The ornamental design for a threaded tapered mold, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a threaded tapered mold showing our new design;
FIG. 2 is a back perspective view thereof;
FIG. 3 is a side elevational view thereof;
FIG. 4 is a top plan view thereof;
FIG. 5 is a bottom plan view thereof; and,
FIG. 6 is a cross-sectional side view drawn along line 6-6 in FIG. 3 thereof.

The submitted line drawings (FIGS. 1-6) show some additional solid lines on the threaded tapered mold; some of these solid lines are not meant to convey actual solidly drawn lines, such as actual surface markings or ornamentation. As is generally recognized by persons skilled in the art of preparing digital drawings, such solid lines are meant to convey shading or the boundaries for curved surfaces on the device.

The broken lines in the drawings depict unclaimed environmental subject matter.
