(57) **CLAIM**

We claim the ornamental design for a display screen or portion thereof with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is the first image in a sequence for a display screen or portion thereof with animated graphical user interface showing our new design;

FIG. 2 is the second image thereof;

FIG. 3 is the third image thereof;

FIG. 4 is the fourth image thereof;

FIG. 5 is the fifth image thereof;

FIG. 6 is the sixth image thereof; and,

FIG. 7 is another front view of FIG. 1, in which an oven is provided in broken lines to illustrate an example environment.

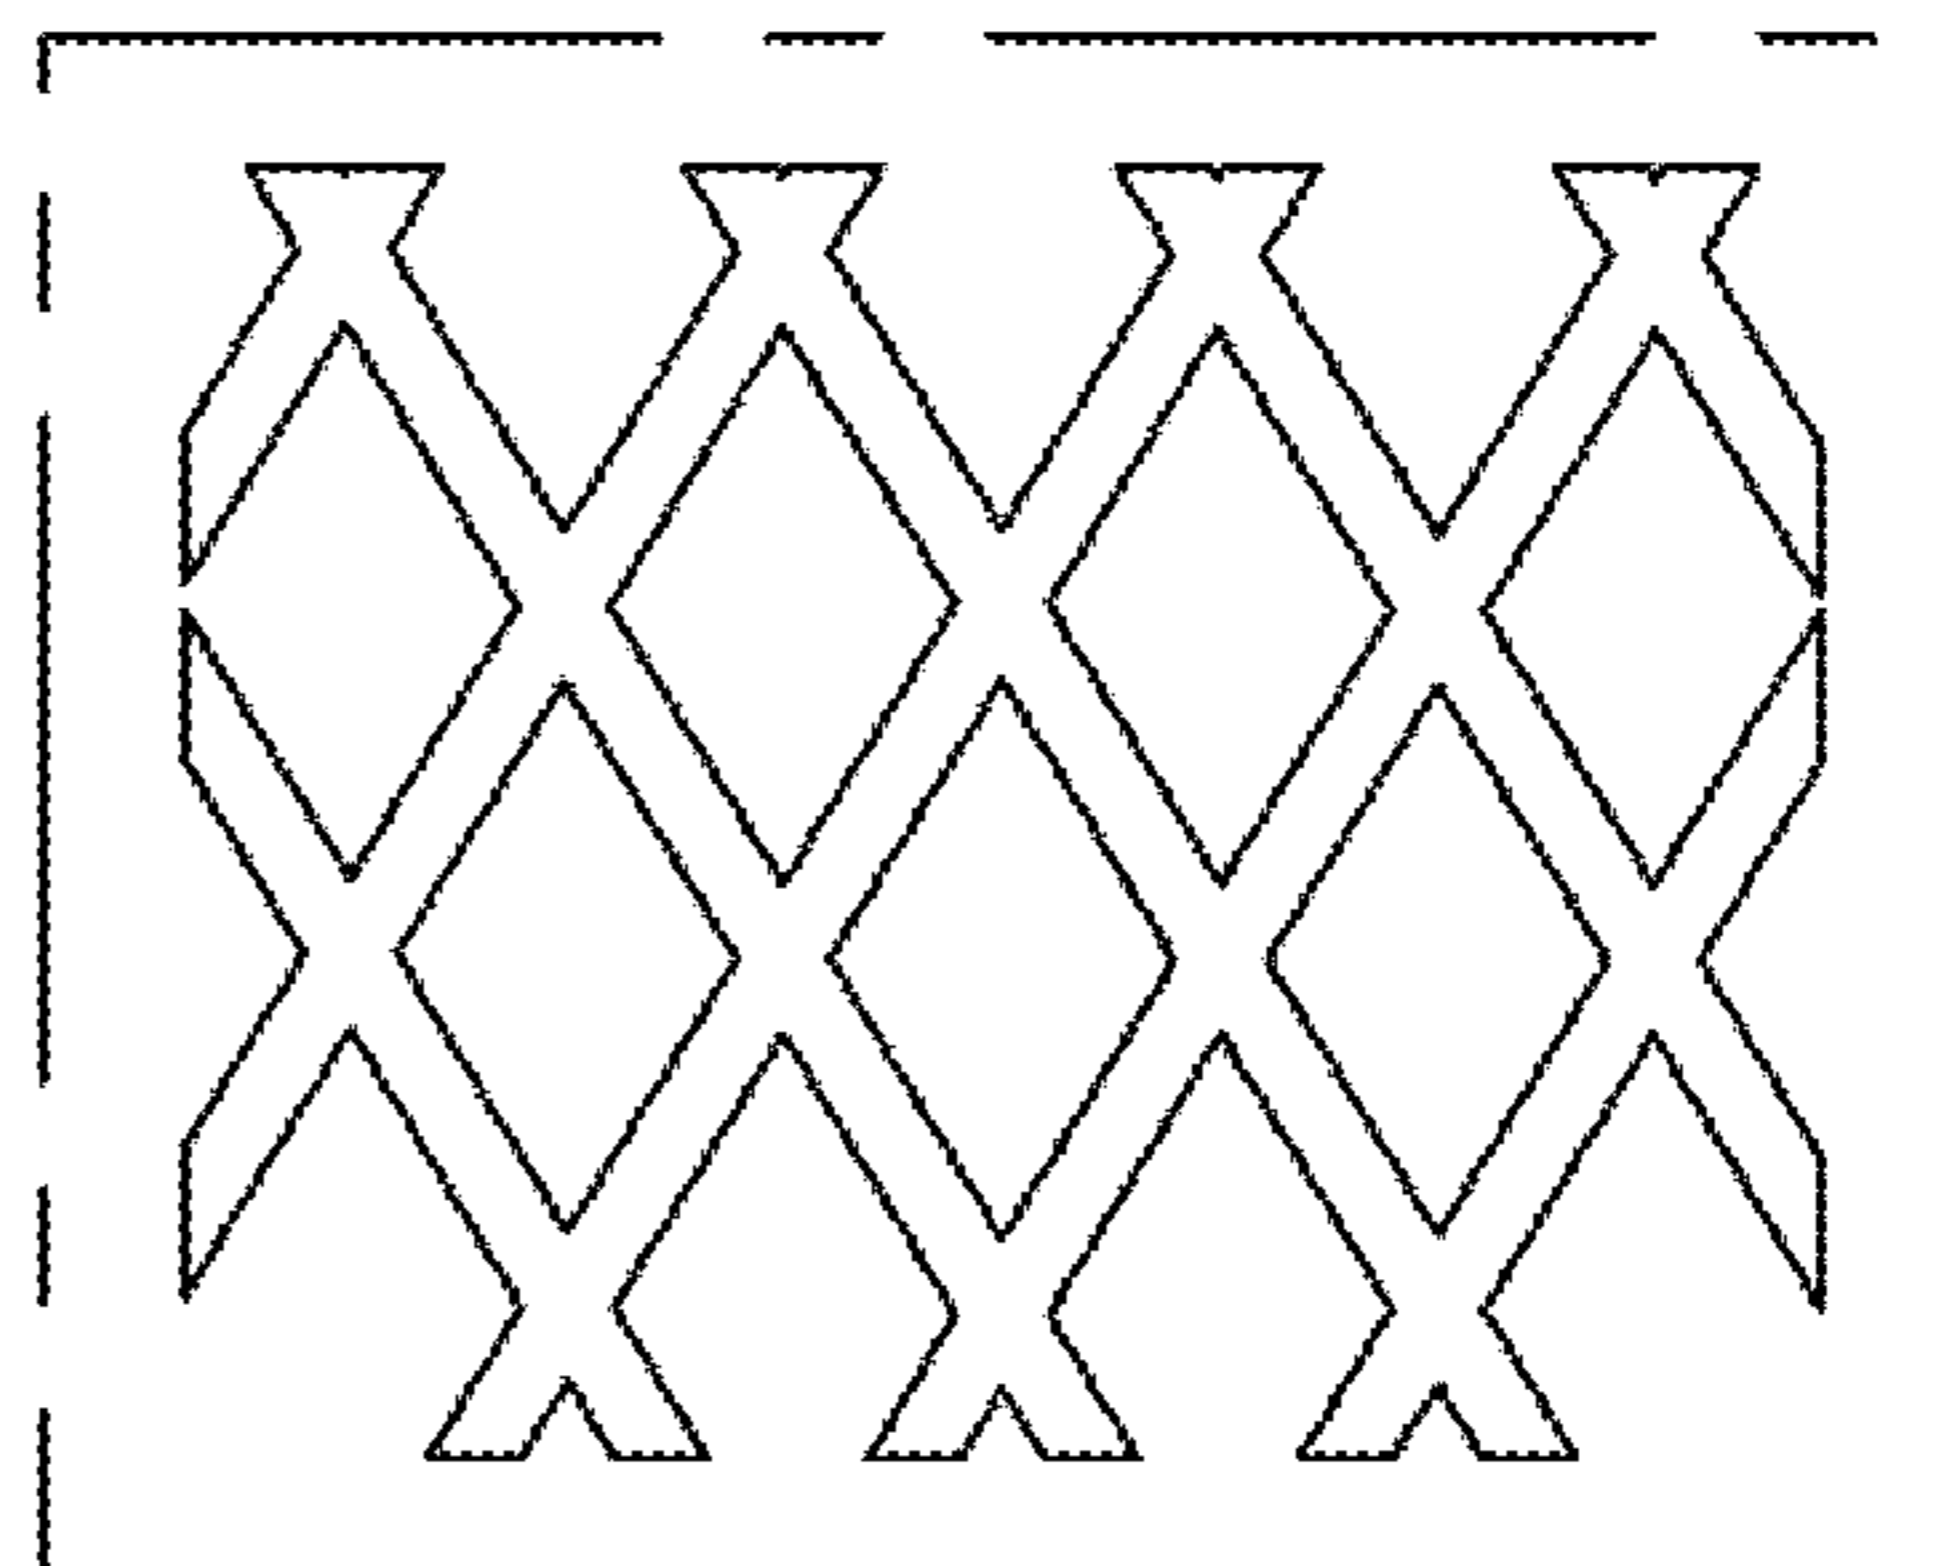

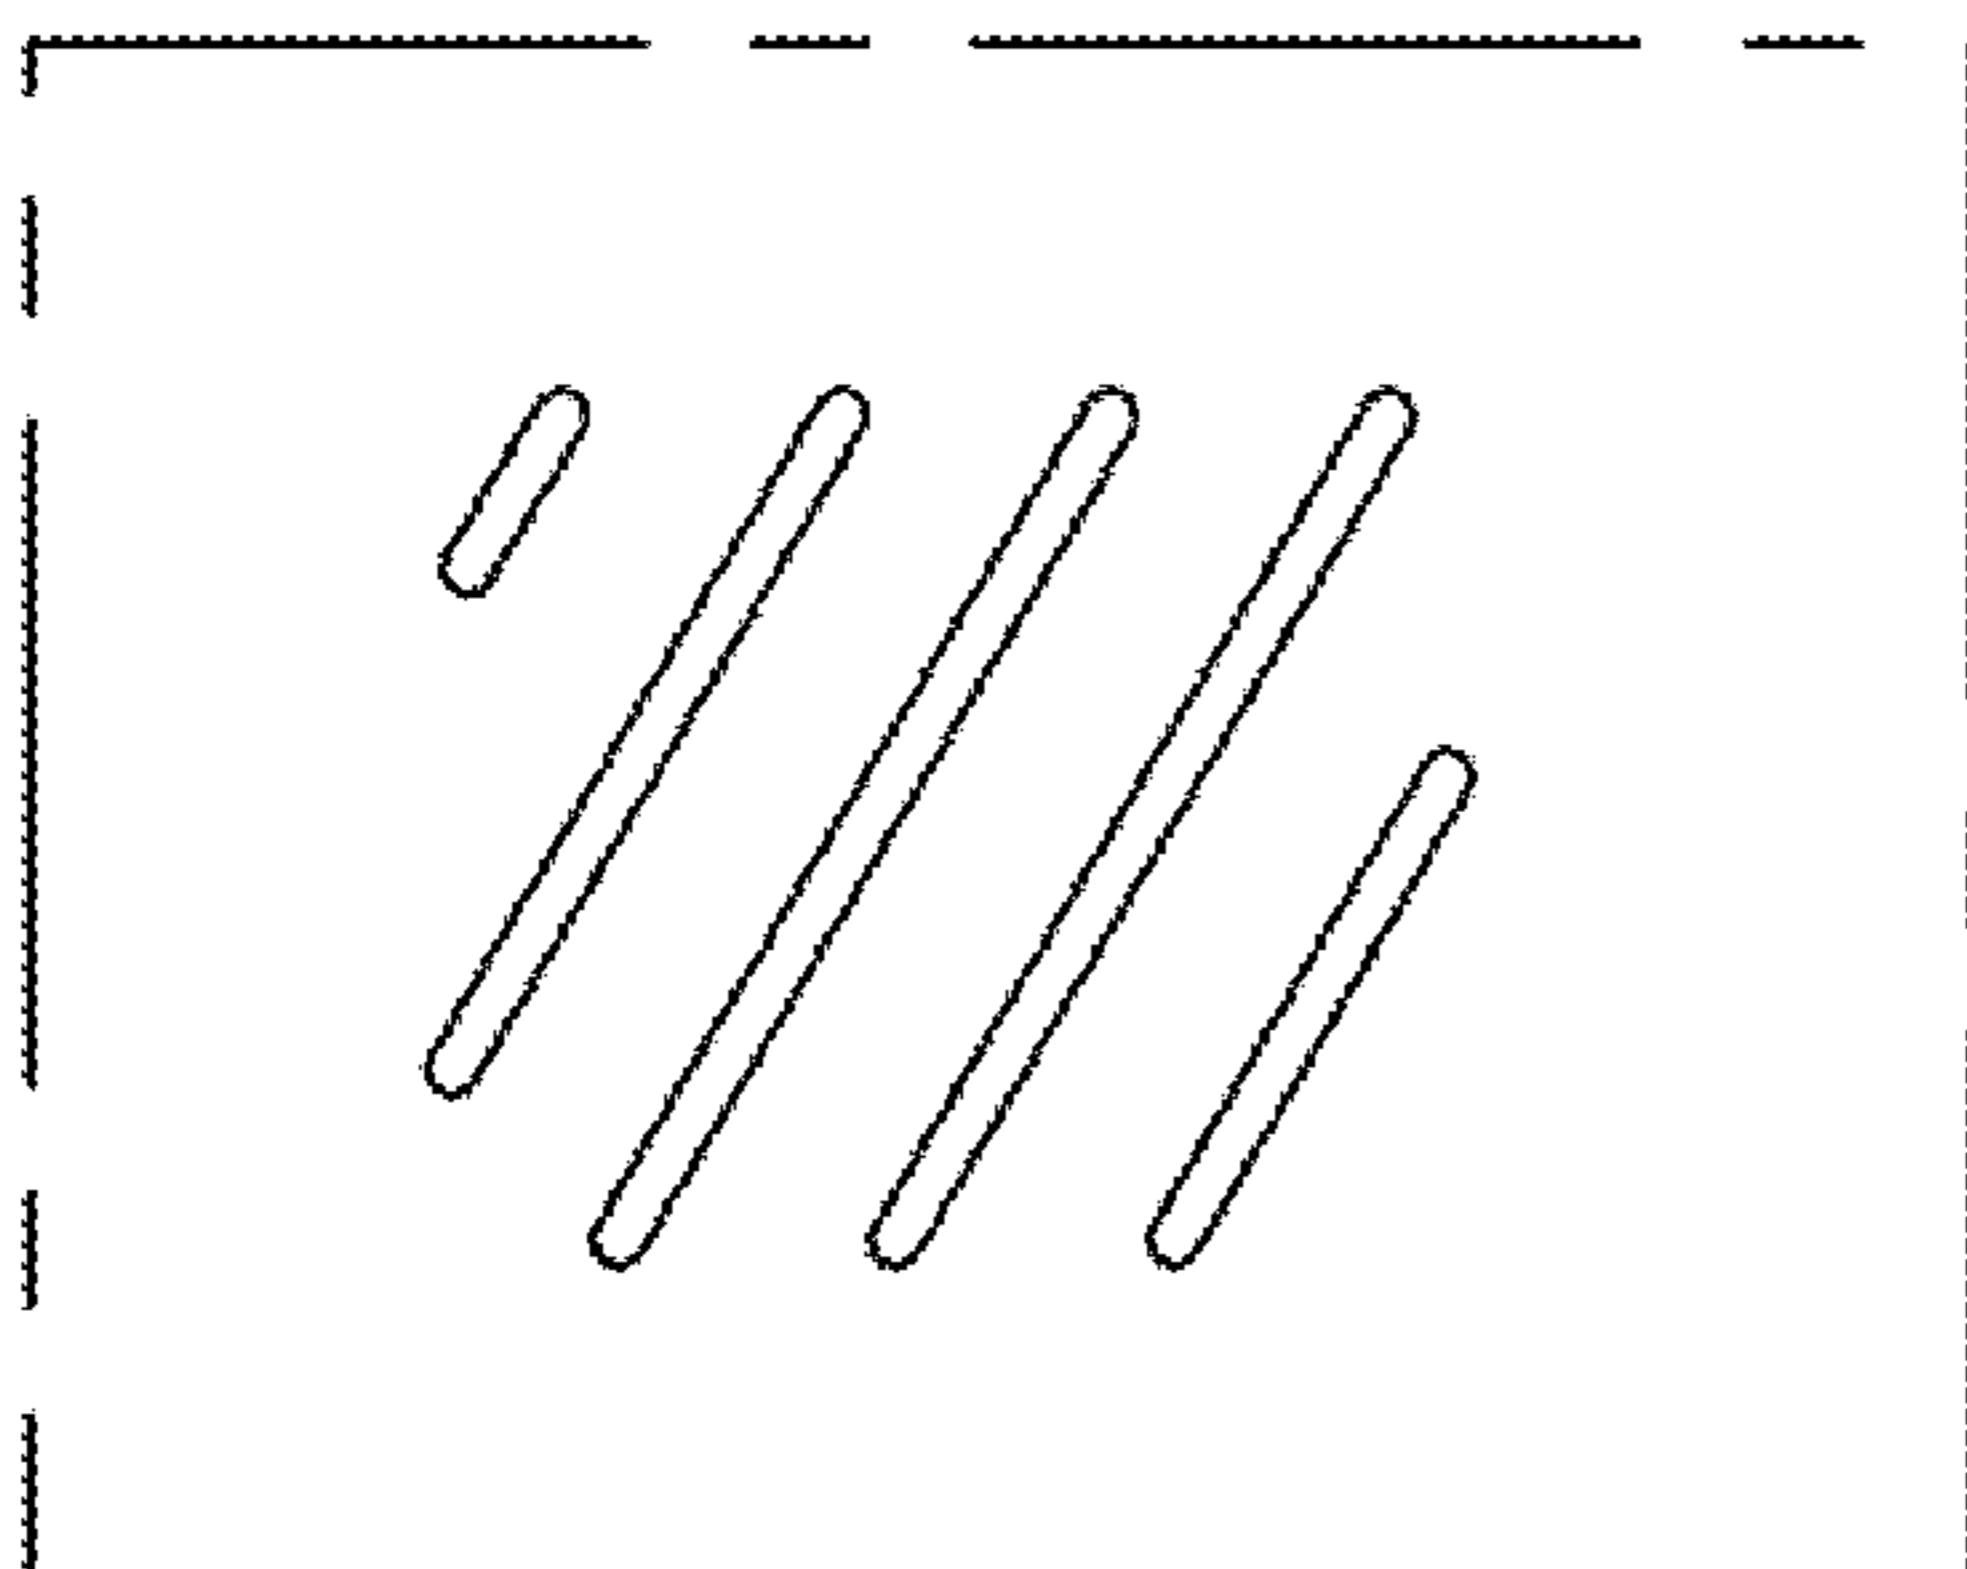

The broken lines in the figures show portions of the display screen or portion thereof with animated graphical user interface which form no part of the claimed design.

The broken line showing of the oven in FIG. 7 is for environmental purposes only and forms no part of the claimed design.

The dot-dash broken lines in the figures represent a boundary and form no part of the claimed design.

The appearance of the display screen or portion thereof with animated graphical user interface sequentially transitions between the images shown in FIGS. 1 through 6. The subject matter of this patent includes a process or period in which an image changes into another image. This process or period forms no part of the claimed design.

1 Claim, 4 Drawing Sheets
