(57) **CLAIM**

The ornamental design for a portion of a display screen with icon, as shown and described.

DESCRIPTION

The FIGURE is a front view of a portion of a display screen with icon showing the new design.

The broken lines shown in the drawings represent a portion of a display screen with icon that form no part of the claimed design.

We have invented a new design for a portion of a display screen with icon, as would appear on a computing tablet, smart phone, computer display, laptop, user interface on an imaging device, or the like, as set forth in the following specification.
