(57) **CLAIM**

I claim the ornamental design for the interactive digital entertainment kiosk, as shown and described.

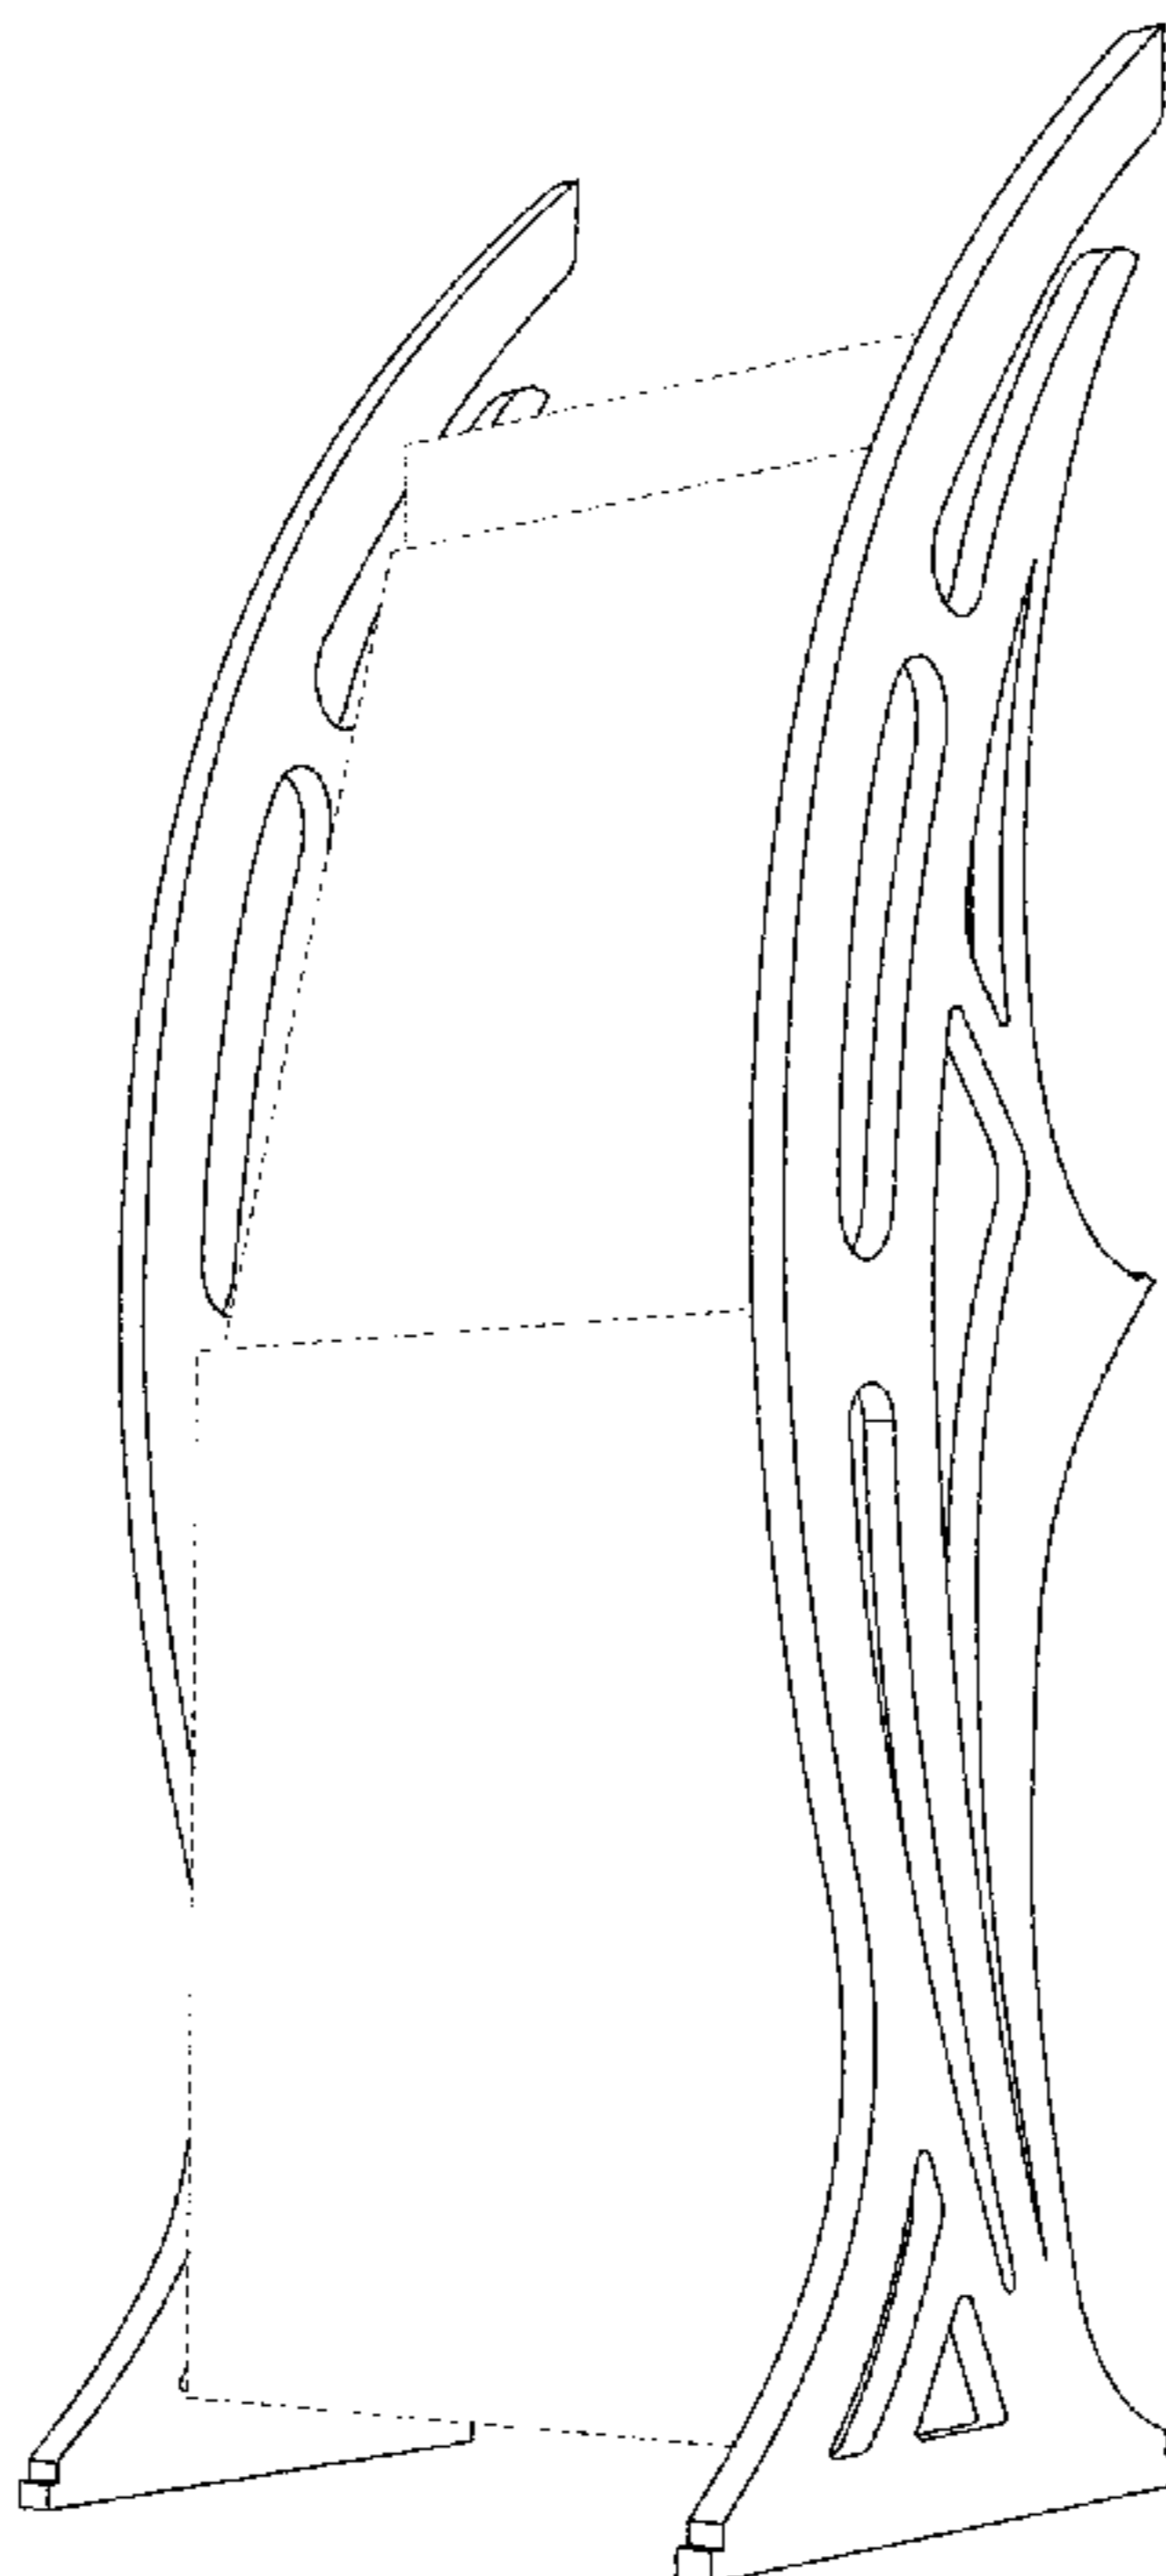

DESCRIPTION

FIG. 1 is a front perspective view of an interactive entertainment kiosk in accordance with the present invention; and, FIG. 2 is a right side view of the interactive entertainment kiosk in FIG. 1.

The broken lines showing the remainder of the electronic device are directed to environment. None of the broken lines form a part of the claimed design.

The left side view is a mirror image of the right side view visible in FIG. 1. The interactive entertainment kiosk includes a plain and unornamented bottom, which is not shown.
