**

The ornamental design for a contact lens case, as shown and described.

DESCRIPTION

FIG. 1 is a bottom plan view of a closed contact lens case showing my new design; and
 FIG. 2 is a top plan view thereof;
 FIG. 3 is a left side perspective top view of the contact lens case in the opened position;
 FIG. 4 is a front perspective top view thereof;
 FIG. 5 is a right side perspective bottom view thereof; and
 FIG. 6 is a left side perspective top view thereof with the contact lens case removed;
 FIG. 7 is a front elevation of the contact lens case in the closed position;
 FIG. 8 is a left side view thereof;
 FIG. 9 is a rear elevation thereof;
 FIG. 10 is a right side perspective bottom view thereof;
 FIG. 11 is a right side perspective top view thereof; and
 FIG. 12 is a left side perspective bottom view thereof with the battery cover removed; and,
 FIG. 13 is front perspective top view of the contact lens case in the open position thereof with the battery cover, the contact lens case and the mirror removed.

The claimed ornamental design for a contact lens case has the intended use of storage of contact lens and retrieval for the insertion of contact lens onto the eye.
