(57) **CLAIM**

I claim the ornamental design for a net with snare closure for lobster catch, as shown and described.

DESCRIPTION

FIG. 1 is a top view of the net with snare closure.
FIG. 2 is a right side view of the net with snare closure (the left side view being a mirror image of the right view).
FIG. 3 is a front view of the net with snare closure.
FIG. 4 is a rear view of the net with snare closure.
FIG. 5 is a bottom view of the net with snare closure; and,
FIG. 6 is a perspective view of the net with snare closure.
The fragmentary net as seen in FIGS. 1-5 is understood to continue throughout the entire net area as in FIG. 6.
