See application file for complete search history.

(57) **CLAIM**

The ornamental design for a pattern for a continuous feed media, as shown and described.

DESCRIPTION

The FIGURE is a plan view of the pattern for a continuous feed media showing my new design.

The broken lines shown around the borders of the FIGURE merely indicate that a specific length and width of the continuous feed media form no part of the claimed design, and that the claimed design repeats uniformly in each page or section of the continuous feed media. The broken lines do not form any part of the claimed design.

1 Claim, 1 Drawing Sheet
