(57) **CLAIM**

The ornamental design for a display screen with remote controller animated graphical user interface, as shown and described.

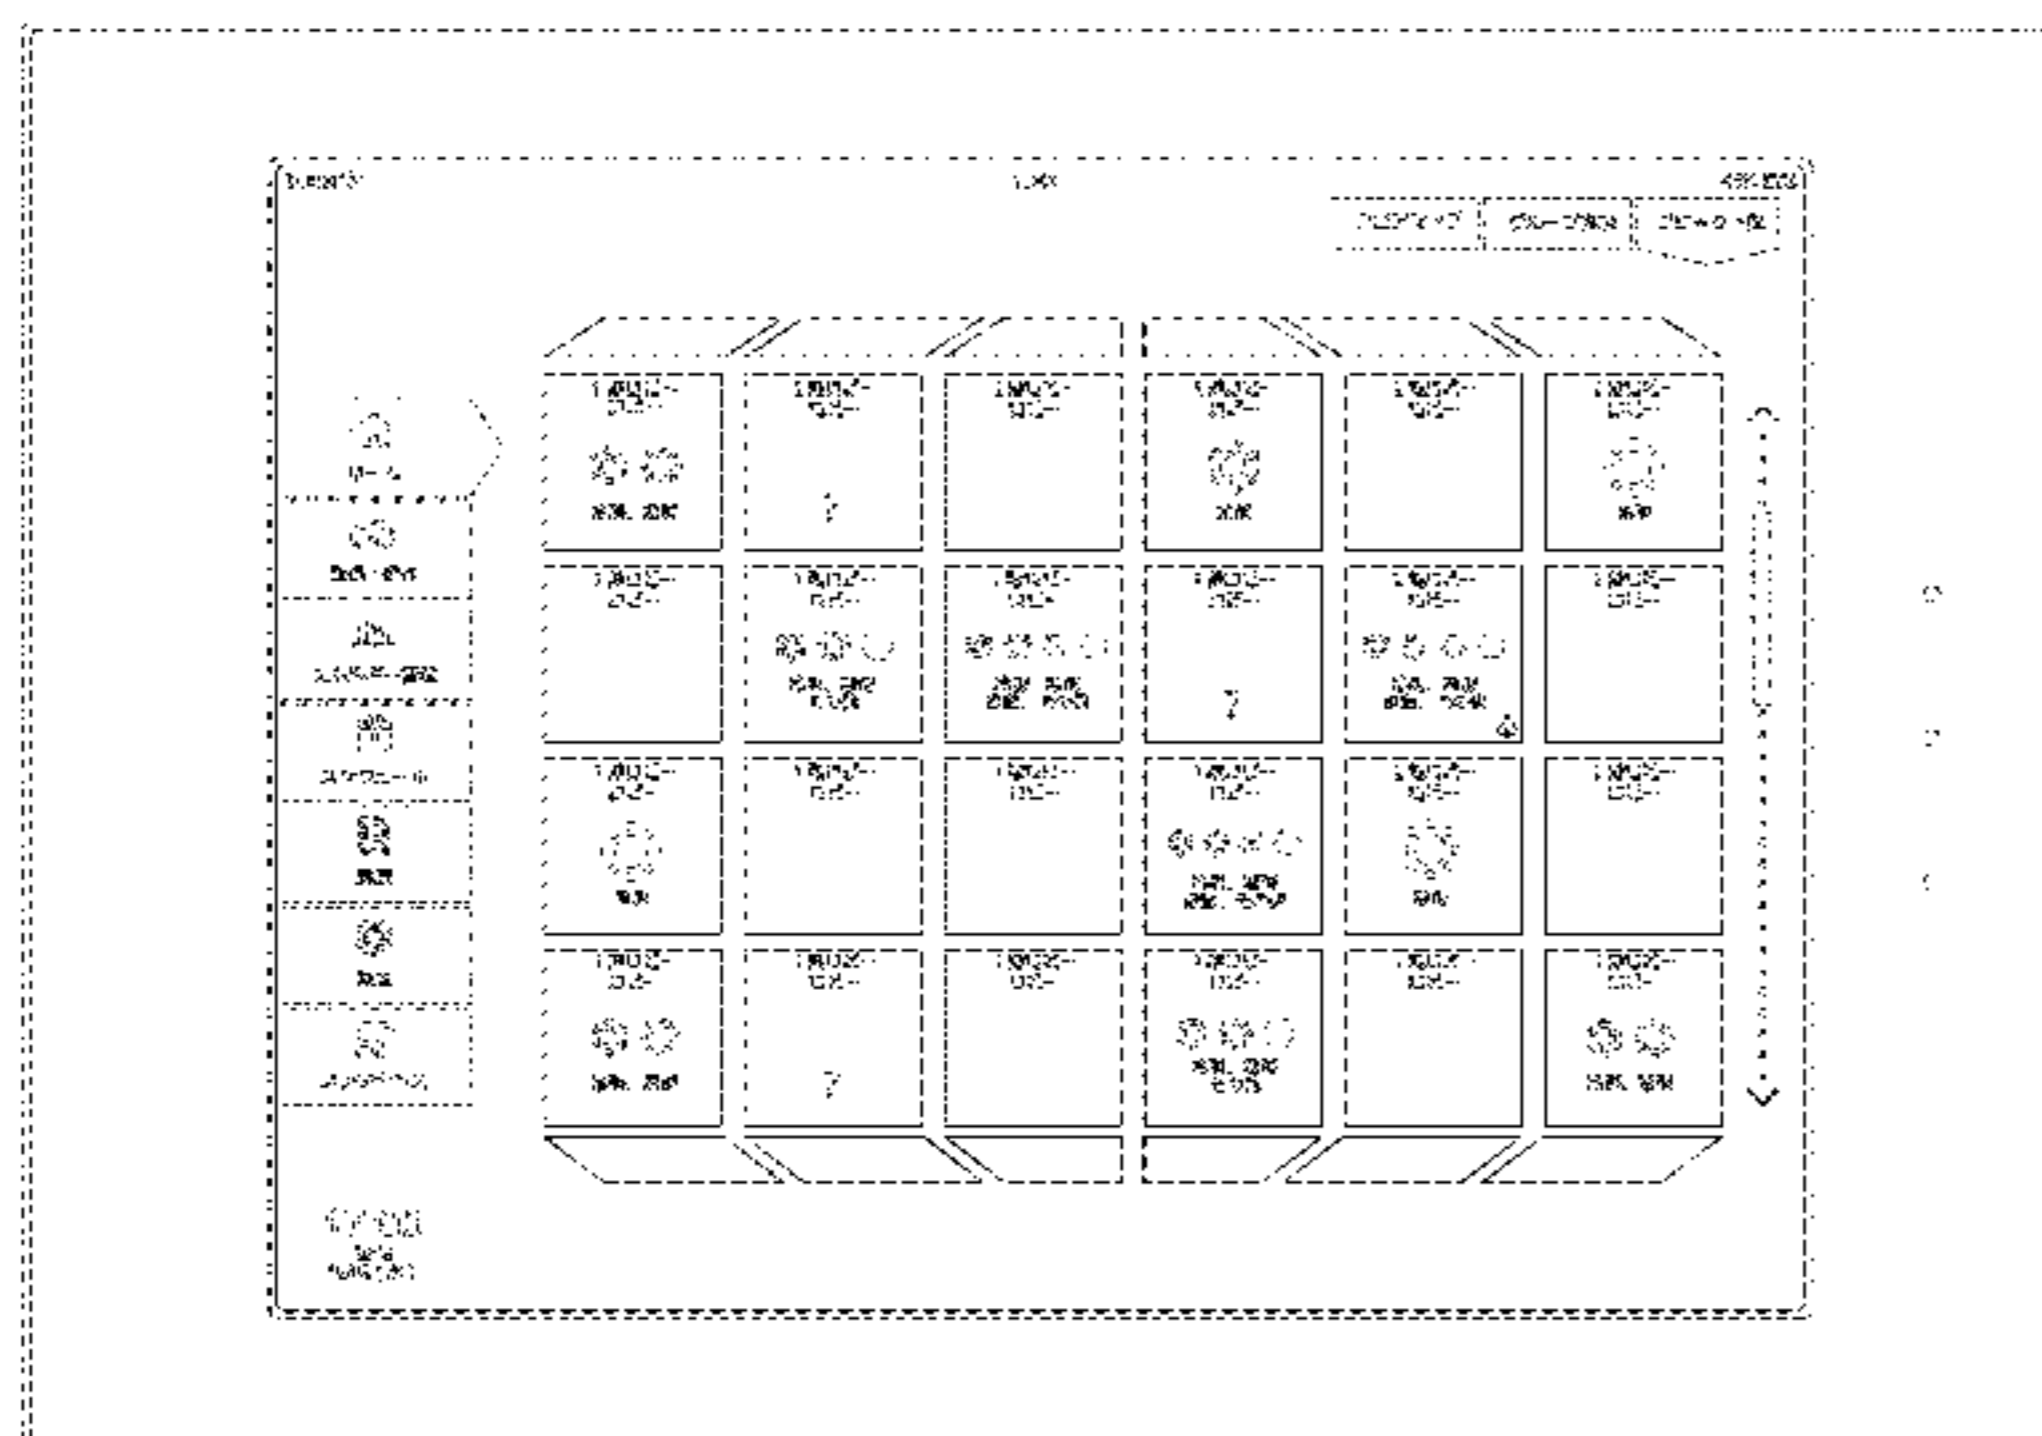

DESCRIPTION

FIG. 1 is a front view of a first embodiment showing a first image in a sequence for a display screen with remote controller animated graphical user interface;
FIG. 2 is a front view of a second image thereof;
FIG. 3 is a front view of a third image thereof;
FIG. 4 is a front view of a second embodiment showing a first image in a sequence for a display screen with remote controller animated graphical user interface;
FIG. 5 is a front view of a second image thereof;
FIG. 6 is a front view of a third embodiment showing a first image in a sequence for a display screen with remote controller animated graphical user interface;
FIG. 7 is a front view of a second image thereof;
FIG. 8 is a front view of a third image thereof;
FIG. 9 is a front view of a fourth embodiment showing the first image in a sequence a for display screen with remote controller animated graphical user interface; and,
FIG. 10 is a front view of a second image thereof.

The broken lines shown represent unclaimed subject matter of display screen with remote controller animated graphical user interface and form no part of the claimed design.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-3, FIGS. 4-5, FIGS. 6-8 and FIGS. 9-10. The process or period in which an image transitions to another forms no part of the claimed design.

1 Claim, 10 Drawing Sheets
