The appearance of the animated graphical user interface sequentially transitions between the images shown in FIGS. 1-10 and FIGS. 11-20. The process or period in which one image transitions to another forms no part of the claimed design. The even-length broken line showing of a mobile device and display screen illustrates the environment of the article and forms no part of the claimed design. The remaining broken lines of uneven-length, showing a portion of a display screen, form no part of the claimed design.
