(57) **CLAIM**

The ornamental design for a display screen with a transitional graphical user interface, as shown and described.

DESCRIPTION

A portion of this patent document contains material which is subject to copyright protection. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the Patent and Trademark Office patent file or records, but otherwise reserves all other copyright rights whatsoever.

FIG. 1 is a front view of the first state in a sequence for a display with a transitional graphical user interface showing our new design;

FIG. 2 is a front view of a second state thereof;

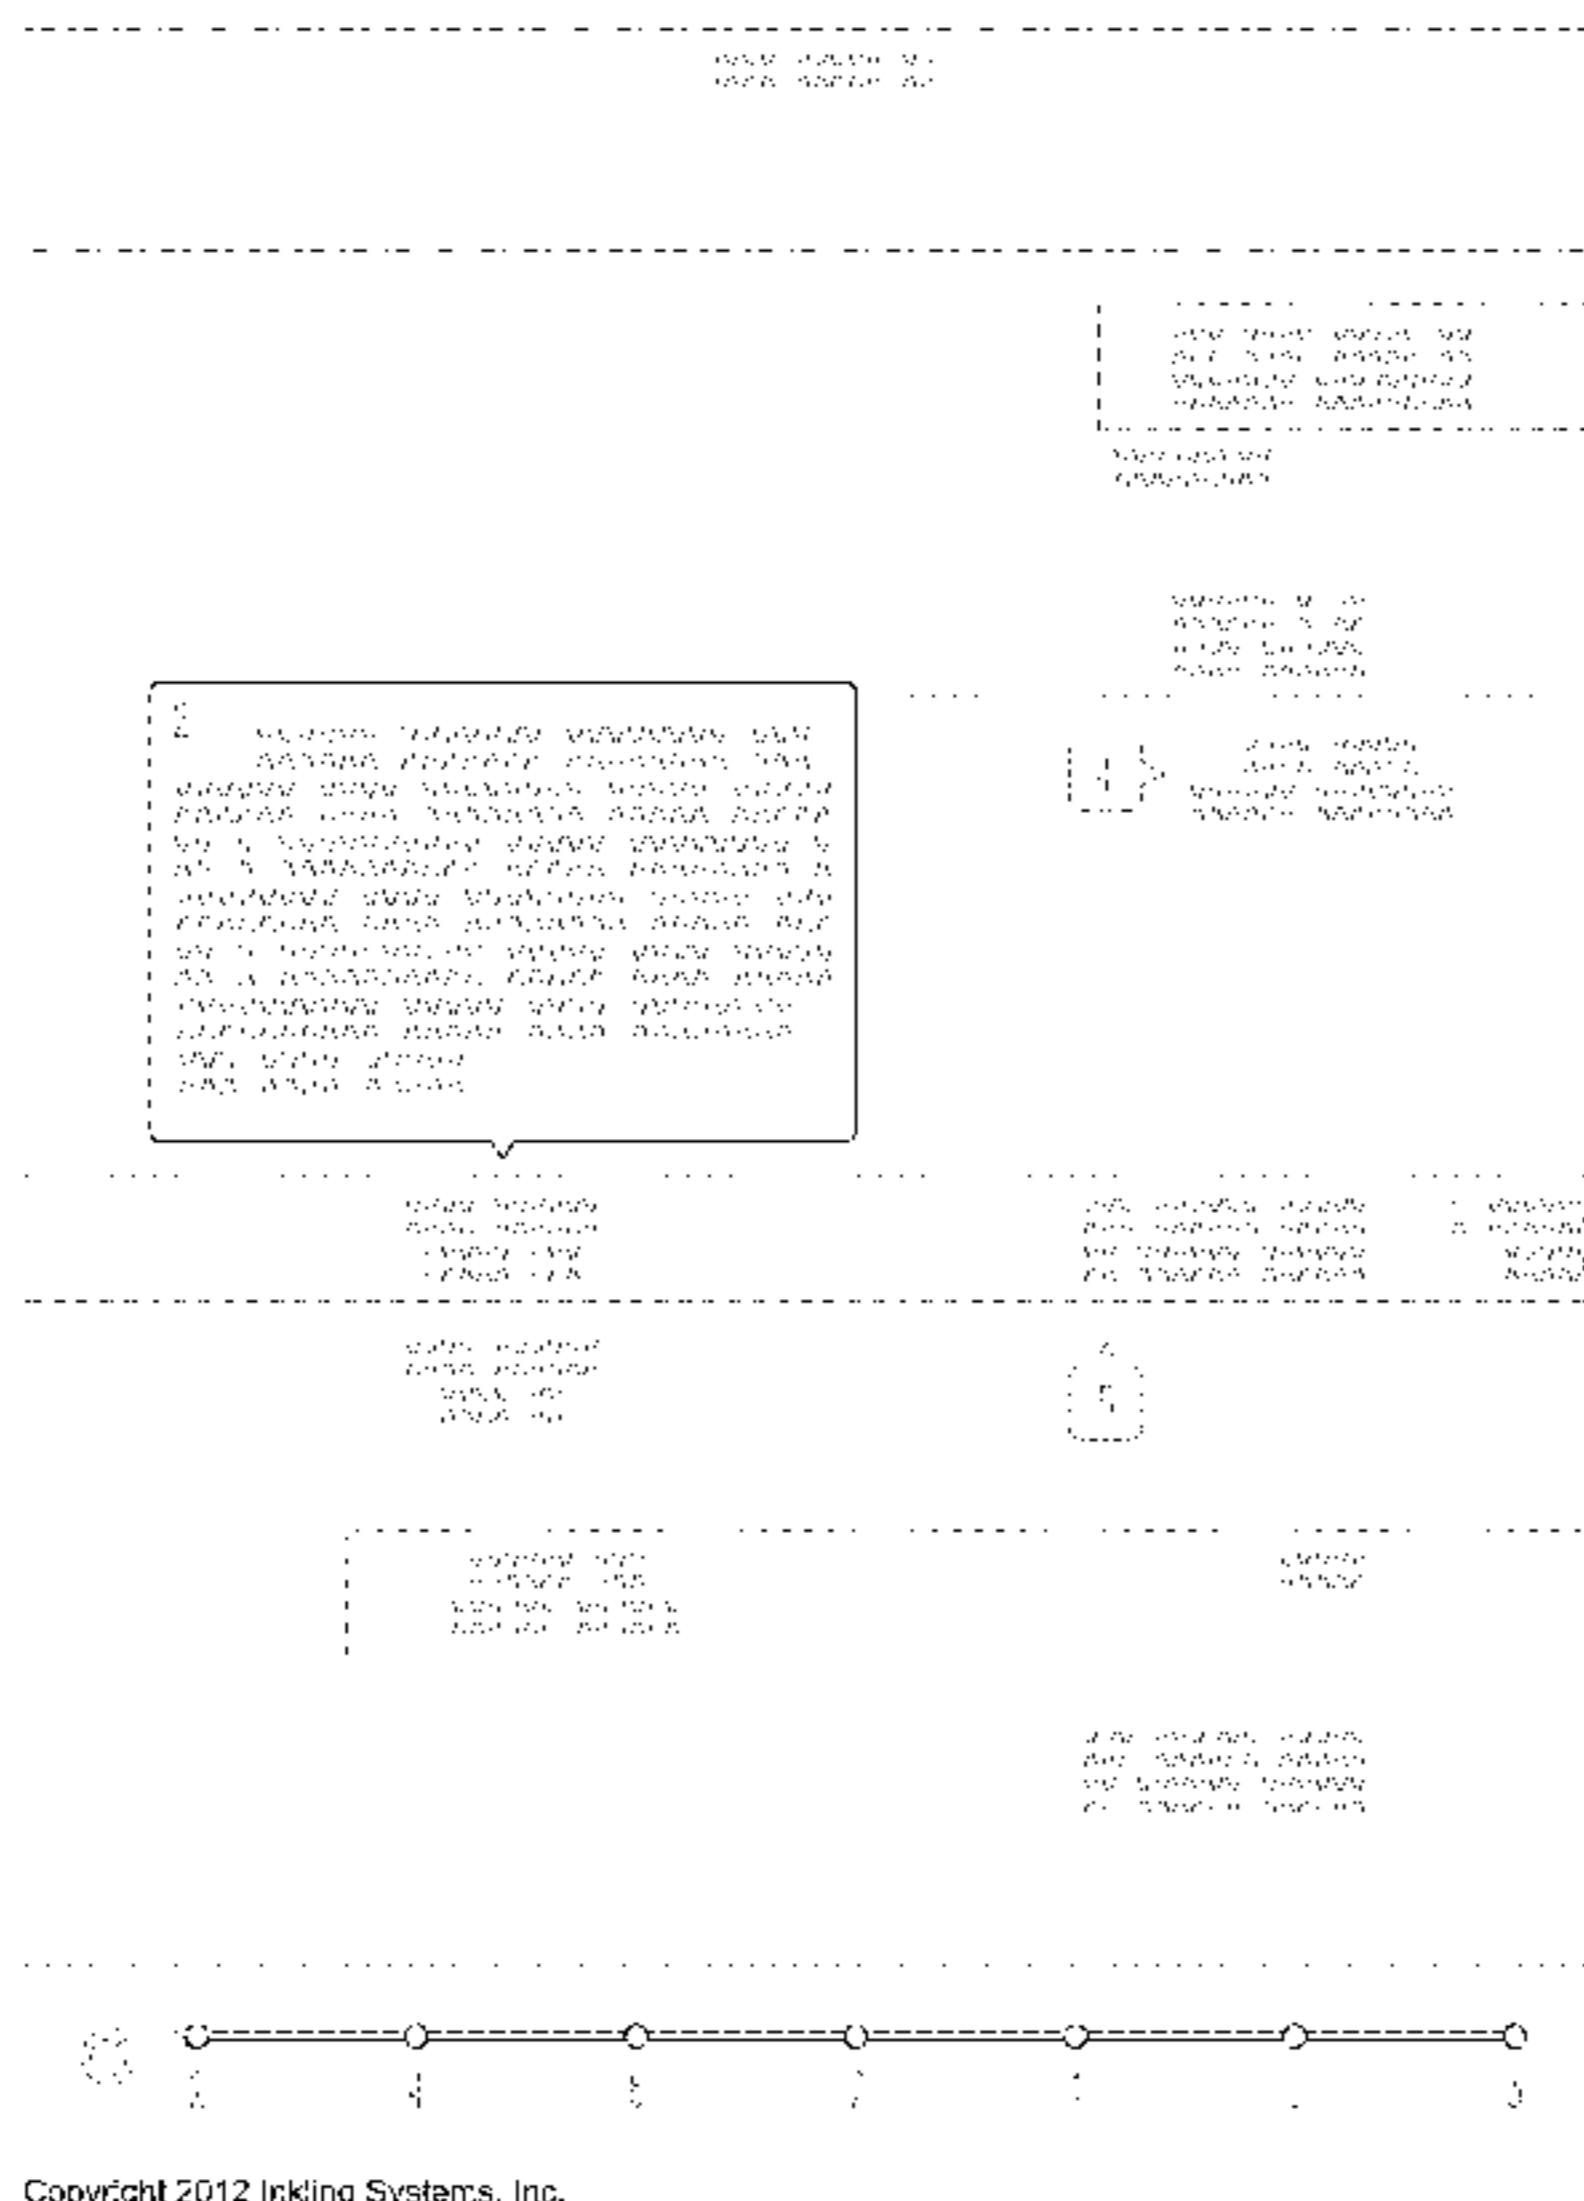

FIG. 3 is a front view of a third state thereof;

