(57) **CLAIM**

The ornamental design for portions of eyeglass components, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of portions of eyeglass components in which an embodiment of the new design has different shading techniques, including the line shading in some areas and the stippling in other areas of the portions of eyeglass components, that do not represent a contrast in appearance and do not represent any specific color, texture and/or material of the portions of eyeglass components; and in which an embodiment of the new design has different shading techniques, including the line shading in some areas and the stippling in other areas of the portions of eyeglass component, that do represent a contrast in appearance, but are not intended to represent any specific color, texture and/or material;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a rear elevational view thereof;

FIG. 4 is a left side elevational view thereof, the right side elevational view being a mirror image thereof;

FIG. 5 is a top plan view thereof; and,

FIG. 6 is a bottom plan view thereof.

The dot-dash-dot broken lines in FIGS. 1 and 3-6 around the face and earstems of the eyeglass and in FIG. 2 around the face of the eyeglass denote unclaimed boundaries of the claimed design, and the dash-dash broken lines in the Figures show portions of the eyeglass which form no part of the claimed design.

1 Claim, 4 Drawing Sheets
