(57) **CLAIM**

The ornamental design for a display screen or portion thereof with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image of a first embodiment of a display screen or portion thereof with animated graphical user interface showing my new design;
FIG. 2 is a front view of a second image thereof;
FIG. 3 is a front view of a third image thereof;
FIG. 4 is a front view of a fourth image thereof;
FIG. 5 is a front view of a first image of a second embodiment of a display screen or portion thereof with animated graphical user interface showing my new design;
FIG. 6 is a front view of a second image thereof;
FIG. 7 is a front view of a third image thereof; and,
FIG. 8 is a front view of a fourth image thereof.

In the first embodiment, the appearance of the transitional image sequentially transitions between the images shown in FIGS. 1 through 4. In the second embodiment, the appearance of the transitional image sequentially transitions between the images shown in FIGS. 5 through 8. The process or period in which one image transitions to another image forms no part of the claimed design.

The broken lines showing a display screen or portion thereof is included for the purpose of illustrating the article and forms no part of the claimed design. The broken lines showing graphical elements within the display screen form no part of the claimed design.

The greyscale fill within the claimed window in FIGS. 5-8 represents a contrast in appearance to the areas within the claimed window that do not contain greyscale fill.

1 Claim, 8 Drawing Sheets