FIG. 4 is a front view of a fourth state thereof; and,

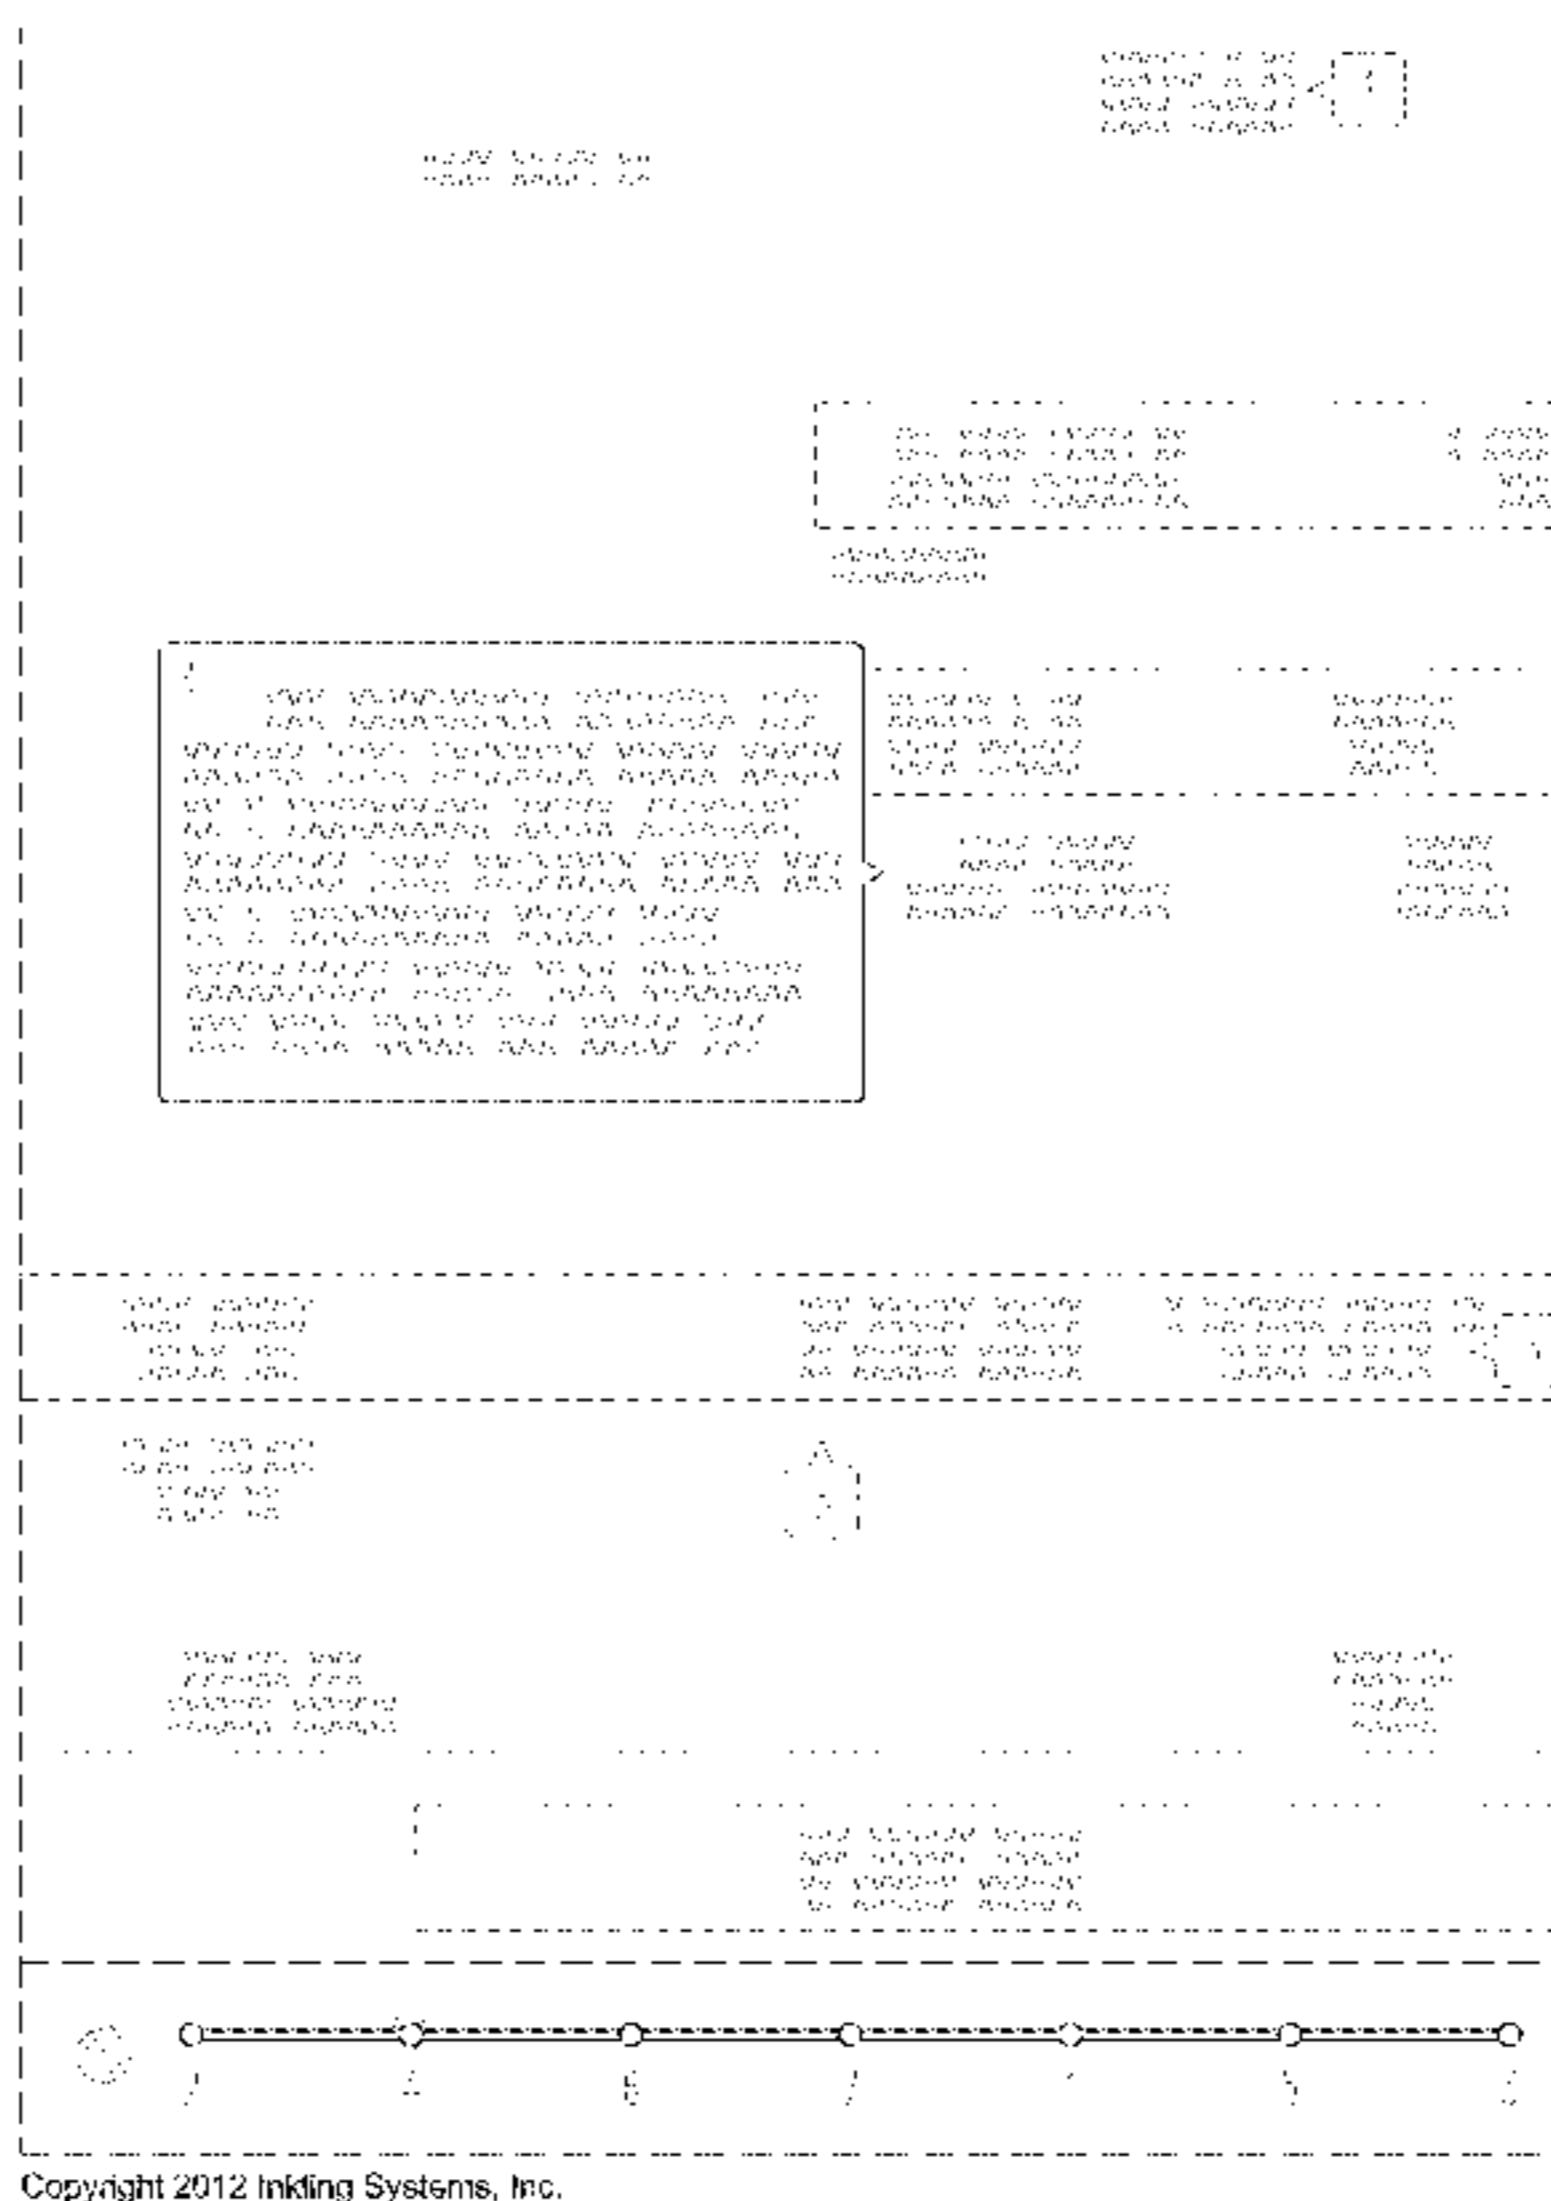

FIG. 5 is a front view of a fifth state thereof.

The broken lines showing a display screen is included for the purpose of illustrating the article and forms no part of the claimed design. The broken lines showing graphical elements within the display screen form no part of the claimed design. The appearance of the transitional graphical user interface sequentially transitions between the images shown in FIGS. 1-5. The process or period in which one image transitions to another image forms no part of the claimed design.
