(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image of a sequence for a display screen with graphical user interface showing our new design;

FIG. 2 is a front view of a second image thereof; and,

FIG. 3 is a front view of a third image thereof.

The broken lines showing of the electronic device are included for the purpose of illustrating environmental structure while the broken line showing of the display screen is included for the purpose of illustrating a portion of the article; all broken lines form no part of the claimed design.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another image forms no part of the claimed design.

1 Claim, 3 Drawing Sheets
