(57) **CLAIM**

The ornamental design for a mini bow sight, as shown and described.

DESCRIPTION

FIG. **1** is a front elevation view of my design for a mini bow sight that is vertical positioned and depicting a sight aperture having a relatively oval configuration.

FIG. **2** is a back elevation view of the mini bow sight of FIG. **1**.

FIG. **3** is a right side view of the mini bow sight of FIG. **1**.

FIG. **4** is a left side view of the mini bow sight of FIG. **1**.

FIG. **5** is a top elevation view of the mini bow sight of FIG. **1**; FIG. **5** depicts a bow string aperture vertically extending through the mini bow sight.

FIG. **6** is a bottom elevation view of the mini bow sight of FIG. **1**; FIG. **6** depicts the bow string aperture of FIG. **5** vertically extending through the mini bow sight.

FIG. **7** is a front elevation view of the mini bow sight of FIG. **1**, but with the mini bow sight vertically positioned such that a vertical axis is "tilted" to cause the longitudinal dimension of the oval sight aperture to appear correspondingly reduced.

FIG. **8** is back elevation view of the mini bow sight of FIG. **7**.

FIG. **9** is a right side elevation view of the mini bow sight of FIG. **7** depicting the vertical "tilt" of the mini bow sight of FIG. **7**; and,

FIG. **10** is a left side elevation view of the mini bow sight of FIG. **7** depicting the vertical tilt of the mini bow sight of FIG. **7**.
