(57) **CLAIM**
We claim the ornamental design for an airplane, as shown and described.

DESCRIPTION

FIG. 1 is a rear perspective view of the airplane of the new design, from beneath the airplane.
FIG. 2 is a front perspective view of the airplane, from beneath.
FIG. 3 is a front view of the airplane.
FIG. 4 is a rear view of the airplane.
FIG. 5 is a top view of the airplane.
FIG. 6 is a bottom view of the airplane.
FIG. 7 is a left-side view of the airplane; and,
FIG. 8 is a front perspective view of the airplane and its rocket payload, after that payload has been separated from the airplane, for example via launching the rocket payload.
FIGS. 1-8 illustrate different views of the airplane of the new design, which has left-to-right mirror-image symmetry and in certain embodiments has a rocket payload suspended from beneath the fuselage of the airplane.
The broken lines shown on the drawings illustrate portions of the airplane that form no part of the claimed design.

1 Claim, 7 Drawing Sheets
